Dear Ms Hunt

National Grid Electricity Transmission plc
The proposed Norwich to Tilbury Development Consent Order
Applicant's Deadline 7 submission

Introduction

This letter sets out the Applicant's submissions into the examination at Deadline 7.

The revised examination timetable contained in the ExA's letter of 22 May 2026 **[PD-022]** requires the submission of the following from the Applicant at this deadline:

- comments on the RIES and responses to any associated questions (if provided)
- comments on the ExA's commentary on, or schedule of changes to, the draft development consent order (if provided)
- comments on any further information/ submissions received by Deadline 6
- any further information requested by the ExA under Rule 17 of The Infrastructure Planning (Examination Procedure) Rules 2010

Final updated documents:

- signed and dated statements of common ground
- report on interrelationship with other infrastructure projects.
- draft development consent order to be submitted by the Applicant in the statutory instrument (SI) template with the SI template validation report
- book of reference
- land rights tracker
- signed and dated other agreements

- final versions of any updates to the Environmental Statement including associated appendices and figures, and other documents including management plans/ control documents
- Habitats Regulations Assessment, and appropriate assessment/ derogation case (if required)
- policy compliance tracker document, if required, in regard to any relevant published and emerging policies

A full list of all documents and a note on whether the document supersedes a previous version of the document is attached at Appendix 1.

Comments on the RIES and responses to any associated questions (if provided)

The Report on Implications for European Sites (RIES) **[PD-030]** was published on 7 July 2026. The RIES contains 4 questions, some of which are for the Applicant.

The applicant has produced the following document which comment on the RIES and addresses the questions for the applicant.

- 8.33 - Comments on the RIES and responses to any associated questions

Comments on the ExA's commentary on, or schedule of changes to, the draft development consent order (if provided)

No ExA commentary on, or schedule of changes to, the draft DCO has been provided and therefore no related document is submitted.

Comments on any further information/ submissions received by Deadline 6

The Applicant comments on the further information received by Deadline 6 in the following documents:

- 8.4.16 Applicant's Comments on any Further Information or Submissions Received by Deadline 6
- 8.4.17 Applicant's Comments on Post-Hearing Submissions and Interested Party Action Points

Any further information requested under Rule 17

Rule 17 letter issued on 18 June 2026

The letter of 18 June 2026 **[PD-028]** requested a direct response to category 1 and 2 affected persons objections and related updates to the Schedule of Affected persons.

As set out in our Deadline 6 Cover letter **[REP6-001]** due to the volume and complexity of this exercise across the extent of the project area and technical disciplines, and the need to ensure all responses are accurate, complete and quality assured, it was not possible to finalise this work for Deadline 6. Work on these responses has continued and we are now able to submit the following documents:

- 8.27 Response to Category 1 and 2 Affected Persons Objections
- 8.14 Schedule of affected persons objecting to CA or TP of their lands or rights

Signed and dated statements of common ground

The Applicant has submitted an updated 5.9 Statement of Common Ground – Overview (Revision G) to reflect the final status of SoCGs. As of Deadline 7, 72 SoCGs have been signed and 24 SoCGs have been submitted at Deadline 7 as a final, unsigned version. Unsigned SoCGs are largely where stakeholders have not responded to correspondence regarding the SoCG, where a stakeholder has declined to sign the SoCG, or due to timeframes required for stakeholder sign-off. Any SoCG that were submitted at Deadline 7 as “final” but were subsequently signed. In all these cases, the Applicant has submitted the final version of each SoCG to reflect the latest nature of discussions.

Due to the need to establish a point in time at which no more edits could be made to the SoCG there may be SoCG that do not represent recent agreements. For example, the Applicant is aware that the wording in document 8.3.43 Final Statement of Common Ground -British Pipeline Agency does not represent the most up to date position, In that case document 8.7 Statutory Undertaker Tracker contains a more recent summary. There is also a statement of the current position in the section on the draft DCO below.

The full list of signed and dated statements of common ground submitted at this deadline are listed in Appendix 2.

Report on interrelationship with other infrastructure projects.

The Rule 6 letter **[PD-009]** requested at annex F2 that the applicant submits a standalone report on the interrelationship with other infrastructure projects, where the progress of the other projects and how they interrelate with the proposed development is set out in a simplified summary form (with cross references to the more detailed information in the ES). Versions have been submitted at deadlines 1 **[REP1-134]** and 4 **[REP4-296]**.

Updates at this deadline take into account feedback from other parties, mainly local planning authorities, as provided in their responses to ExQ2 GEN 2.4. The following document is supplied:

- 8.4.3 Report on Interrelationship with Other Infrastructure Projects

Draft development consent order to be submitted by the applicant in the statutory instrument (SI) template with the SI template validation report

Following a number of questions and submission received from the ExA and IPs, each of which the Applicant has carefully reviewed, the Applicant has incorporated a number of changes to the draft Order that include: clarifications around the limits of deviation; the inclusion of drafting to align the timescales and processes of the 3.1 Draft DCO [Revision G] and any relevant permit schemes; the ability for National Grid to consent to the use by UKPN, UKOP or the LTC

undertaker to use its temporary use powers and amendments to make clear it is possible for more than one GVD to be served in connection with land; amendments to the A122 (Lower Thames Crossing) Development Consent Order 2025 in respect of compensatory habitat works; and an additional new “blue pencil” schedule in connection with landscape compensation, offsetting and enhancement in lieu of the previously proposed section 106 agreement. Some additional controls are introduced into Schedule 3 (requirements) and the 3.1 Draft DCO [Revision G] also includes both new and updated protective provisions. Further amendments are made to reflect decisions on scenarios and to correct errata, which are set out in 8.1 Errata List – Deadline 6 [REP6-094].

