

I request that the Planning Inspectorate revisit the site and specifically observe the proposed route of HGV traffic down Three Nooks Lane crossing both arterial dual carriageways to the Fylde in the process of continuing down the unadopted historic Chicken Lane down to the River Ribble.

I further request that the Inspectorate request health and safety assessments from Lancashire Constabulary and Lancashire County Council Roads on the viability of using this method of traversing the dual carriageways rather than using the existing traffic lights by "u" turning from Blackpool Road onto Preston Road and thereby avoiding the risk of accidents and an unprecedented log jam.
