Prepared for:

**Morgan Offshore Wind Limited,
Morecambe Offshore Windfarm Ltd**

Introduction and Summary

1. This Book of Reference accompanies the application for a Development Consent Order for the Morgan and Morecambe Offshore Wind Farms: Transmission Assets ("the authorised project"), as required by Regulation 5(2)(d) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ("the Regulations").
2. The purpose of the authorised project is to connect the Morgan Offshore Wind Project: Generation Assets and Morecambe Offshore Windfarm: Generation Assets (referred to collectively as the 'Generation Assets') to the National Grid. The Generation Assets are each subject to separate applications for development consent.
3. The Morgan and Morecambe offshore wind farms will be electrically separate, with aligned offshore export cable corridors to landfall and aligned onshore export cable corridors to separate onshore substations, and onward connections to the National Grid, at Penwortham, Lancashire. The Applicants (Morgan Offshore Wind Limited and Morecambe Offshore Windfarm Limited) have sought to align the location of the transmission infrastructure needed to deliver the electricity generated by their offshore wind farms to the National Grid at Penwortham.
4. The land described in this Book of Reference, which is to be subject to powers of compulsory acquisition and/or temporary possession ("the Order Land"), is required by Morecambe Offshore Windfarm Limited ("Morecambe OWL") to deliver the works comprising the authorised project insofar as they relate to the Morecambe Offshore Windfarm: Transmission Assets ("Project B"), which is described in detail in Part 1, Chapter 1 of Schedule 1, of the draft Development Consent Order ("the dDCO" or "the Order") and shown on the Works Plans (Document reference B7 and B8) specifically denoted by all works packages which utilise "B" as part of their numbering. The Works Plans also denote the works which relate to the Morgan Offshore Wind Project: Transmission Assets ("Project A"), however for the avoidance of doubt, no compulsory acquisition and/or temporary possession powers are sought by Morgan Offshore Wind Limited in relation to Project A. This Book of Reference is part of the application documents for the authorised project and should be read in conjunction with the Land Plans, the Crown Land and the Special Category Land Plans (B10), the Statement of Reasons (Document reference D2) and the dDCO (Document reference C1).
5. Every parcel of land that is affected is identified on a plot-by-plot basis and a unique reference number has been ascribed to each plot. The plots are shown on the Land Plans which accompany the dDCO. For each plot the Book of Reference identifies whether Morecambe OWL is seeking the power to acquire that plot outright, the power to create and/or acquire permanent rights, or the power to create and/or acquire temporary rights of possession and use. The Book of Reference also lists the persons with land outside the order limits who may be entitled to make a relevant claim for compensation due to the effects of construction or when the authorised project is operational.
6. The Applicants would note that the suffix "A" has been added to identify the plots which will only be utilised for the delivery of Project A alone. No compulsory acquisition or temporary possession powers have been sought over these plots. The suffix "B" has been added to identify the plots which will be utilised for the delivery of Project B alone, and Morecambe OWL are seeking compulsory acquisition and temporary possession

powers (as required) over these plots. Finally, there are plots which have no “A” or “B” suffix added – these plots represent shared working areas, where works for both Project A and Project B could occur in the same area of land. Compulsory acquisition and temporary possession powers are sought over these plots by Morecambe OWL **only** in relation to Project B. For the avoidance of doubt, Morgan OWL is not seeking any powers of compulsory acquisition or temporary possession over the plots for shared working areas, or any others.

7. The dDCO seeks powers to compulsorily acquire both land and new rights (both temporary and permanent) for the purposes of the construction, operation and maintenance of Project B. Some of the plots identified in Part 1 of the Book of Reference will be subject to acquisition of permanent rights (including imposition of restrictive covenants) pursuant to Article 22 (Compulsory acquisition of rights) and Schedule 8 (Land in which only new rights etc. may be required) of the dDCO. These plots are shown coloured blue on the Land Plans.
8. Plots that are subject to the acquisition of the freehold, including all interests and rights in that land, for example the land required for the onshore substations will be coloured Pink on the Land Plans.
9. Plots that are subject to powers of temporary possession only, such as for the purpose of access and/or use as a temporary construction compounds or areas only required during construction are listed in Schedule 7 of the dDCO and shown coloured yellow on the Land Plans.
10. Plots that are not subject to any powers of compulsory acquisition or temporary possession are shown coloured white on the Land Plans.
11. The colours shown on the Land Plans indicate the type of acquisition sought as set out in Table 1 below.

