[REDACTED]

Hello,

Regarding the M and M proposed cable route: Under the Wildlife and Countryside Act of 1981 it is illegal for any interference to occur in areas of triple S I (Sites of Special Scientific Interest). The Blackpool/St Anne's beaches' boundary and particularly the world famous sand dunes opposite Squires Gate and southwards are designated SSSI. Is not their proposed disruption and decimation illegal? [REDACTED]

Thank you, K Rawlinson [REDACTED] and on behalf of other residents in the dunes' vicinity. We look forward to your response. We have been directed to email you by Blackpool Council.

Submission ID: 37809

Under the Wildlife and Countryside Act it is ILLEGAL to interfere or not preserve the beach and sand dunes opposite Squires Gate, Blackpool and southward towards St Annes. THIS AREA IS TRIPLE SI.

[REDACTED]

Hello, I have just sent photos to illustrate how Squires Gate/Starr Gate will be flooded if any part of the sand dunes are removed at all. I'm not sure the email sent correctly so forgive me if I try again. Thanks. Keith Rawlinson of [REDACTED]
