1 Guide to the application

1.1 Introduction

- 1.1.1.1 This guide to the application summarises the structure of the application for development consent for the Morgan and Morecambe Offshore Wind Farms: Transmission Assets (referred to hereafter as ‘the Transmission Assets’). Its purpose is to provide an understanding of the structure of the Application and the principal contents within each ‘category’ of documents.
- 1.1.1.2 Updating this document will be an iterative process and new versions will be made available as updates are made.
- 1.1.1.3 This document will be updated during the examination of the application and will be a quick-reference guide to the latest version of the application documents.

1.2 Document categories

- 1.2.1.1 There are seven categories of application documents, as set out in Table 1.1. These follow, wherever possible, the structure described in Table 1 of ‘Advice Note 6 – Suggested Order of Information Submitted with Application’ (The Planning Inspectorate, 2022).
- 1.2.1.2 These categories, A-J, accord with the Volume document numbering set out in the following ‘Annex A: Order of information submitted with NSIP applications’, of the Nationally Significant Infrastructure Projects: Advice on the Preparation and Submission of Application Documents (The Planning Inspectorate, 2024).

Table 1.1: Categories that make up the master document list for the Transmission Assets

Categories	Details
A: Application Information	Provides details of the specific application information required by the Planning Inspectorate.
B: Plans	Contains the various plans which show the location of the Transmission Assets, the proposed works or are related to other powers sought in the Development Consent Order.
C: Draft Development Consent Order	This category outlines the legal power sought by the Applicants for the Morgan and Morecambe Offshore Wind Farms: Transmission Assets.
D: Compulsory Acquisition Information	This category includes the Funding Statement, Statement of Reasons and Book of Reference required to be submitted for the Transmission Assets.
E: Reports	This category contains the documents required to be submitted with the application for consent, including the Consultation Report and the Information to Support Appropriate Assessment.
F: Environmental Statement	Details how the Applicants has assessed the potential impact of the Project on the environment, economy and community.

Categories	Details
J: Other Documents	This category includes any additional information submitted with the application for consent, including outline and in principle plans.

1.2.1.3 The Applicants have submitted all documents required by Regulation 5, of The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 that are applicable. Please also see the Draft Section 55 checklist (document reference A2).

1.3 Master document list

1.3.1.1 The master document list is set out in Table 1.2 below and contains a full list of all the documents submitted with the application for consent. It includes the specific submission details, in line with The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009.

Documents submitted with the Application were finalised in September 2024, with the application itself made to the Planning Inspectorate in October 2024. Documents submitted to the Planning Inspectorate as part of the Applicants’ response to Section 51 advice were finalised in December 2024.