Table 1:

Colour of the plot on the land plans	Description of Acquisition sought in Book of Reference	Acquisition Type	Principal Relevant dDCO Article (s)
Pink	"Freehold Acquisition (and Temporary Possession for the undertaker entitled to acquire such Freehold Acquisition"	Compulsory acquisition of all interests and rights in land (including as required, subsoil, surface land) and temporary possession and use of land, primarily during construction and for up to 12 months from completion of the relevant work.	Article 20
Pale Blue	"Permanent Rights (and Temporary Possession for the undertaker entitles to acquire such Freehold Acquisition"	Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants) and temporary possession and use of land, primarily during construction and for up to 12 months from completion of the relevant work.	Article 22

Colour of the plot on the land plans	Description of Acquisition sought in Book of Reference	Acquisition Type	Principal Relevant dDCO Article (s)
Yellow	"Temporary possession"	Temporary possession and use of land, primarily during construction and for up to 12 months from completion of the relevant work	Article 29
White	"No Compulsory Acquisition or Temporary Possession Powers Sought"		

12. Morecambe OWL have taken the cautious approach of seeking powers of compulsory acquisition (or rights of use) in respect of all plots of land required for Project B even where they already hold an interest or presume they hold an interest in the land. This approach has been taken to ensure that Morecambe OWL have the ability to acquire the interests they need, even where an unidentified owner later asserts an interest in land which Morecambe OWL believes they own or have rights.

Rights which may be acquired

13. For plots in which new rights are to be acquired and/or restrictive covenants are to be imposed, Morecambe OWL have sought to create categories of rights that are tailored to the particular right sought in order to minimise the effect on the interests continued use of the land.
14. The dDCO (Document reference CI) seeks powers to override existing easements and other rights and for the extinguishment of private rights in land which is compulsorily acquired. The purpose of these powers is to enable the construction, operation, maintenance and decommissioning of Project B.

Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order land to: (a) prevent anything to be done in or upon the land or any part thereof for the purpose of the erection of any buildings or construction, erection or works of any kind (including the foundations or footings thereto); (b) prevent anything to be done by way of hard surfacing of the land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised project nor make it materially more difficult or expensive to maintain the authorised project); (c) prevent anything to be done by way of excavation of any kind in the land or any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.6m for the purposes of arable farming) or are reasonably required to be carried out by any statutory undertaker in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the land without the consent in writing of the undertaker; (d) prevent the planting or growing within the land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised project nor make it materially more difficult or expensive to access and maintain the relevant part of the authorised project); (e) prevent anything being done which may interfere with the free flow and passage of electricity or telecommunications through the cables or support for the authorised project; (f) prevent the carrying out of operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised project; and (g) prevent any activity which would in the reasonable opinion of the undertaker result in the disturbance of ecological mitigation areas or areas of habitat creation or enhancement including any ploughing or grazing without the prior written consent of the undertaker.

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
03-006	2 Cable rights, transition joint bay rights and restrictive covenants 2.1. Cable rights Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised project to— (a) lay down, install, test, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables (including the removal of materials including spoil) in, under, over and/or on the land, together with such telemetry and fibre-optic lines, ducting, jointing bays and other apparatus, protection measures, cable marker posts, chambers and manholes, manhole covers, cable clamping and other equipment which is ancillary to the purposes of transmitting electricity along such electricity cables (the “cables”), and in doing so, to use or resort to open cut trenching or trenchless installation techniques including (but not limited to) directional drilling; (b) enter, be on, and break open and break up the surface of the land and remain on the land with or without plant, vehicles, machinery, apparatus and equipment which is ancillary to the purposes of transmitting electricity along the cables; (c) to benefit from continuous vertical and lateral support for the authorised project; (d) pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials and to take plant and equipment on to adjoining land for the purposes of laying down, installing, adjusting, altering, constructing, using, maintaining, repairing, renewing, inspecting, removing, testing, upgrading and replacing the cables and for connection into any adjacent cables and associated works; (e) construct and install the cables and thereafter use the land for all necessary purposes for the commissioning, construction, repair, testing and maintenance of the cables in, on or under the land; (f) place and use plant, machinery, structures and temporary structures within the land for the purposes of the installation, construction, maintenance, repairing, renewing, upgrading, inspecting, removal and replacing of the cables and to erect temporary signage and provide measures for the benefit of public and personnel safety; (g) erect fencing, gates, walls, barriers or other means of enclosure, and create secure working areas and compounds including trenchless installation technique compounds and working areas; (h) construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging, culverting or diversion of water courses and drains during any period during which construction, maintenance, repair or renewal or decommissioning is being carried out; (i) make such investigations in or on the land as are required;

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	(j) fell, lop, cut, or remove or coppice wood, uproot trees or hedges or shrubs which now or hereafter may be standing on the land or other land which would if not felled, lopped, cut or removed would obstruct or interfere with the installation and operation of the cables; (k) remove and discharge water from the land, and to install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve sewers, drains, pipes, ducts, mains, conduits, flues and to drain into and manage waterflows in any drains, watercourses and culverts, install, use, inspect, maintain, adjust, alter, renew, repair, test or cleanse drainage schemes on the land or reinstate any existing drainage scheme on the land; (l) install, alter, re-lay, maintain, protect, adjust or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus, public and private drains, watercourses, sewers, ponds or culverts, service media (including the pipes, cables or conduits or apparatus of statutory undertakers); (m) remove fences and structures within the land during any period in which construction, maintenance, repair or renewal is being carried out (subject to erection of any temporary stock-proof fencing as is reasonably required and the re-instatement or suitable replacement of the fences or structures following the exercise of the rights); (n) store and stockpile materials (including excavated material); (o) create boreholes and trial excavation pits for the purposes of intrusively surveying the land and monitoring the use of any trenchless installation technique, to keep in place and monitor the same through construction, maintenance repair, replacement or decommissioning and reinstatement of the land; (p) to excavate materials below ground level, including soils, and to store and re-use or dispose of the same, and in so excavating to undertake any works, including works of protection or removal of archaeological remains as may be required by any written scheme of investigation approved under this Order; (q) carry out such works (together with associated fencing) required by a planning permission and/or consent now or to be granted over the land and/or in accordance with any necessary licences relating to protected species and/or wildlife; and (r) (in an emergency only when the cables are temporarily unusable) to lay down, install, use, maintain and inspect underground cables, telephone signalling and fibre-optic cables and ancillary equipment, associated works and other conducting media together with conduits or pipes for containing the same in and under the land. 2.2. Transition joint bay rights Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised project to lay down, install, test, adjust, alter, construct, create, use, maintain, repair, renew, upgrade, inspect, remove and replace the transition joint bays.

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	2.3. Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order land to: (a) prevent anything to be done in or upon the land or any part thereof for the purpose of the erection of any buildings or construction, erection or works of any kind (including the foundations or footings thereto); (b) prevent anything to be done by way of hard surfacing of the land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised project nor make it materially more difficult or expensive to maintain the authorised project); (c) prevent anything to be done by way of excavation of any kind in the land or any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever save as are reasonably required to be carried out by any statutory undertaker in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the land without the consent in writing of the undertaker; (d) prevent the planting or growing within the land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised project nor make it materially more difficult or expensive to access or maintain the relevant part of the authorised project); (e) prevent anything being done which may interfere with the free flow and passage of electricity or telecommunications through the cables or support for the authorised project; and (f) prevent the carrying out of operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised project.
03-005 & 03-007 & 03-008 & 03-011 & 04-004 & 04-005 & 04-024	3 Cable rights and restrictive covenants at Blackpool Airport 3.1. Cable rights Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised project to— (a) lay down, install, test, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables (including the removal of materials including spoil) in, under, over and/or on the land, together with such telemetry and fibre-optic lines, ducting, jointing bays and other apparatus, protection measures, cable marker posts, chambers and manholes, manhole covers, cable clamping and other equipment which is ancillary to the

