

I wish to speak orally at the preliminary hearing on the subject of the portion of the proposed route of HGV traffic down Three Nooks Lane. I wish to do so because if the Planning Inspectorate have not yet viewed this aspect of the route in detail the written submissions and photographs that I have submitted will be inadequate to make the crucial points the Inspectorate will need to make an informed decision. I will use the extra time until the hearing to gather more photographic evidence taken at different times of day and to consult with the police and county council to see if they are aware of this aspect of the proposal. The time line from the Section 6 notice to deadline has not permitted this. I work which involves some long distance travel as well as run a business from home and I need two or three weeks to organise this
