Dear Sirs

Morecambe and Morgan Offshore Windfarm – Our Client: Colin Bradley - Reference [REDACTED]

Further to the Secretary of State’s most recent letter we write on behalf of our client who is the owner of land adjacent to Queensway to the east of Blackpool Airport. Noting the Secretary of State’s comments within his most recent letter we note that there is a possibility that the Morgan Offshore Windfarm Project will not be granted the requested Development Consent Order Rights. If that is the case we would respectfully suggest that the routing of the Morecambe Project through our clients land together with the location of the compound will need review as the current routing and location are very much tied in with the routing and location of the cable route and works compound for the Morgan Project.

In the event that the Morgan Project are not granted their rights we would respectfully request an opportunity to review the cable route and location of works compound for the Morecambe Project.

Yours sincerely

[REDACTED] **FRICS FAAV**
