Appendix A Master Document List and Revision History

1. Introduction

1.1 Overview

1.1.1 National Grid Electricity Transmission plc (National Grid) owns and maintains the national high voltage electricity transmission network throughout England and Wales.

1.1.2 The transmission network connects the power from where it is generated to the regional distribution network operators who then supply businesses and homes.

1.1.3 National Grid holds the Transmission Licence for England and Wales, and its statutory duty is to develop and maintain an efficient, coordinated and economical system of electricity transmission and to facilitate competition in the generation and supply of electricity, as set out in the Electricity Act 1989 (HM Government, 1989).

1.1.4 National Grid has developed plans for the North Humber to High Marnham Project (the Project). The Project would support the UK government's net zero target through the connection of new low carbon energy generation and by reinforcing the transmission network.

1.1.5 The Project would establish a new 400 kilovolt (kV) transmission connection approximately 90 kilometres (km) in length between a new substation to be built in the vicinity of Birkhill Wood, located to the north of Hull near Creyke Beck in the East Riding of Yorkshire, and a new substation at High Marnham in Nottinghamshire.

1.1.6 The reinforcement is needed because the existing transmission network, even with current upgrading, will not have sufficient capacity for the new renewable energy (a substantial proportion of which would be generated by offshore wind) that is expected to connect to the network over the next 10 years and beyond. Completion of the Project, together with other new reinforcements across the country, will meet this future energy transmission demand across the UK.

1.1.7 The Project is a Nationally Significant Infrastructure Project (NSIP), and National Grid is seeking development consent under the Planning Act 2008 (HM Government, 2008). NSIPs require a type of planning permission known as a Development Consent Order (DCO). Instead of applying to the local authority for planning permission, the developer must apply to the Secretary of State via the Planning Inspectorate for a DCO.

1.1.8 National Grid has submitted an application for development consent to the Planning Inspectorate for the Project. The Examining Authority (consisting of one or more examining inspectors), after a period of public examination, will make its recommendation to the Secretary of State for Energy Security and Net Zero, who in turn will decide on whether development consent should be granted.

1.1.9 The Project has been identified as being critical to delivering a network which supports the clean power pathways for 2030 delivery.

1.2 Purpose and Structure of the Document

1.2.1 This Guide to the Application summarises the structure of the application for the Project. Its purpose is to provide an overview of the application structure and principal contents within each 'volume' of documents shown in Table 1.1.

1.2.2 The Master Document List, in Appendix A, is intended to be updated as the examination of the application progresses so any updates and revisions to application documents are captured.

1.3 Application Documentation

1.3.1 Due to the size and scale of the application, the supporting documentation has been grouped into volumes which correspond with the Planning Inspectorate's suggested categories for application documents. There are seven different volumes as shown in Table 1.1.

Table 1.1 – Volumes forming the application

Volume title	Context
Volume 1 Application Forms	Contains the completed Application Form, the Application Cover Letter, this Guide to the Application document, Copies of Newspaper Notices, the Pre-application Programme Document and the Section 55 Checklist completed by National Grid, demonstrating the application can be accepted pursuant to Section 55 of the Planning Act 2008 (HM Government, 2008).
Volume 2 Plans, Drawings and Sections	Contains relevant plans for the Project as required by The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (APFP Regulations) (HM Government, 2009), including: • The Location and Master Key Plan; • Land Plans; • Works Plans; • Traffic Regulation Order Plans; • Access, Rights of Way and Public Rights of Navigation Plans; • Elevation Drawings; • Statutory and Non-Statutory Sites of Nature Conservation Geological and Landscape Importance; • Habitats of Protected Species and Important Habitats; • Statutory and Non-Statutory Sites and Features of the Historic Environment; • Water Bodies in the River Basin Management Plans; • Typical Design Drawings; • Trees and Important Hedgerows to be Removed or Managed Plans; and

