Dear Sir / Madam,

The proposed Morgan and Morecambe Offshore Wind Farms: Transmission Assets
Planning Inspectorate Reference Number: EN020028

The Applicants are pleased to respond to the Secretary of State's information request dated 17 August 2026 (C5-001).

Construction Hours

Point 9 of the Secretary of State's letter states: *In the first and fourth information request [C1-001, and C4-001] the Applicants were requested to revise their outline Code of Construction Practice, and outline Construction Noise and Vibration Management Plan, to remove the references to mobilisation, on a without prejudice basis. On both occasions, the Applicants responded by amending the list of mobilisation activities. The Secretary of State requests the Applicants revise both documents to remove all references to mobilisation, on a without prejudice basis.*

As requested, the Applicants have updated the relevant management plans on a without prejudice basis to remove all reference to mobilisation activities including “arrival and departure of the workforce and movement to place of work within the Order Limits without the use of plant”.

This change has been applied to the following documents:
