Subject: Opportunity for Interested Parties to Comment – Morgan and Morecambe Offshore Wind Farm Transmission (Case Ref: AS07208)

Dear Secretary of State

The Planning Inspectorate have now shared their recommendations on the Morgan and Morecambe Offshore Wind Farm Transmission route proposed for my constituency. The applicants have now shared information, including the failure to gain AR7 funding for the Morgan project, and the subsequent withdrawal of the two funders - EnBW and Jera/BP - whilst still maintaining the application. However other interested parties, including local councils, communities and residents, have not been invited by the Secretary of State to comment on these significant developments. Will the Secretary of State now invite these interested parties to comment?

Kind regards

Andrew

Andrew Snowden MP

Member of Parliament for Fylde