Volume title	Context
	• Special Category Land Plans and Crown Land Plans. This section is additionally supported by a Guide to the Plans.
Volume 3 Draft Development Consent Order	Contains the draft Development Consent Order (DCO) providing the legal powers National Grid is seeking, together with an Explanatory Memorandum explaining the provisions of the draft DCO, a Validation Report and an editable Microsoft Word version of the draft DCO.
Volume 4 Compulsory Acquisition Information	Contains the Statement of Reasons providing justification for the use of legal powers of compulsory acquisition, the Funding Statement providing information on funding for the Project, and details of the land interests required for the Project by way of the Book of Reference and the Pre-Application Land and Rights Negotiations Tracker.
Volume 5 Reports and Statements	Contains the Consultation Report and its associated appendices previously required by the now repealed S37(3)(c) of the Planning Act 2008 (HM Government, 2008). Additionally, a Habitats Regulations Assessment Report, Statement of Statutory Nuisance, Consents and Licences Required Under Other Legislation, Planning Statement, Policy Compliance Document, Potential Main Issues for Examination, the draft Statements of Common Ground (SoCGs) and SoCG Overview document, Interrelationship Document, Design Approach Document and a Design Development Report.
Volume 6 Environmental Statement	Provides environmental information, reports and an assessment of the likely significant effects of the Project, as well as a description of the mitigation measures.
Volume 7 Other Documents	Contains additional documents and reports considered by National Grid to be required to support the application in accordance with Regulation 5(2)(q) of the APFP Regulations (HM Government, 2009). This volume includes a Biodiversity Net Gain Report, the Outline Code of Construction Practice and series of outline Management Plans. Volume 7 also includes an Electric and Magnetic Field Compliance Report, Flood Risk Assessment, Water Framework Directive Assessment, Transport Assessment, Arboricultural Impact Assessment, Photomontages, Register of Environmental Actions and Commitments, Equality Impact Assessment, and reports covering the strategic options and routeing and siting stages of the Project.

1.3.2 Each volume has been colour-coded for ease of reference. The corresponding colour is displayed on the cover of each document within this application to convey the volume it forms part of. The content of each volume is described in Section 2 of this document.

1.4 Application Documentation

1.4.1 The structure of references and numbering within this Guide to the Application is in accordance with the Planning Inspectorate's Nationally Significant Infrastructure Projects: Advice on the Preparation and Submission of Application Documents, specifically in Annex A, last updated in September 2026 (Planning Inspectorate, 2026).

1.4.2 Each submission deliverable has its own individual document reference number to help the reader navigate the application documents. The documents submitted follow a consistent referencing format, e.g. 1.1, 1.2, 4.1, 4.2. A visual example of this referencing format is provided by Image 1.1.

1.4.3 In some instances where a further level of distinction is required, an additional number may be used. For example, due to the number of Statements of Common Ground, an additional number is used. The numbers for the Statements of Common Ground range from 5.8.1. to 5.8.32. An example of this is represented visually by Image 1.2.

1.4.4 Some documents, such as drawings, have a two-digit reference number but include multiple sections, for example the number 2.5 covers the 'Traffic Regulation Order Plans' but with each section assigned a letter A-F.

1.4.5 Each chapter of the Environmental Statement may have its own appendices or figures and these are allocated a letter 'A' (for an appendix) or 'F' (for a figure) as part of their numbering. For example, Appendix 1.1 Statement of Competence is allocated the reference 6.1.A1. A visual example of this layout is shown by Image 1.3.

1.4.6 All documents will be submitted as Revision (A), with updated documents identified as Revision (B), (C), (D) etc. and will supersede documents previously submitted by the Applicant.

1.4.7 Table 1.2 and Image 1.1 to Image 1.3 provide examples of the document referencing system.

Table 1.2 – Document referencing

	Description
Volume	Documents are grouped into a 'volume' of related documents with similar themes. The examples in Image 1.1 and Image 1.3 show Volume 6 covering the 'Environmental Statement'. Each volume is colour coded for easy navigation. Image 1.2 shows an example from Volume 5 'Reports and Statements'.
Document title	Each document has a document title that corresponds with a particular document reference number. The examples shown by Image 1.1 and Image 1.3 are taken from the Environmental Statement.
Document number	Each document has a unique two-digit reference number for navigation, the example shown by Image 1.1 is '6.1'. The first digit identifies the volume to which the document relates, the second to the document itself. In some instances where a further category is required, a third number may be used, shown by Image 1.2.

	Description
Figures and appendices	Some documents have additional appendices that accompany them. These are allocated a letter A, B, C etc. Figures and appendices that support the Environmental Statement are allocated an A or F number. An example of this is shown by Image 1.3.

