12 May 2026

Your Reference EN020027

Dear Ms Hunt

National Grid Electricity Transmission plc
The proposed Norwich to Tilbury Development Consent Order
Applicant's Deadline 4 submission

Introduction

This letter sets out the Applicant's submissions into the examination at Deadline 4.

The Rule 8 letter **[PD-011]** requires the submission of:

- Written post-hearing submissions.
- Applicant's mid-examination update to Statements of Common Ground.
- Mid-examination update to report on interrelationship with other infrastructure documents.
- The applicant's updated documents and application guide.
- Submission of policy compliance tracker document.
- Comments on any further information or submissions received by Deadline 3.
- Any further information requested under rule 17.

A full list of all documents and a note on whether the document supersedes a previous version of the document is attached at Appendix 1.

Written post-hearing submissions

The Applicant provides summaries of its oral submissions made at the hearings held during the week commencing 27 April 2026 and also responses to the Action Points from Issue Specific

Hearing 2 (ISH2) [EV9-023] and Action Points from Compulsory Acquisition Hearing 2 (CAH2) [EV10-013] in the following documents:

- 8.5.6 Applicant's Written Summary of Oral Submissions to Compulsory Acquisition Hearing 2.
- 8.5.7 Applicant's Written Summary of Oral Submissions to Issue Specific Hearing 2.
- 8.5.8 Applicant's Response to Issue Specific Hearing 2 Action Points.
- 8.5.9 Applicant's Response to Compulsory Acquisition Hearing 2 Action Points.

Applicant's mid-examination update to Statements of Common Ground (SoCG)

The applicant encloses an updated version of its Draft Statement of Common Ground Overview document and updated SoCG. The full list of updated SoCG is contained in Appendix A.

The Applicant has been engaging with stakeholders to progress SoCGs, focusing on moving matters to (ideally) 'agreed' or (in other cases) 'not agreed' so it is clear to both parties and the Examining Authority what matters remain under discussion and require further engagement. In some instances, the Applicant has submitted the SoCGs at Deadline 4 reflecting the Applicant's updated positions, and will work with stakeholders to submit their updates at Deadline 5.

Mid-examination update to report on interrelationship with other infrastructure documents.

The Applicant provides the mid-examination update to 8.4.3 - Report on Interrelationship with Other Infrastructure Projects, as requested in the Examining Authority's Rule 6 Letter [PD-009]. The updated report takes into account the new projects considered in Environmental Statement Chapter 17 - Cumulative Effects Addendum, also submitted at this deadline, and reflects progress with the Applicant's coordination of the Project with other projects since Deadline 1. As requested in Examining Authority's Written Questions 1 [PD-014], the Applicant has also included:

- The East Pye Solar NSIP (in response to question GEN 1.10)
- The plans requested by questions GEN 1.14, DES 1.8 and GEN 1.15

The Applicant also has considered developer and local authority responses to questions GEN 1.9 and GEN 1.17 in this update of the report.

The applicant's updated documents and application guide

At this deadline the Applicant has updated a number of documents. These fall into two categories:

Firstly, there are those updated to incorporate the proposed changes at Bulphan (Change Request 1) (Section H of the Project) and Little Bromley (Change Request 2) (Section C of the Project) following the ExA's procedural decision to accept the changes [PD-016]. These

documents were identified by the Applicant in Table 2.1 of the Schedule of changes to the DCO application documents submitted with Proposed Change Application 1 **[CR1-013]** and Proposed Change Application 2 **[CR2-013]**. Some of the documents identified in Table 2.1 of **CR1-013** and **CR2-013** were updated at Deadline 3 (see **REP3-002**) as requested by the ExA in **PD-016**, therefore, Appendix 2 sets out the remainder of application documents updated as a result of the proposed changes for Deadline 4. Many of these changes simply reflect the amended order limits.

Secondly there are documents that are updated for a range of other reasons. These are set out in Appendix 3. Some documents appear in both tables where there is more than one reason for the change.

