10<sup>th</sup> May 2026

Dear Sirs,

**Re: Accompanied Site Inspection on 27<sup>th</sup> May**  
**Interested Party Reference number:** [REDACTED]

I wish to attend the accompanied site inspection on Wednesday 27<sup>th</sup> May referred to in your letter dated 7<sup>th</sup> May.

I am not quite clear from the letter what exactly is proposed. Our own property through which the cable line runs is at the north end of Langham. [REDACTED] [REDACTED] not possibly walk all the way from Colchester Park and Ride to our property.

However, I don't even know whether our property is to be included in the site inspection. I think it should be since it is going to be a difficult site for National Grid to dig their trenches and lay cables through because the site is so undulating at various different levels, also made more difficult by the Blackbrook Stream on the north side of our land and a high-pressure trunk Gas main on the south side.

Are we able to travel by car from the Park and Ride, though if one is not parking there, what is the point of meeting there?

Is it possible to meet nearer to our property, for example at St Margaret's Cross in Langham?

I look forward to hearing from you.

Yours sincerely,

**Gillian Mather**