Image 1.1 – Example 1 (two-digit reference number)

Image 1.2 – Example 2 (three-digit reference number)

Image 1.3 – Example 3 (two-digit reference with figures or appendices)

2. Application Volumes

2.1 Overview

2.1.1 The documents, reports and plans that make up the application have been split into seven volumes, as listed below. Regulation 5 of the APFP Regulations (HM Government, 2009) sets out the accompanying documentation required to support the application. The documentation has been prepared in accordance with Advice on the Preparation and Submission of Application Documents, specifically in Annex A, last updated in September 2026 (Planning Inspectorate, 2026).

2.2 Volume 1: Application Forms

2.2.1 Volume 1 sets out the overarching Project information and documents provided in accordance with application administrative requirements.

Volume Contents

2.2.2 The following application documents are contained within this volume:

- **1.1 Application Form** – this is the prescribed application form required by Section 37(3)(b) of the Planning Act 2008 (HM Government, 2008) and Regulation 5 of the APFP Regulations (HM Government, 2009), providing key information about the Applicant, the Project and documents that have been submitted in the prescribed format.
- **1.2 Application Cover Letter** – sets out the subject of the application and supporting documentation enclosed.
- **1.3 Guide to the Application** (this document) – describes the documents and reports contained within the application. Its purpose is to provide an overview of the application structure and principal contents.
- **1.4 Copies of Newspaper Notices** – used to publicise consultation.
- **1.5 Pre-application Programme Document** – sets out the timetable and describes the activities that enabled an effective pre-application process, and consultation with various parties. The document has been updated at key milestones throughout the pre-application process.
- **1.6 Self Completed Section 55 Checklist** – sets out the circumstances in which the Planning Inspectorate may accept the application for development consent. Required under section 37 of the Planning Act 2008 (HM Government, 2008).
- **1.7 Glossary and Acronyms** – an overarching glossary and acronyms document supporting all application reports and documentation.
- **1.8 Regard Had to S51 Advice** – this comprises a record of the advice in respect of section 51 of the Planning Act 2008 (HM Government, 2008) provided by the Planning Inspectorate to National Grid during the pre-application stage; and sets out how the Applicant has considered the advice and made changes to the application documents, where necessary.

2.3 Volume 2: Plans, Drawings and Sections

2.3.1 Volume 2 contains plans and drawings in connection with the Project and its setting.

Volume Contents

2.3.2 The following application documents are contained within this volume:

- **2.1 Guide to the Plans** – explains the role and content of the different plans and drawings within Volume 2 of the application.
- **2.2 Location and Master Key Plan** – shows a very high-level overview of the Project, its geographic location and the different Route Sections A to F. It includes the Order Limits, which define the area within which the Project would be constructed, including all the land required to deliver the Project.
- **2.3 Land Plans** – show the types of statutory land powers (compulsory acquisition or temporary possession) which National Grid intends to seek for the Order Land within the Order Limits. The land to which these powers relate has been split into land plots, each given a unique plot number that can be found within **Application Document 4.3 Book of Reference**. The plans identify the classes of land powers sought within the application, and also the matters set out in regulation 5(2)(i) of the APFP Regulations (HM Government, 2009). **Application Document 2.3 Land Plans** consists of a series of plans from Sections A to F.
- **2.4 Works Plans** – show the main permanent and temporary aspects of the Project, broken down into specific work numbers as described in Schedule 1 of **Application Document 3.1 Draft Development Consent Order (DCO)**. The plans show the overhead line centrelines of the linear works that make up the application and associated pylons as well as the LoD that National Grid is applying for. **Application Document 2.4 Works Plans** consists of a series of plans from Sections A to F.
- **2.5 Traffic Regulation Order Plans** – show the extent of the proposed Traffic Regulation Orders (TROs) for sections of the public highway network that may need to be subject to a TRO while works are undertaken, such as where restrictions or traffic management would be required to facilitate the construction of the Project. **Application Document 2.5 Traffic Regulation Order Plans** consists of a series of plans from Sections A to F.
- **2.6 Access, Rights of Way and Public Rights of Navigation Plans** – show the temporary access points from the public highway, as well as the Public Rights of Navigation, Public Rights of Way (PRoWs), roads and streets (with identified diversion routes where applicable) which are required to be temporarily closed in order to construct the Project. The plans also show the type of management measures proposed for affected streets and PRoWs. **Application Document 2.6 Access, Rights of Way and Public Rights of Navigation Plans** consists of a series of plans from Sections A to F.
- **2.7 Elevation Drawings - Profile Drawings** – are a suite of indicative drawings that provide details on the locations and heights of proposed new and temporary infrastructure, and existing infrastructure. Indicative overhead line profiles are available for the 4AF, 4ZQ and ZDA. **Application Document 2.7 Elevation Drawings - Profile Drawings** consists of a series of profile drawings from Part 1

to Part 6. This set of drawings have been used as an aid for interpretation but do not form part of the environmental impact assessment carried out for the Project presented in the Environmental Statement.