The following documents are therefore provided:

- 3.1 Draft DCO
- 3.2 Explanatory Memorandum
- 3.3 Draft DCO - Validation Report for DCO
- 3.4 Draft DCO - Editable Word Version
- 3.5 Schedule of Changes to the Draft DCO

Book of Reference

An updated Book of Reference is supplied. This incorporates all known changes.

- 4.3 Book of Reference

Land rights tracker

The Rule 6 letter [PD-009] Annex F section 4 requests a land rights tracker at each deadline and it is specifically requested at this deadline in the ExA's letter of 22 May 2026 [PD-022].

The following document is therefore supplied:

- 4.4 Land Rights Tracker

Signed and dated other agreements

At deadline 5 [REP5-224] and 6 [REP6-126] we provided a draft of an agreement pursuant to section 106 of the Town and County Planning Act 1990 in respect of National Landscape. That agreement is now signed and sealed by both parties and is therefore submitted at this deadline

- 8.25 - National Landscape - Agreement pursuant to section 106 of the Town and Country Planning Act 1990

Final versions of any updates to the Environmental Statement including associated appendices and figures, and other documents including management plans/ control documents

The final version of the Environmental Statement (ES) is submitted at deadline 7. This includes all updates and errata previously submitted. The documents listed in Appendix 3 are therefore supplied.

Habitats Regulations Assessment, and appropriate assessment/ derogation case (if required)

No HRA and appropriate assessment/derogation case is required and therefore no related document is submitted.

Policy compliance tracker document, if required, in regard to any relevant published and emerging policies

A Policy Compliance Tracker has been produced for Deadline 7 This includes an assessment of the Project against emerging and adopted policies issued between 18 May 2026 and 13 July 2026 and includes an assessment of the Project against:

- Electricity Transmission Design Principles (ETDP) published by NESO on 30 June 2026
- Chelmsford City Council Local Plan Review (Pre-submission Regulation 19) (Draft Plan February 2025) submitted for Examination on 5 June 2026
- Swainsthorpe Neighbourhood Plan draft published in accordance with Regulation 16 of the Neighbourhood Planning (General) Regulations, 2012 (as amended). The consultation period runs between 10 June and 22 July 2026.

The first of these documents is new, but the others were previously addressed in an earlier Policy Compliance Document and track changes are used to show the updates made.

The Applicant understands that the revised National Planning Policy Framework will not be published ahead of the Parliamentary recess. At a Westminster Hall debate on 16 July Matthew Pennycook, Minister for Housing and Planning set out that following the Prime Ministers announcement to resign on 22 June and associated constraints on Government Business including a prohibition on new policy it was not possible to issue the revised NPPF ahead of the Parliamentary recess. The intention remains to publish 'in due course'.

Accordingly, the following document has been submitted:

- 8.4.2.1 - Policy Compliance Tracker Deadline 7 Version

This document does not supersede any previous document.

Updated Documents for Deadline 7

In addition to updating the ES a number of other documents have been updated. Some of these are solely to address previously submitted errata. The full list is contained in Appendix 4 of this letter. It should be noted that this list includes documents that should not be published as they contain confidential data. In these cases, redacted versions are supplied for publication.

Some documents that have been updated are very long but there are a small number of changes. In these instances only the pages with changes are supplied to aid readability.

In the case of the Residential Visual Amenity Assessment an Addendum is included to address matters arising from the Rule 17 letter of 14 July 2026 **[PD-031]**.

New Documents for Deadline 7

There are a number of new documents submitted at Deadline 7 to assist the Examination and/or to respond to requests and actions. The full list is contained in Appendix 5

Deadline 8

The Applicant will be submitting updated factual documents at Deadline 8, which we hope that the Examining Authority will find helpful. These are:

- Land Plans – To show the changes to Crown Land.
- DCO To cross reference changes to the Crown Land Plans and to reflect and progress on protective provisions.
- Statement of Reasons – Appendix B – Schedule of Negotiations
- Land Rights Tracker (if required).
- Schedule of affected persons objecting to CA or TP of their land or rights (as required by ExQ1 at every deadline)
- Outline Offsite Planting Delivery Schedule (updated to address comments from LPAs at Deadline 7)
- Any SoCG that were submitted at Deadline 7 as “final” but were subsequently signed
- Any other amendment that may be required to resolve a matter raised in Deadline 7 submissions of other parties.

Whilst the ExQ1 **[PD-014]** requested a Crown Land and Special Category Land Tracker at every deadline we do not intend to submit these at deadline 8 as we do not anticipate there will be any change from the deadline 7 versions.

Next Steps

We trust all is in order. If you have any queries about the content of this letter, please contact Ian Fletcher.

Please acknowledge safe receipt of this letter.

Yours sincerely,

Project Director
