Our ref: N2T/Examination/Letter
withdrawing objection

3 August 2026

Dear Examining Authority,

**Norwich to Tilbury Project (EN020027):
Anglian Water Letter of withdrawal**

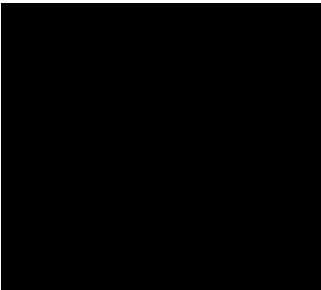

I write on behalf of Anglian Water Services Limited ("**Anglian Water**") in relation to the application for The National Grid (the "**Applicant**") Norwich to Tilbury Development Consent Order (DCO). Anglian Water has previously submitted a Relevant Representation [RR-0216] and a Written Representation [REP1-199] raising our objection in respect of Protective Provisions.

As explained in our Deadline 7 representation [REP7-539] - the final Statement of Common Ground [REP7-138] stated our previous agreement on Protective Provisions with the Applicant [as set out in the draft DCO REP6-030], was withdrawn, as further changes were proposed by Anglian Water for inclusion and required appropriate consideration in the final position between the parties.

Following the submission of the final SoCG, subsequent engagement between Anglian Water and the Applicant has resulted in further amendments to the Protective Provisions. Anglian Water is satisfied that the proposed amendments to the Protective Provisions address the concerns raised through discussions on specific outstanding matters identified in the final SoCG. This ensures that details of any impacts to Anglian Water's apparatus and proposed measures to mitigate those impacts would be submitted to Anglian Water with the plan of works to be carried out, together with measures to ensure ongoing cooperation on interactions between the authorised development and our proposed investment schemes planned for delivery in our five-year Asset Management Period for 2025-2030 (AMP8). Therefore, there is no disagreement regarding the Protective Provisions for Anglian Water, which the Applicant has confirmed will be included in the draft Order for Deadline 8.

Please accept this letter as Anglian Water's formal notice of the withdrawal of our representations [RR-0216 and REP1-199] regarding the Protective Provisions for the protection of Anglian Water in relation to this Application.

Yours faithfully,

Growth Planning and Policy Manager

cc  - National Grid
 - BCLP