- **2.8 Statutory and Non-Statutory Sites of Nature Conservation Geological and Landscape Importance** – show environmental designations, sites of special scientific interest, ancient woodland and other environmental features relevant to the application including notified and potential geological sites. **Application Document 2.8 Statutory and Non-Statutory Sites of Nature Conservation Geological and Landscape Importance** consists of a series of plans from Sections A to F.
- **2.9 Habitats of Protected Species and Important Habitats** – show the locations of habitats of protected species and important habitats based on the Project's environmental surveys. **Application Document 2.9 Habitats of Protected Species and Important Habitats** consists of a series of plans from Sections A to F.
- **2.10 Statutory and Non-Statutory Sites and Features of the Historic Environment** – shows scheduled monuments, listed buildings and archaeological sites on the historic environment record. **Application Document 2.10 Statutory and Non-Statutory Sites and Features of the Historic Environment** consists of a series of plans from Sections A to F.
- **2.11 Water Bodies in the River Basin Management Plan** – shows the water bodies and their catchment areas. **Application Document 2.11 Water Bodies in the River Basin Management Plan** consists of a series of plans from Sections A to F.
- **2.12 Typical Design Drawings** – are a suite of illustrative drawings that provide examples of key Project components of the temporary construction phase such as temporary compounds, works areas and accesses. This set of drawings have been used as an aid for interpretation but do not form part of the environmental impact assessment carried out for the Project presented in the Environmental Statement.
- **2.13 Trees and Important Hedgerows to be Removed or Managed Plans** – show the trees and hedgerows that need to be managed and which could potentially be affected by the Project. The potential impacts from the Project on individual trees, groups of trees, woodlands and hedgerows have been broken down into the following four categories: Not affected, Potentially Affected, Affected Managed and Removed. **Application Document 2.13 Trees and Important Hedgerows to be Removed or Managed Plans** consists of a series of plans from Sections A to F.
- **2.14 Special Category Land Plans** – show any land that is defined as Special Category Land, which is subject to powers of compulsory acquisition. Special Category Land is defined as the land identified as forming part of a common, open space, inalienable National Trust land, or a fuel or field garden allotment.
- **2.15 Crown Land Plans** – show any land that has been identified as Crown Land or reputed Crown Land, and which is subject to powers of compulsory acquisition. Crown Land is defined as land where the Crown or Crown Bodies own land or hold an interest in land.

2.4 Volume 3: Draft Development Consent Order

2.4.1 National Grid requires development consent from the Secretary of State to construct, operate and maintain the Project. This volume contains details of the legal powers being sought by the Applicant.

Volume Contents

2.4.2 The following application documents are contained within this volume:

- **3.1 Draft Development Consent Order** – contains a list of the works as well as the legal powers that National Grid is seeking, to enable the construction, operation and maintenance of the Project. The draft DCO also contains a series of 'Requirements', like planning conditions, which set out various controls if consent is granted. **Application Document 3.1 Draft Development Consent Order** comprises the following schedules:
  - Schedule 1: Authorised Development;
  - Schedule 2: Requirements;
  - Schedule 3: Discharge of Requirements;
  - Schedule 4: Streets Subject to Street Works;
  - Schedule 5: Streets Subject to Alteration of Layout;
  - Schedule 6: Streets or Public Rights of Way to be Temporarily Closed;
  - Schedule 7: Access to Works;
  - Schedule 8: Modification of Compensation and Compulsory Purchase Enactments;
  - Schedule 9: Land of which Temporary Possession may be Taken;
  - Schedule 10: Land in Which Only New Rights and Restrictive Covenants etc. May be Acquired;
  - Schedule 11: Traffic Regulation Orders;
  - Schedule 12: Trees Subject to Tree Preservation Orders;
  - Schedule 13: Amendment of Local Legislation;
  - Schedule 14: Protective Provisions; and
  - Schedule 15: Certified Documents.
- **3.2 Explanatory Memorandum** – explains the purpose, rationale and effect of each article of, and the Schedules to, the draft DCO.
- **3.3 Validation Report for Development Consent Order** – confirms that the draft DCO conforms to the current Statutory Instrument template, as required by the Planning Inspectorate's Advice Note 15: Drafting Development Consent Orders published in 2018 (Planning Inspectorate, 2018).
- **3.4 Draft Development Consent Order – Editable Word Version** – a copy of the draft DCO in an editable Word version to assist the Examining Authority.