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	purposes of transmitting electricity along such electricity cables (the “cables”), and in doing so, to use or resort to open cut trenching or trenchless installation techniques including (but not limited to) directional drilling; (b) enter, be on, and break open and break up the surface of the land and remain on the land with or without plant, vehicles, machinery, apparatus and equipment which is ancillary to the purposes of transmitting electricity along the cables; (c) to benefit from continuous vertical and lateral support for the authorised project; (d) pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials and to take plant and equipment on to adjoining land for the purposes of laying down, installing, adjusting, altering, constructing, using, maintaining, repairing, renewing, inspecting, removing, testing, upgrading and replacing the cables and for connection into any adjacent cables and associated works; (e) construct and install the cables and thereafter use the land for all necessary purposes for the commissioning, construction, repair, testing and maintenance of the cables in, on or under the land; (f) place and use plant, machinery, structures and temporary structures within the land for the purposes of the installation, construction, maintenance, repairing, renewing, upgrading, inspecting, removal and replacing of the cables and to erect temporary signage and provide measures for the benefit of public and personnel safety; (g) erect fencing, gates, walls, barriers or other means of enclosure, and create secure working areas and compounds including trenchless installation technique compounds and working areas; (h) construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging, culverting or diversion of water courses and drains during any period during which construction, maintenance, repair or renewal or decommissioning is being carried out; (i) effect access to the highway including creation of temporary visibility splays; (j) make such investigations in or on the land as are required; (k) fell, lop, cut, or remove or coppice wood, uproot trees or hedges or shrubs which now or hereafter may be standing on the land or other land which would if not felled, lopped, cut or removed would obstruct or interfere with the installation and operation of the cables; (l) remove and discharge water from the land, and to install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve sewers, drains, pipes, ducts, mains, conduits, flues and to drain into and manage waterflows in any drains, watercourses and culverts, install, use, inspect, maintain, adjust, alter, renew, repair, test or cleanse drainage schemes on the land or restore any existing drainage scheme on the land; (m) install, alter, re-lay, maintain, protect, adjust or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus, public and private drains, watercourses, sewers, ponds or culverts, service media (including the pipes, cables or conduits or apparatus of statutory undertakers);

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	(n) remove fences and structures within the land during any period in which construction, maintenance, repair or renewal is being carried out (subject to erection of any temporary stock-proof fencing as is reasonably required and the re-instatement or suitable replacement of the fences or structures following the exercise of the rights); (o) store and stockpile materials (including excavated material); (p) create boreholes and trial excavation pits for the purposes of intrusively surveying the land and monitoring the use of any trenchless installation technique, to keep in place and monitor the same through construction, maintenance repair, replacement or decommissioning and restoration of the land; (q) to excavate materials below ground level, including soils, and to store and re-use or dispose of the same, and in so excavating to undertake any works, including works of protection or removal of archaeological remains as may be required by any written scheme of investigation approved under this Order; (r) lay out temporary paths and bridleways for public use as temporary diversions for public rights of way which are interfered with during any period in which construction, maintenance, repair or renewal decommissioning is being carried out; (s) install, execute, implement, retain, repair, improve, renew, relocate, maintain and carry out mitigation, maintenance and remediation works for environmental or ecological mitigation or enhancement works, including temporary works for noise alleviation measures and the installation of temporary barriers for the protection of fauna; (t) carry out such works (together with associated fencing) required by a planning permission and/or consent now or to be granted over the land and/or in accordance with any necessary licences relating to protected species and/or wildlife; and (u) (in an emergency only when the cables are temporarily unusable) to lay down, install, use, maintain and inspect underground cables, telephone signalling and fibre-optic cables and ancillary equipment, associated works and other conducting media together with conduits or pipes for containing the same in and under the land. (v) construct, use, maintain and improve permanent means of access including visibility splays, and retain, maintain, straighten, widen, repair, alter, upgrade and use existing access routes for the purposes of accessing the land, adjoining land and the highway; and (w) erect temporary bridges and supporting or protective structures for the purposes of access to adjoining land. 3.2. Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order land to: (a) prevent anything to be done in or upon the land or any part thereof for the purpose of the erection of any buildings or construction, erection or works of any kind (including the foundations or footings thereto); (b) prevent anything to be done by way of hard surfacing of the land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	delayed if the proposed surfacing would not cause damage to relevant part of the authorised project nor make it materially more difficult or expensive to maintain the authorised project); (c) prevent anything to be done by way of excavation of any kind in the land or any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever save as reasonably required to be carried out by any statutory undertaker in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the land without the consent in writing of the undertaker, and provided such will not cause damage, undermine or interfere with the cables; (d) prevent the planting or growing within the land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised project nor make it materially more difficult or expensive to access or maintain the relevant part of the authorised project); (e) prevent anything being done which may interfere with the free flow and passage of electricity or telecommunications through the cables or support for the authorised project; and (f) prevent the carrying out of operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised project.

