Thank you for your reply. I have shown the approximate run of pylons located behind the Ford Street conservation area and through Woodland Trust amenity land, over the river Colne and the green/blue corridor. The approximate extent of the Colne Valley is shown encircled in blue. This is an area of high landscape and heritage value that cannot be appreciated from a distance in a moving car and appears to have been overlooked. Please can you advise if a visit is planned.

With regards,

Caroline Homewood