Submission of policy compliance tracker document

In the Rule 6 Letter **[PD-009]**, the Examining Authority requested National Grid to provide:

- A National Policy Statement Tracker, which sets out the changes/modifications to any relevant updated National Policy Statement (NPS)
- A tracker related to any other new government policy intentions for energy and critical energy infrastructure that are not addressed within the NPSs
- Updates with regard to the draft NPPF (published December 2025).

In addition, the Examining Authority also requested a tracker on any National Development Management Policies (NDMP) and development plan documents published for consultation or adopted as National Grid considers them to be relevant to the Project.

The Examining Authority requested the production of a Policy Compliance Tracker for Deadline 1 **[REP1-133]**, Deadline 4, and Deadline 7.

This iteration of the Policy Compliance Tracker for Deadline 4 incorporates an assessment of the Project against emerging and adopted policies issued between 13 February and 17 May 2026.

In addition, this policy compliance tracker incorporates responses from Local Planning Authorities and Parish Councils to the Examining Authority Written Question GEN 1.3

The Applicant would note that since the publication of 8.4.2 Policy Compliance Tracker **[REP1-133]** there have been no updates to report on, regarding the following documents:

- Consultation Draft National Planning Policy Framework
- National Development Management Policies
- Transitional Regional Energy Strategic Plan.

Comments on any further information or submissions received by Deadline 3

A number of additional submissions were accepted into the examination at, or in advance of, Deadline 3. The Applicant has reviewed these documents and provided a response where content is directed to the Applicant and the Applicant considers it would be useful for the purposes of the examination to address a new point, provide a correction, or signpost to information provided elsewhere in the Applicant's documents that provides a response. In some cases, this is a cross reference to a response previously provided by the Applicant where this addresses the point made. These responses are contained in the following documents:

- 8.4.9 - Applicant's Comments on any Further Information or Submissions Received by Deadline 3.
- 8.4.10 - Applicant's Comments on Responses to ExQ1.
- 8.4.10.1 - Applicant's Comments on Pylons East Anglia Response to ExQ1.

Any further information requested under rule 17

Since Deadline 3 the ExA have issued two information requests under rule 17. These were issued on 17 April 2026 [PD-019] and 7 May 2026 [PD-020].

Rule 17 letter issued on 17 April 2026

There were 4 items covered in the rule 17 letter issued on 17 April 2026 [PD-019] and these are addressed below.

Ancient Woodland Technical Note

An Ancient Woodland Technical Note (AWTN) parts 1 to 5 [REP3-058] to [REP3-062] was submitted at deadline 3. In the Examining Authority's rule 17 letter dated 17 April [PD-019], the context for the AWTN was helpfully summarised and the Examining Authority noted that the Environmental Statement (ES) was considered to be adequate as part of the acceptance process. The Applicant has been asked in this context to explain its position on the question of whether the AWTN should be classified as "further information" in respect of regulation 20 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the EIA Regulations).

The AWTN was prepared in response to Natural England's updates to the Ancient Woodland Inventory in Essex in July 2025 and Suffolk in October 2025. Those additional updates post-date the data used to inform the original assessments in the Environmental Statement at the date of the application submission, and so to that extent we are updating the environmental information to account for them. This is not an unusual position in large infrastructure cases where the application and examination process extend over a long period. Such submissions (often described as "supplemental" or "addendum" information) are common in DCO applications and examinations into them.

We have considered whether or not the AWTN containing these updates is “further information”, as specifically defined in regulation 3 of the EIA Regulations. Upon reflection and examining issue further, the Applicant considers that the AWTN is not “further information” as defined in the EIA Regulations. The content of the AWTN does not impact the Examining Authority’s ability to reach a reasoned conclusion on the likely significant effects on ancient woodlands. Ancient woodlands were already a feature of the assessment in the Environmental Statement, as was the likely effect of the proposed mitigation (which is similarly proposed for the newly designated ancient woodlands). The subsequent designation of new ancient woodlands merely results in more of the same type of assessment and conclusion. As a result, there can be no suggestion that the AWTN was, or is, required in order to make the ES technically and lawfully acceptable, which is the relevant test.