N/A	9 Drainage rights and restrictive covenants 9.1. Drainage rights Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to— (a) remove and discharge water from the land and to install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve sewers, drains, pipes, ducts, mains, conduits, flues and to drain into and manage waterflows in any drains, watercourses and culverts, to lay down, install, adjust, alter, construct, create, use, maintain, repair, renew, upgrade, inspect, remove and replace a drainage scheme on the land (the “drainage works”); (b) inspect, use mechanical excavation (including directional drilling and/or digging), restore, remove, move or alter such part or parts of any drainage system on the land for the purposes of the drainage works (including connecting the drainage works to any land drain as at the date of the drainage works); (c) enter, be on, and break up the surface of the land and remain with or without plant, vehicles, machinery, apparatus and equipment which is ancillary to the purposes of the drainage works; (d) store and stockpile materials (including excavated material); (e) create boreholes and trial excavation pits for the purposes of intrusively surveying the land and monitoring the use of any trenchless installation technique, to keep in place and monitor the same through construction, maintenance repair, replacement or decommissioning and to restore the land; (f) to excavate materials below ground level, including soils, and to store and re-use or dispose of the same, and in so excavating, to undertake any works, including works of protection or removal of archaeological remains as may be required by any written scheme of investigation approved under this Order; (g) pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials for the purposes of the drainage works; (h) place and use plant, machinery, structures and temporary structures within the land, and to erect temporary signage and provide measures for the benefit of public and personnel safety for the purposes of the drainage works; (i) erect fencing, gates, walls, barriers or other means of enclosure, and create secure works areas or compounds including temporary trenchless installation technique compounds and working areas for the purposes of the drainage works; (j) construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging,

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	culverting or diversion of water courses and drains during any period during which construction, maintenance, repair or renewal of any drainage work is being carried out; (k) effect access to the highway; (l) make such investigations in or on the land as required for the purposes of the drainage works; (m) use or resort to trenchless installation techniques including (but not limited to) directional drilling in connection with the drainage works; (n) fell, lop, cut, or remove or coppice wood, uproot trees or hedges or shrubs which now or hereafter may be standing on the land or other land which would if not felled, lopped, cut or removed obstruct or interfere with the drainage works; (o) install, alter, re-lay, maintain, protect, adjust or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus public and private drains, watercourses, sewers, ponds or culverts, service media (including the pipes, cables or conduits or apparatus of statutory undertakers); (p) to install, execute, implement, retain, repair, improve, renew, relocate, maintain and carry out mitigation, maintenance and remediation works for environmental or ecological mitigation or enhancement works, including temporary works for noise alleviation measures and the installation of temporary barriers for the protection of fauna; and (q) to carry out such works (together with associated fencing) required by a planning permission and/or consent now or to be granted over the land in accordance with any necessary licences relating to protected species and/or wildlife. 9.2. Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order land to: (a) prevent anything to be done in or upon the land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto); and (b) prevent anything to be done by way of hard surfacing of the land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development).

Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order land to: (a) prevent anything to be done in or upon the land or any part thereof for the purpose of the erection of any buildings or construction, erection or works of any kind (including the foundations or footings thereto)