2.5 Volume 4: Compulsory Acquisition Information

2.5.1 This volume provides evidence of why National Grid needs to be able to exercise powers of compulsory acquisition to construct, operate and/or maintain the Project.

Volume Contents

2.5.2 The following application documents are contained within this volume:

- **4.1 Statement of Reasons** – explains that there is a compelling case in the public interest which would justify National Grid's exercise of powers of compulsory acquisition in order to acquire land and rights permanently and to use land temporarily to enable it to construct, operate and maintain the Project. This document is supplemented by:
  - 4.1 Appendix A Compulsory Acquisition Schedule;
  - 4.1 Appendix B Schedule of Negotiations; and
  - 4.1 Appendix C Special Category Land Report.
- **4.2 Funding Statement** – explains how the Project is to be funded, and how the acquisition of land rights in, on or over land, which are necessary to build the Project will be funded.
- **4.3 Book of Reference** – contains land referencing information for land proposed to be used or acquired for the Project in accordance with regulatory requirements and is split into five parts:
  - **Part 1**: Categories 1 and 2 – contains the names and addresses of each person within Categories 1 and 2 as set out in Section 57 (categories for purposes of Section 56(2)(d)) of the Planning Act 2008 (HM Government, 2008) in respect of any land which it is proposed shall be subject to powers of compulsory acquisition, rights to use land, including the right to attach brackets or other equipment to buildings or rights to carry out protective works to buildings.
  - **Part 2**: Category 3: contains the names and addresses of service of each person within Category 3 as set out in section 57 of the Planning Act 2008 (HM Government, 2008).
  - **Part 3**: contains the names of all those entitled to enjoy easements or other private rights over land (including private rights of navigation over water) which it is proposed shall be extinguished, suspended or interfered with.
  - **Part 4**: Crown Interests – specifies the owner of any Crown interest in the land which is proposed to be used for the purposes of the order for which application is being made.
  - **Part 5**: Special Category Land – specifies land the acquisition of which is subject to special parliamentary procedure, which is 'special category land' for the purposes of Sections 131 and 132 of the Planning Act 2008 (HM Government, 2008) and which is replacement land.
- **4.4 Pre-application Land and Rights Negotiations Tracker** – A schedule of discussions and engagement with landowners prior to submission of the application.

2.6 Volume 5: Reports and Statements

2.6.1 This volume contains reports and statements required in support of the application.

Volume Contents

2.6.2 The following application documents are contained within this volume:

- **5.1 Consultation Report** – National Grid acknowledges that, with effect from 24 July 2026, the Planning and Infrastructure Act 2025 (PIA 2025) (HM Government, 2025) repealed the statutory consultation requirements for Development Consent Order (DCO) applications that previously applied under the Planning Act 2008 (HM Government, 2008). The amendments to the Planning Act 2008 (HM Government, 2008) removed the statutory duties under sections 42, 43, 44, 45, 47 and 49, and the requirement for applicants to undertake pre-application consultation. It also removed the requirement to prepare and submit a consultation report demonstrating compliance with the statutory consultation duties.
- The consultation described in this report was undertaken in accordance with the legislative framework applicable at the time (February 2025) that the consultation programme was designed and implemented, whereby section 37(3)(c) of the Planning Act 2008 (HM Government, 2008) required that applications for development consent be accompanied by a Consultation Report.
- The Consultation Report and its supporting appendices explain how National Grid has consulted on the Project, summarises the responses received and explains how National Grid has had regard to those responses. The Consultation Report explains how National Grid has complied with the consultation requirements (applicable at the time of consultation) set out in the Planning Act 2008 (HM Government, 2008), the APFP Regulations (HM Government, 2009) and The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (EIA Regulations) (HM Government, 2017). The preparation of the Consultation Report has also taken into account statutory and non-statutory guidance including guidance set out in Planning Act 2008: pre-application stage for Nationally Significant Infrastructure Projects (Ministry of Housing, Communities and Local Government, 2024); Nationally Significant Infrastructure Projects: Advice on the consultation report (Planning Inspectorate, 2024); and Nationally Significant Infrastructure Projects: 2024 Pre application prospectus (Planning Inspectorate, 2024). The Consultation Report comprises a main report and 11 separate appendices. The appendices supporting **Application Document 5.1 Consultation Report** are listed below:
  - 5.1 Consultation Report Appendix A Meetings and Correspondence with Stakeholders;
  - 5.1 Consultation Report Appendix B Non-statutory Consultation Feedback Report;
  - 5.1 Consultation Report Appendix C Section 46 Letter to Inspectorate and S46 Inspectorate Confirmation of Receipt;
  - 5.1 Consultation Report Appendix D Statement of Community Consultation and Supporting Information;

- 5.1 Consultation Report Appendix E List of Prescribed Consultees Identified and Consulted During Statutory Consultation and Section 42(1)(a) Letter Sent;
- 5.1 Consultation Report Appendix F Section 42(1)(d) Consultees and Supporting Information;
- 5.1 Consultation Report Appendix G Section 47 and Section 48 Notices;
- 5.1 Consultation Report Appendix H Section 47 Consultation Materials;
- 5.1 Consultation Report Appendix I Land Referencing Methodology;
- 5.1 Consultation Report Appendix J Adequacy of Consultation Milestone; and
- 5.1 Consultation Report Appendix K Responses to Statutory and Prescribed Consultees.

- **5.2 Habitats Regulations Assessment Report** – presents the Habitats Regulations Assessment undertaken for the Project in accordance with the Habitats Regulations and provides sufficient information to enable the Secretary of State to make an appropriate assessment in relation to European Sites as required by Regulation 5(2)(g) of the APFP Regulations 2009 (HM Government, 2009). This report has been prepared with reference to Nationally Significant Infrastructure Projects: Advice on Habitats Regulations Assessments (Planning Inspectorate, 2024) and in consultation with Natural England. It comprises Stage 1: Screening; and Stage 2: Appropriate Assessment.
- **5.3 Statement of Statutory Nuisance** – sets out the matters in Section 79(1) of the Environmental Protection Act 1990 (HM Government, 1990) in respect to statutory nuisance, the potential for the Project to cause statutory nuisance and the measures that have been incorporated in the Project to mitigate any such potential nuisances. This document has been submitted in accordance with Regulation 5(2)(f) of the APFP Regulations (HM Government, 2009).
- **5.4 Consents and Licences Required Under Other Legislation** – a strategy for obtaining consents, licences and associated agreements, in addition to the DCO, that are needed to construct and/or operate the Project.
- **5.5 Planning Statement** presents and assesses the Project in its planning policy context, considering the benefits of the Project against any expected impacts.
- **5.6 Policy Compliance Document** – a schedule of all the relevant local and national planning policies, along with a statement setting out how the Project complies with these policies.
- **5.7 Potential Main Issues for Examination** – a report containing a schedule of potential main issues that remain unresolved prior to submission of the application.
- **5.8 Draft Statements of Common Ground (Individual Statements: 5.8.1 to 5.8.32)** – Statements of Common Ground (SoCG) outlining matters of agreement between the Applicant and key stakeholders, as well as where agreement has not been reached at the time of submitting the application. This includes **Application Document 5.8 Statements of Common Ground** which provides an overview of all SoCG and will be updated during the examination to keep an overarching record of progress. Ahead of submitting the application, the Applicant shared draft SoCG with the associated stakeholder for review to seek confirmation prior to

submitting. At the time of submission of the application, the Applicant had not received confirmation from some stakeholders of their review and as such, some draft SoCG were not submitted with the application. As a result, there are gaps in the document reference numbers for SoCG. It remains the applicant's intention to progress and submit these draft SoCG at an early stage of the examination.

