Dear Sir / Madam,

Planning Act 2008
The proposed Morgan and Morecambe Offshore Wind Farms: Transmission Assets
Planning Inspectorate Reference Number: EN020028

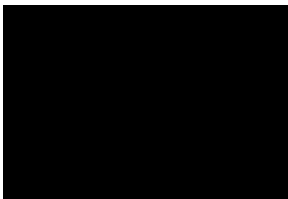

This document constitutes a joint statement from Morecambe Offshore Windfarm Limited and Fylde Borough Council (together 'the Parties'), in relation to ongoing negotiations regarding the agreement pursuant to Section 106 of the Town and Country Planning Act 1990 (the S106 Agreement), which secures the necessary mitigation measures related to impacts on the Blackpool Road Recreation Ground from Project B.

The Parties have continued to engage and have made positive progress regarding the draft S106 Agreement since the close of examination. There are now only a handful of points to be finalised, which the Parties consider are likely to be agreed prior to the deadline for a decision by the Secretary of State on the development consent (the DCO decision date), in order that the S106 Agreement can be finalised and signed as soon as possible.

The Parties will provide an update to the Secretary of State when the S106 Agreement for Project B is signed.

Regardless of whether the S106 Agreement is signed in advance of the DCO decision date, the Parties are confident that they are close to reaching an agreed form of the S106 Agreement, and do not envisage any concerns regarding the ability to discharge Requirement 28.

Kind regards,

Strategic Consents Lead
Morgan and Morecambe Offshore Wind Farms: Transmission Assets project,
on behalf of Morecambe Offshore Windfarm Ltd