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	(b) prevent anything to be done by way of excavation of any kind in the land or any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever save as are reasonably required to be carried out by any statutory undertaker in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the land or rights in relation any highway or railway infrastructure on the land (if any) and will not damage, undermine or interfere with the cables; (c) prevent the planting or growing within the land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised project nor make it materially more difficult or expensive to access and maintain the relevant part of the authorised project); (d) prevent anything being done which may interfere with the free flow and passage of electricity or telecommunications through the cables or support for the authorised project; and (e) to prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised project.
01-015 & 01-016 & 02-023 & 03-003 & 03-004 & 04-015	11 Cable rights at St Anne’s Old Links Golf Course and Blackpool Road Recreation Ground 11.1. Cable rights at St Anne’s Old Links Golf Course and Blackpool Road Recreation Ground Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised project to— (a) lay down, install, test, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables (including the removal of materials including spoil) in, or under the land, together with such telemetry and fibre-optic lines, ducting, jointing bays and other apparatus, protection measures, cable marker posts, chambers and manholes, manhole covers, cable clamping and other equipment which is ancillary to the purposes of transmitting electricity along such electricity cables (the “cables”), and in doing so, to use or resort to trenchless installation techniques including (but not limited to) directional drilling; (b) enter, be on, and remain on the land with or without plant, vehicles, machinery, apparatus and equipment which is ancillary to the purposes of transmitting electricity along the cables; (c) to benefit from continuous vertical and lateral support for the authorised project; (d) pass and re-pass on foot and to take plant and equipment on to adjoining land for the purposes of laying down, installing, adjusting, altering, constructing, using, maintaining, repairing, renewing, inspecting, removing, testing, upgrading and replacing the cables and for connection into any adjacent cables and associated works;

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	(e) construct and install and thereafter use the land for all necessary purposes for the commissioning, construction, repair, testing and maintenance of the cables in or under the land; (f) make such investigations in or on the land as required; (g) create boreholes and trial excavation pits for the purposes of intrusively surveying the land and monitoring the use of any trenchless installation technique, to keep in place and monitor the same through construction, maintenance repair, replacement or decommissioning and to restore the land; (h) (in an emergency only when the cables are temporarily unusable) to lay down, install, use, maintain and inspect underground cables, telephone signalling and fibre-optic cables and ancillary equipment, associated works and other conducting media together with conduits or pipes for containing the same in and under the land; and (i) install, alter, re-lay, maintain, protect, adjust or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus, public and private drains, watercourses, sewers, ponds or culverts, service media (including the pipes, cables or conduits or apparatus of statutory undertakers). 11.2. Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order land to: (a) prevent anything to be done in or upon the land or any part thereof for the purpose of the erection of any buildings or construction, erection or works of any kind (including the foundations or footings thereto) without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed activities are reasonably required to use the land for the purpose of recreation and would not cause damage to or prevent or impair the maintenance of the relevant part of Project B); (b) prevent anything to be done by way of excavation of any kind in the land or any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed activities are reasonably required to use the land for the purpose of recreation and would not cause damage to or prevent or impair the maintenance of the relevant part of Project B) or save as are reasonably required to be carried out by any statutory undertaker in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the land or rights in relation any highway or railway infrastructure on the land (if any) and will not damage, undermine or interfere with the cables; (c) prevent the planting or growing within the land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood are reasonably required to use the land for the purpose of recreation and would not cause damage to or prevent or impair the maintenance of the relevant part of Project A);

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	(d) prevent anything being done which may interfere with the free flow and passage of electricity or telecommunications through the cables or support for the authorised project; and (e) to prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised project.
11-110B & 11-111B & 11-112B & 13-038B & 13-039 & 13-041 & 13-043 & 13-047	12 Substation access rights 12.1. Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised project to— (a) pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials for the purposes of the authorised project, the construction, operation, inspection, testing, maintenance, renewal, upgrading, replacement and removal of the substation and associated works, to take plant and equipment on to adjoining land and make such investigations in or on the land which is ancillary for the purposes of exercise of the rights; construct, use, maintain and improve a permanent means of access including visibility splays, and retain, maintain, straighten, widen, repair, alter, upgrade and use existing access routes for the purposes of accessing the land, adjoining land and highway; construct, lay down, use and remove access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging, culverting or diversion of water courses and drains during any period during which construction, maintenance, repair, renewal or decommissioning is being carried out; erect temporary bridges and supporting or protective structures for the purposes of access to adjoining land; (a) place and use plant, machinery, structures and temporary structures within the land, and to erect temporary signage and provide measures for the benefit of public and personnel safety; fell, lop, cut, or remove or coppice wood, uproot trees or hedges or shrubs which now or hereafter may be present on the land for the purpose of enabling the right to pass and re-pass to adjoining land; repair, improve, renew, remove, relocate and plant trees, woodland, shrubs, hedgerows, seeding and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs and landscaping; lay out temporary paths and bridleways for public use as temporary diversions for public rights of way which are interfered with during any period in which construction, maintenance, repair or renewal decommissioning is being carried out; and install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve security infrastructure including cameras, perimeter fencing, fencing, gates and any other security measures or ancillary apparatus required in order to ensure an appropriate level of security in respect of the authorised development.