The Applicant’s view is supported by Russell Harris KC and is in line with conclusions reached on many other DCOs in similar circumstances, albeit we appreciate each decision is based on its own facts.

Approach to Scenarios

Land to the south of Tilbury North Substation: Scenario B

The Rule 17 letter requests the submission, at Deadline 4, of the relevant documents and plans relating to the adoption of Scenario B in respect of land to the south of Tilbury North Substation (referred to as Scenarios 2.11 and 2.18 in **8.11 Approach to Scenarios [REP3-063]**).

- As outlined in its oral submissions during Compulsory Acquisition Hearing 2 on Thursday 30th April, the Applicant has expedited the preparation and submission of those plans and documents which are of most immediate relevance from the perspective of the Examining Authority and other Interested Parties, including Thurrock Council, National Highways (Lower Thames Crossing) and Bloor Homes. Accordingly the following documents are submitted at Deadline 4:
- 2.3 Works Plans - Section H, (Revision B)
- 8.15.1 Proposed Project Design - Scenario 18 (Table 2.18), (Revision A)
- 8.15.2 Proposed Project Design - Permanent Features - Scenario 18 (Table 2.18), (Revision A)
- 8.15.3 Class of Rights Plans - Section H - Scenario 18 (Table 2.18), (Revision A)

Taken together, the Applicant’s Deadline 4 submissions are intended to enable a full understanding of the changes to the Project design and land rights as a consequence of the decision to proceed with Scenario B.

The Applicant confirms that updated versions of all other application documents relevant to Scenario B for the connection between the proposed substation and the YYJ overhead line will be submitted at Deadline 5. The Applicant will, in parallel, continue to maintain ongoing dialogue with each of those Interested Parties noted above.

Other Design Scenarios

In addition, the Rule 17 letter seeks further clarification from the Applicant regarding the other design scenarios referenced in **8.11 Approach to Scenarios [REP3-063]**.

In order to assist the Examining Authority, the Applicant has included within **8.11 Approach to Scenarios (Revision B)** an overarching summary table which sets out the current status of each of the design scenarios.

As matters stand, the Applicant has been able to reach a decision point in respect of 9 out of the total of 19 design scenarios, with any remaining consequential updates to relevant application documents due to be made at Deadlines 5 and 6 (or earlier where possible).

Resolution of a further 3 design scenarios is contingent upon ongoing stakeholder engagement, whilst the Applicant has concluded that it must necessarily retain flexibility in respect of the remaining 7 design scenarios for the reasons explained in **8.11 Approach to Scenarios (Revision B)**.

The Applicant intends to provide the Examining Authority with further regular updates as to progress in this respect.

Environmental Statement updates

The ExA sought an addendum or technical note to the ES Chapters 10 (Health and Wellbeing) and 15 (Socio-economics, Recreation and Tourism) which compares the IMD2019 and IMD 2025 for all local authorities, including county authorities, within which the proposed development is situated, along with a full technical analysis and conclusions arising from the comparison data.

The ExA also requested the documents, or extracts from them, referenced in the applicant's response to ExQ1 SET 1.2, SET 1.3 and SET 1.6 **[REP3-074]**.

The following documents are provided:

- 8.16 - Health and Wellbeing and Socio-Economics Recreation and Tourism Technical Note
- 8.9.1.2 -Addendum to ExQ1 SET 1.2, SET 1.3 and SET 1.6

Advice letter on bats and letters of no impediment from Natural England

The ExA asked for an advice letter from Natural England dated 30 March 2026 and all letters of no impediment (LONI). The applicant is in receipt of LONI in respect of badgers, hazel dormouse and water vole. The following document is therefore submitted:

- 8.9.1.1 - Addendum to ExQ1 BIO1.6 – Advice Letter on bats and letters of no-impediment from Natural England.

Rule 17 Letter issued on 7 May 2026.

The Rule 17 letter issued on 7 May 2026 **[PD-020]** related to item 9 on the agenda **[EV2-006]** for ISH2 which there was insufficient time to cover at the session on Wednesday 29 April 2026. The responses to these questions are contained in a separate document:

- 8.17 - Response to Rule 17 Letter - Historic Environment

Next Steps

We trust all is in order. If you have any queries about the content of this letter, please contact Ian Fletcher.

