Dear Sir

Thank you for giving me the opportunity to comment on this application.

I am sure you know the area known as Fylde.

Most of the highways in this rural countryside are below their best. We only have limited funding for all Lancashire. This project will further depreciate the road surface especially with regards to this project of destruction which will take years to rebuild.

The road network especially in the countryside area are very narrow. I have been complaining regarding the transport network when family farms are re vamped and turned into business serving the wider public. These current large vehicles are turning the verges into mud corridors following the deep tracks of the wheels .

The country life was the main reason most of us moved here to get away from the noise of transport vehicles.

This noise from this project will be a huge concern to everyone. Apart from the noise, our concern is also the excavation of deep channels in our lands which affect our wildlife.

All this disturbance and for what ...Net Zero. In my opinion, this government will not retain power at the next election or maybe sooner.

Both opposition parties from what I hear are against this nonsense, and they will have to sort this mess out which will be caused by the implementation of such policies.

Maybe you have guessed, I am against this project, but you have your job to be done, and I thank you for allowing to have my say, It is appreciated.

With my regards

John
County Councillor John R Singleton JP
Fylde West Division
