

At Deadline 7, Basildon BESS withdrew its objection to the NTT Project. This was on the basis that Basildon BESS had entered into a side agreement with the Applicant, which addressed its concerns. However, Basildon BESS has now become aware that the Book of Reference was updated during examination to include Basildon BESS as having a Category 2 interest in plot H-1/10, something that the Applicant did not bring to the attention of Basildon BESS. Basildon BESS has been in touch with the Applicant in relation to its newly listed interest in plot H-1/10 and the Applicant has confirmed that it is willing to enter into an agreement with Basildon BESS in relation to this plot of land. An agreement is being discussed but it has not yet been reached and Basildon BESS is therefore submitting this representation in order to re-introduce its objection to the NTT Project on the basis of its effect on plot H-1/10.
