

I totally disagree with the plan forward because of the disturbance to life of people living in the area and disturbance to wildlife and fauna. Other options are available which are less destructive.

I totally disagree with this plan put forward because of the Destruction it will cause in the area. Destruction to homes, families, livelihoods, wildlife and fauna .

I do not approve of the whole plan. Other less destructive routes have been put forward. This route is very destructive and disturbing of peoples quiet lives, and Livelihoods.

I totally disagree with this route Because of the massive destruction that it will cause to the area involved. Ruining peoples livelihoods, home life. peacefulness, and total destruction of the natural area, and wildlife and fauna. Because there are other less Destructive routes available.
