

United Utilities Water Limited (UUW) wishes to register an interest as an interested party in the examination. UUW submitted a detailed response dated 23 November 2023 to the statutory consultation, which constituted a formal objection. We identified a range of issues which need further consideration as part of the determination of the Development Consent Order. The matters included (inter alia):

- Our assets and property interests;
- Flood risk;
- Drainage – foul and surface water;
- Geo-technical / geo-environmental including any impact on the groundwater environment and water resources; and
- Water supply requirements.

Since our previous submission on 27 January 2025, UUW confirms that dialogue is ongoing with the applicant. This includes discussions regarding specific Protective Provisions. We will update the Examining Authority on progress with the proposed specific Protective Provisions as soon as possible.