Please acknowledge safe receipt of this letter.

Yours sincerely,

Simon Pepper
Project Director

Appendix 2.

Documents supplied at Deadline 4 as a result of the two change requests

Document Ref	Document Title	Comment
1.3	Guide to the Application	Document updated to reflect revision changes to DCO application documents due to accepted change applications.
2.0	Guide to the Plans	Guide to the Plans updated to reflect new features on the updated Volume 2 plans due to the accepted change applications
2.1	Location and Master Key	Plan updated to show the revised Order Limits due to accepted change applications.
2.2	Land Plans - Sections C & H	The Applicant submitted a Book of Plans with its Proposed Change Application 1 [CR1-017] and Proposed Change Application 2 [CR2-017]. The Book of Plans only included the updated versions of the affected sheets of 2.2 Land Plans to identify the additional land and land affected by the proposed provision if additional compulsory acquisition as a result of Change Request 2 (Little Bromley) (Section C) and Change Request 1 (Bulphan) (Section H). Therefore, 2.2 Land Plans (Sections C and H) have been updated to include the additional and/or amended sheets following the ExA's procedural decision to accept the change applications.
2.3	Works Plans - Sections C & H	The Applicant submitted a Book of Plans with its Proposed Change Application 1 [CR1-017] and Proposed Change Application 2 [CR2-017]. The Book of Plans only included the updated versions of the affected sheets of the Applicant's Volume 2 Plans (where relevant) as a result of Change Request 1 (Bulphan) (Section H) and Change Request 2 (Little Bromley) (Section C). Therefore, the 2.3 Works Plans (Sections C and H) have been updated to include the additional and/or amended sheets following the ExA's procedural decision to accept the change applications.
2.4	Traffic Regulation Order Plans- Sections C & H	The Applicant submitted a Book of Plans with its Proposed Change Application 1 [CR1-017] and Proposed Change Application 2 [CR2-017]. The Book of Plans only included the updated versions of the affected sheets of the Applicant's Volume 2 Plans (where relevant) as a result of Change Request 1 (Bulphan) (Section H) and Change Request 2 (Little Bromley) (Section C). Therefore, the 2.4 Traffic

6.12.F3	Environmental Statement Figure 12.3 - Water Framework Surface Waterbody Status	This figure, as required under APFP Regulation 5(2)(l), has been updated to show the revised Order Limits following the ExA's procedural decision to accept the change applications.
6.13.F1	Environmental Statement Figure 13.1 - LVIA Study Area and Landscape Designations	This figure, as required under APFP Regulation 5(2)(l), has been updated to show the revised Order Limits following the ExA's procedural decision to accept the change applications.
7.3	Outline Construction Traffic Management Plan Appendix C - Indicative Highway Mitigation Plans - Section C & H	Plans updated due to accepted change applications.
7.6	Outline Public Rights of Way Management Plan	Document updated due to accepted change applications.

Appendix 3. Other Documents supplied at Deadline 4

∴

Document Ref	Document Title	Reason for Update
1,3	Guide to the Application	Requested in Rule 8 letter [PD-011] Annex A
2.2	Land Plans – Sections A-H	Updates and corrections since last route wide update in October 2025.
2.16	Trees and Hedgerows to be Removed and/or Managed Plans	To match updated Ancient Woodland data
3.1	Draft DCO	Updates – especially to schedules
3.2	Explanatory Memorandum	To accompany updates to draft DCO
3.5	Schedule of Changes to the Draft DCO	To accompany updates to draft DCO
4.1	Statement of Reasons – Appendix A - Compulsory Acquisition Schedule	Updates since previous deadline
4.1	Statement of Reasons - Appendix B - Schedule of Negotiations	Updates since previous deadline
4.1	Statement of Reasons - Appendix C - Special Category Land Report	Updates to Special Category Land
4.3	Book of Reference	Updates and Corrections
4.4	Land Rights Tracker	Rule 6 letter [PD-009] Annex F section 4 requests this at each deadline.
4.7	Crown Land Schedule Tracker	ExQ1 CA-1.4 [PD-014] requested this at every deadline.
6.11.A4	Environmental Statement Appendix 11.4 - Geophysical Survey (Priority Areas) Results Report	Updated following Suffolk CC comments at Deadline 2
6.13.A4	Environmental Statement Appendix 13.4 - Residential Visual Amenity Assessment	Updated following Applicants response to ExQ1 [PD-014] LV 1.8, LV 1.9, LV 1.10, LV 1.11 and LV 1.12 and in response to a commitment within 8.4.8 Applicant's