SoCG submitted with the application include:

- 5.8 Statements of Common Ground;
- 5.8.1 Statement of Common Ground - Environment Agency;
- 5.8.2 Statement of Common Ground - Historic England;
- 5.8.3 Statement of Common Ground - Natural England;
- 5.8.4 Statement of Common Ground - National Highways;
- 5.8.5 Statement of Common Ground - Bassetlaw District Council;
- 5.8.6 Statement of Common Ground - East Riding of Yorkshire Council;
- 5.8.7 Statement of Common Ground - North Lincolnshire Council;
- 5.8.8 Statement of Common Ground - Nottinghamshire County Council;
- 5.8.9 Statement of Common Ground - Canal & River Trust;
- 5.8.10 Statement of Common Ground - Associated British Ports;
- 5.8.11 Statement of Common Ground - Severn Trent Water;
- 5.8.12 Statement of Common Ground - Water Management Consortium (Isle of Axholme & North Nottinghamshire IDB and Trent Valley IDB;
- 5.8.13 Statement of Common Ground - Yorkshire & Humber IDB;
- 5.8.14 Statement of Common Ground - Dogger Bank D - SSE Renewables and Equinor;
- 5.8.15 Statement of Common Ground - Lincolnshire Wildlife Trust;
- 5.8.16 Statement of Common Ground - Yorkshire Wildlife Trust;
- 5.8.17 Statement of Common Ground - Nottinghamshire Wildlife Trust;
- 5.8.18 Statement of Common Ground - Royal Society for the Protection of Birds;
- 5.8.19 Statement of Common Ground - Anglian Water;
- 5.8.22 Statement of Common Ground - Creyke Beck Solar - PS Renewables;
- 5.8.23 Statement of Common Ground - One Earth Solar Farm - Ørsted and PS Renewables;
- 5.8.24 Statement of Common Ground - J G Pears Holding Limited;
- 5.8.25 Statement of Common Ground - Wienerberger Limited;
- 5.8.26 Statement of Common Ground - Darlton Gliding Club;
- 5.8.27 Statement of Common Ground - Grove Farm Airfield;

- 5.8.29 Statement of Common Ground - Headon Airfield; and
- 5.8.32 Statement of Common Ground – National Grid Electricity Distribution.

- **5.9 Design Development Report** presents the main changes that have been made to the Project since the completion of statutory consultation in 2025 and the targeted Persons with Interest in Land (PIL) consultations in 2025 and 2026, explaining the main reasons for changes to the design of the Project. The appendices supporting **Application Document 5.9 Design Development Report** are listed below:
  - 5.9.A1 Aviation Assessment – provides a summary of UK policy on aviation safeguarding and outlines the risk assessment methodology applied to eight unlicensed aerodromes located along the length of the Project. The risk assessment for each of the aerodromes is then set out, alongside the mitigation measures considered. Annexes to the document outline the engagement undertaken with the individual aerodromes and other relevant technical matters relating to safety, etc.
- **5.10 Design Approach Document** presents overarching design approach, key principles that have guided the development of the Project, and how the design has evolved through a structured, iterative and transparent process in response to technical requirements, environmental and socio-economic considerations, and stakeholder engagement.
- **5.11 Interrelationship Document** details how the Project has considered potential interactions and interfaces with other projects, and complied with coordination policies set out in the National Policy Statements.

2.7 Volume 6: Environmental Statement

2.7.1 This volume contains the Environmental Statement for the Project. The Environmental Statement sets out the results of the Environmental Impact Assessment (EIA) undertaken to understand the likely significant effects of the Project on the environment and any associated mitigation requirements.

2.7.2 Where relevant, chapters within Volume 6 are supported by technical appendices and figures. These are also listed below.

Volume Contents

2.7.3 The following application documents are contained within this volume:

- **6.1 Environmental Statement Chapter 1 Introduction** provides an overview and need for the Project, the purpose and structure of the EIA, and the contents of the Environmental Statement. The appendices and figures supporting **Application Document 6.1 Environmental Statement Chapter 1** are listed below:
  - 6.1.A1 Environmental Statement Appendix 1.1 Statement of Competence; and
  - 6.1.F1 Environmental Statement Figure 1.1 Project Location and Route Sections.
- **6.2 Environmental Statement Chapter 2 Legislation and Policy Context** – a review of key environmental legislation and planning policy relevant to the Project.