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	12. 2. Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order land to prevent the erecting of buildings or structures, altering ground levels, planting trees or carrying out operations or actions which may obstruct, interrupt, or interfere with the exercise of the rights.
04-013, 04-014, 04-016	13 Cable Rights at Blackpool Road Recreation Ground Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised project to- (a) lay down, install, test, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables (including the removal of materials including spoil) in, under, over and/or on the land, together with such telemetry and fibre-optic lines, ducting, jointing bays and other apparatus, protection measures, cable marker posts, chambers and manholes, manhole covers, cable clamping and other equipment which is ancillary to the purposes of transmitting electricity along such electricity cables (the “cables”), and in doing so, to use or resort to open cut trenching or trenchless installation techniques including (but not limited to) directional drilling; (b) enter, be on, break open and break up the surface of the land, restore and remain with or without plant, vehicles, machinery, apparatus and equipment which is ancillary to the purposes of transmitting electricity along the cables; (c) to benefit from continuous vertical and lateral support for the authorised project; (d) pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials and to take plant and equipment on to adjoining land for the purposes of laying down, installing, adjusting, altering, constructing, using, maintaining, repairing, renewing, inspecting, removing, testing, upgrading and replacing the cables and for connection into any adjacent cables and associated works; (e) construct and install the cables and thereafter use the land for all necessary purposes for the construction, commissioning, repair, testing and maintenance of the cables in, on or under the land; (f) place and use plant, machinery, structures and temporary structures within the land for the purposes of the installation, construction, maintenance, repairing, renewing, upgrading, inspecting, removal, testing and replacing of the cables and to erect temporary signage and provide measures for the benefit of public and personnel safety; (g) erect fencing, gates, walls, noise or other barriers, or other means of enclosure, and create secure working areas and compounds including trenchless installation technique compounds and working areas; (h) construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmac, terram, temporary bridging, culverting or diversion of water courses and drains during any period during which construction, maintenance, repair or renewal is being carried out; (i) effect access to the highway including creation of temporary visibility splays; (j) make such investigations in or on the land as are required;

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	(k) fell, lop, cut, or remove or coppice wood, uproot trees, hedges or shrubs which now or hereafter may be standing on the land or other land which if not felled, lopped, cut or removed would obstruct or interfere with the operation of the cables; (l) remove and discharge water from the land, and to install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve sewers, drains, pipes, ducts, mains, conduits, flues and to drain into and manage waterflows in any drains, watercourses and culverts, install, use, inspect, maintain, adjust, alter, renew, repair, test or cleanse drainage schemes on the land or restore any existing drainage scheme on the land; (m) install, alter, re-lay, maintain, protect, adjust or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus public and private drains, watercourses, sewers, ponds or culverts, service media (including the pipes, cables or conduits or apparatus of statutory undertakers); (n) remove fences and structures within the land during any period in which construction, maintenance, repair or renewal is being carried out (subject to erection of any temporary stock-proof fencing as is reasonably required and the re-instatement or suitable replacement of the fences or structures following the exercise of the rights); (o) store and stockpile materials (including excavated material); (p) create boreholes and trial excavation pits for the purposes of intrusively surveying the land and monitoring the use of any trenchless installation technique, to keep in place and monitor the same through construction, maintenance, repair, replacement or decommissioning and restoration of the land; (q) to excavate materials below ground level, including soils, and to store and re-use or dispose of the same, and in so excavating to undertake any works, including works of protection or removal of archaeological remains as may be required by any written scheme of investigation approved under this Order; and (r) (in an emergency only when the cables are temporarily unusable) to lay down, install, use, maintain and inspect underground cables, telephone signalling and fibre-optic cables and ancillary equipment, associated works and other conducting media together with conduits or pipes for containing the same in and under the land. Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order Land to - (a) prevent anything to be done in or upon the land or any part thereof for the purpose of the erection of any buildings or construction, erection or works of any kind (including the foundations or footings thereto) without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed activities are reasonably required to use the land for the purpose of recreation and would not cause damage to or prevent or impair the maintenance of the relevant part of the authorised project); (b) prevent anything to be done by way of hard surfacing of the land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or

Number of plot shown on the Land Plans	Purpose for which rights may be acquired
	delayed if the proposed surfacing is reasonably required to use the land for the purpose of recreation and would not cause damage to or prevent or impair the maintenance of the relevant part of the authorised project); (c) prevent anything to be done by way of excavation of any kind in the land or any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed activities are reasonably required to use the land for the purpose of recreation and would not cause damage to or prevent or impair the maintenance of the relevant part of the authorised project) or save as are reasonably required to be carried out by any statutory undertaker in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the land, without the consent in writing of the undertaker; (d) prevent the planting or growing within the land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood are reasonably required to use the land for the purpose of recreation and would not cause damage to or prevent or impair the maintenance of the relevant part of the authorised project); (e) prevent anything being done which may interfere with the free flow and passage of electricity or telecommunications through the cables or support for the authorised project; and (f) prevent the carrying out of operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised project without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed activities are reasonably required to use the land for the purpose of recreation and would not cause damage to or prevent or impair the maintenance of the relevant part of the authorised project).

15. This Book of Reference is comprised of five Parts, in accordance with Regulation 7(1) of the Regulations, as follows:

- a. Part 1 contains the names and addresses of those who own, lease, occupy or have another interest in the land that will be affected by the authorised project and the rights contained in the dDCO. A person is within Category 1 if Morecambe OWL after making diligent inquiry, know that they are an owner, lessee, tenant, or occupier of the land. A person is within Category 2 if they are interested in the land or have the power to sell and convey or release the land. Parties recorded in Part 3 of this Book of Reference have also been included in Part 1.
- b. Part 2 lists persons who may be entitled to make a relevant claim, also called "Category 3" persons. A person is within Category 3 if Morecambe OWL believe that, if the Order were to be made and fully implemented, they would or might be entitled to make a relevant claim as defined in section 57(6) of the 2008 Act. A relevant claim is a claim under section 10 of the Compulsory Acquisition Act 1965, a claim under part 1 of the Land Compensation Act 1973, or a claim under section 152(3) of the 2008 Act. This part therefore contains the names and addresses of those who have an interest in the Order land and may be entitled to claim compensation for loss resulting from the implementation of the Order and use of Project

B. This part also contains the names and addresses of those without an interest in the Order land, who may be entitled to claim compensation for loss resulting from the implementation of the Order and use of Morecambe OWL;

- c. Part 3 contains the names and addresses of those entitled to enjoy easements or other private rights which it is proposed may be extinguished, suspended or interfered with in connection with Project B, pursuant to the Order;
- d. Part 4 identifies plots in which there is a Crown interest that will be affected by Project B and the rights contained in the Order; and
- e. Part 5 identifies plots which constitute "special category land" for the purposes of section 132 of the Planning Act 2008 that will be affected by Project B and the rights contained in the Order. This is land -
 - i. the acquisition of which is subject to special parliamentary procedure.
 - ii. which is special category land
 - iii. which is replacement land

Given the nature of the works to be undertaken, Morecambe OWL believe that the Order land listed within Part 5, when burdened with the rights contained in the Order, will be no less advantageous than it was before to the following persons-

- i. the persons in whom it is vested
- ii. other persons, if any, entitled to rights of common or other rights, and
- iii. the public

Morecambe OWL are therefore of the opinion that while they have identified open space within the Order land, there is no requirement for the provision of replacement or exchange land.

Book of Reference notes

- 16. Part 1 of this Book of Reference provides the area in square metres of all land included in the dDCO. Areas have not been repeated in Parts 2 to 5 of this Book of Reference.
- 17. The term "approximately" is used before all plot area measurements as these measurements are given in square metres and each measurement is rounded up to the nearest whole square metre.
- 18. The tracked version of the clean Book of Reference highlights the updates to land interest information since the previous submission of the Book of reference:

- (1) Those entries struck through and highlighted in ~~red~~ have been removed
- (2) Those entries highlighted in blue have been added;
- (3) Those entries highlighted in orange have been updated, name, address or qualifier; and
- (4) Those entries highlighted in grey reflect no rights being sought.