Document Ref	Document Title	Reason for Update
		Comments on any Further Information or Submissions Received by Deadline 2 (REP2-085)
6.13.F6	Environmental Statement Figure 13.6 – Landscape Character Types and Landscape Character Areas	Appendix A of the Errata
6.13.F7 / 8.1	Environmental Statement Figure 13.7 - Visual Receptors and Viewpoints	Appendix A of the Errata
6.15.A2	Environmental Statement Appendix 15.2 - Review of Aviation Impact	Updated in response to ExQ1 [PD-014] SS1.6
6.17.1	Environmental Statement Chapter 17 - Cumulative Effects - Response Update	Updated to a baseline date between 2 April 2025 and 31 January 2026
7.2	Outline Code of Construction Practice	Updated in response to ExQ1 [PD-014] including NV 1.3 and SET 1.5, discussions at the ISH2, comments received at Deadline 2 and discussions with Braintree DC
7.2	Outline Code of Construction Practice Appendix D - Outline Dust Management Plan	Updated following Applicants response to ExQ1 [PD-014] AQ 1.2
7.2	Outline Code of Construction Practice Appendix E - Community Engagement and Public Information	Updated follow Applicants response to ExQ1 [PD-014] HW 1.3
7.2	Outline Code of Construction Practice Appendix F - Outline Noise and Vibration Management Plan	Updated following Applicants response to ExQ1 [PD-014] NV 1.6 and NV 1.8 and discussions at ISH2
7.3	Outline Construction Traffic Management Plan	Updated in response to Local Highway Authority comments to our deadline 3 submissions and providing additional clarity and assurances in terms of commitments, as raised through ISH2
7.4 / 8.1	Outline Landscape and Ecological Management Plan Appendix A - Arboricultural Impacts Plan	Appendix A of the Errata
7.12	Errata Visualisations – Parts 4, 7 and 9	Appendix A of the Errata

Document Ref	Document Title	Reason for Update
7.16	Design Approach for Site Specific Infrastructure (DASSI)	This update primarily addresses the request for further detail on the lighting of new and upgraded substations, in line with ExQ1 DES 1.9. [PD-014] The update also aligns the respective substation and cable sealing end compound platform levels with the 2.6.1 Errata Design and Layout Plans - Subs and Cables [REP1-003] .
8.1	Errata List	Errata Schedule as set out in Section 7 of Annex B to the Rule 8 letter [PD-011]
8.2	Drainage Strategy DCO	This update has been drafted in response to continued engagement and consultation with the LLFA's and in response to comments by others, received at Deadline 2 and at Deadline 3 including comments from the LLFA's and WMA.
8.2.1	Drainage Strategy - Appendix B	This update has been drafted in response to continued engagement and consultation with the LLFA's and in response to comments by others, received at Deadline 2 and at Deadline 3 including comments from the LLFA's and WMA.
8.7	Statutory Undertaker Tracker	ExQ1 CA-1.7 [PD-014] requested this at every deadline.
8.9.1.3	Additional Visuals for ExQ1 - HE1.13	Updated following Applicants response to ExQ1 to question HE1.13 [PD-014]
8.12	Special Category Land Schedule	ExQ1 CA-1.6 [PD-014] requested this at every deadline.
8.14	Schedule of affected persons objecting to CA or TP of their lands or rights	ExQ1 CA-1.3 [PD-014] requested this at every deadline.
