Subject: Re: EN020032 – Morgan and Morecambe Offshore Wind Farms Transmission Assets

[REDACTED]

Easy we don't want it
Not economical
Won't put anything in to make electric cheaper
Too much wind shutdown
Too little wind shutdown
Turbines only have a short life span
Lubricant to run them very very expensive
No no no we don't want a wind farm that at most will give 1% to National grid overall
