

For my closing statement I would like to say the following.

Both myself and my husband's [REDACTED] has been pushed to the absolute limits and it continues to be a very real and ongoing problem for us.

The frustrating thing is that there is nobody there to help, no empathy, no understanding, just M&M coming round to the house with their [REDACTED]

Then [REDACTED] to show us a hand sketched small square showing us what the substation will look like.

I have worked all my life for my lovely home and peaceful surroundings to enjoy my [REDACTED] so to end up being treated like this is unbelievable. I cannot and shall not be living here for a single minute if this gets passed, probably ending up in a bedsit without my husband because he will never give in to their [REDACTED].

[REDACTED] is knowing that the M&M representatives at those meetings [REDACTED]

They disgust me.

Regards

Mary Barlow
