1.0 INTRODUCTION

- 1.1 This document suggests locations for site inspections by the Examining Authority (ExA).

2.0 SUGGESTED SITE INSPECTION LOCATIONS

- 2.1 The ExA's note of its unaccompanied site visits (USI) confirms that the site visits undertaken in proximity of Warton Aerodrome were limited to a drive past the entrance to the Aerodrome.
- 2.2 BAE Systems requests that the ExA visits the Applicants' proposed Ecological Mitigation Sites and Biodiversity Benefit Areas, particularly the following:
- The temporary construction mitigation area at Lea Marsh;
 - The permanent mitigation area south of Newton-with-Scales; and
 - The biodiversity benefit site at Lea Marsh Fields.
- 2.3 It is considered that it would be beneficial for the ExA to visit these sites in order to observe their proximity to Warton Aerodrome and how aircraft operating from the Aerodrome fly over and past the sites.
- 2.4 It is not considered necessary that the ExA is accompanied when the above-mentioned site visits/inspections are undertaken.