- **6.3 Environmental Statement Chapter 3 Main Alternatives Considered** summarises the main reasonable alternatives that have been considered on the Project, including the strategic options and route corridors.
- **6.4 Environmental Statement Chapter 4 Description of the Project** describes the Project including permanent features and associated temporary works. It describes the general characteristics of the Project and outlines areas of flexibility in relation to design parameters. The appendices and figures supporting **Application Document 6.4 Environmental Statement Chapter 4** are listed below:
  - 6.4.A1 Environmental Statement Appendix 4.1 Indicative Pylon Schedule;
  - 6.4.A2 Environmental Statement Appendix 4.2 Indicative Bridge and Culvert Schedule;
  - 6.4.A3 Environmental Statement Appendix 4.3 Indicative PRoW, Road, Railway and Rights of Navigation Crossing Schedule;
  - 6.4.A4 Environmental Statement Appendix 4.4 Indicative Third Party Schedule;
  - 6.4.F1 Environmental Statement Figure 4.1 Proposed Project Design;
  - 6.4.F2 Environmental Statement Figure 4.2 Construction Traffic Routes;
  - 6.4.F3 Environmental Statement Figure 4.3 Temporary Construction Works; and
  - 6.4.F4 Environmental Statement Figure 4.4 Third Party Works.
- **6.5 Environmental Statement Chapter 5 EIA Approach and Methodology** describes the overall EIA methodology that has been used, including temporal durations and approach to mitigation. The appendices supporting **Application Document 6.5 Environmental Statement Chapter 5** are listed below:
  - 6.5.A1 Environmental Statement Appendix 5.1 Environmental Impact Assessment Scoping Report;
  - 6.5.A2 Environmental Statement Appendix 5.2 Scoping Opinion; and
  - 6.5.A3 Environmental Statement Appendix 5.3 Scoping Response Tables.
- **6.6 Environmental Statement Chapter 6 Landscape** presents the assessment of likely significant landscape effects that could result from the Project. The appendices and figures supporting **Application Document 6.6 Environmental Statement Chapter 6** are listed below:
  - 6.6.A1 Environmental Statement Appendix 6.1 Regional and Local Planning Policy;
  - 6.6.A2 Environmental Statement Appendix 6.2 Landscape Methodology;
  - 6.6.A3 Environmental Statement Appendix 6.3 Landscape Baseline and Assessment;
  - 6.6.F1 Environmental Statement Figure 6.1 Landscape Designations and Features;
  - 6.6.F2 Environmental Statement Figure 6.2 Landform and Drainage;

- 6.6.F3 Environmental Statement Figure 6.3 National Character Areas; and
- 6.6.F4 Environmental Statement Figure 6.4 Landscape Character Types.

- **6.7 Environmental Statement Chapter 7 Visual** presents the assessment of likely significant visual effects that could result from the Project. The appendices and figures supporting **Application Document 6.7 Environmental Statement Chapter 7** are listed below:
  - 6.7.A1 Environmental Statement Appendix 7.1 Regional and Local Planning Policy;
  - 6.7.A2 Environmental Statement Appendix 7.2 Visual Methodology;
  - 6.7.A3 Environmental Statement Appendix 7.3 Viewpoint Assessment;
  - 6.7.A4 Environmental Statement Appendix 7.4 Visual Baseline and Assessment;
  - 6.7.A5 Environmental Statement Appendix 7.5 Residential Visual Amenity Assessment;
  - 6.7.F1 Environmental Statement Figure 7.1 Visual Receptors and Viewpoints; and
  - 6.7.F2 Environmental Statement Figure 7.2 Zone of Theoretical Visibility.
- **6.8 Environmental Statement Chapter 8 Ecology** presents the assessment of likely significant effects on ecologically sensitive receptors that could result from the Project. **Application Document 6.8.A5 Environmental Statement Appendix 8.5 Badger Report** is a confidential document and is therefore marked 'confidential.' Two versions of **Application Document 6.8.A6 Environmental Statement Appendix 8.6 Otter and Water Vole Report** have been submitted. One version contains confidential information and is marked 'confidential.' The second version has the confidential information redacted and is marked 'redacted'. The appendices and figures supporting **Application Document 6.8 Environmental Statement Chapter 8** are listed below:
  - 6.8.A1 Environmental Statement Appendix 8.1 Regional and Local Planning Policy;
  - 6.8.A2 Environmental Statement Appendix 8.2 Designated Sites Information;
  - 6.8.A3 Environmental Statement Appendix 8.3 Habitat Survey Report;
  - 6.8.A4 Environmental Statement Appendix 8.4 Botanical Report;
  - 6.8.A5 Environmental Statement Appendix 8.5 Badger Report (Confidential);
  - 6.8.A6 Environmental Statement Appendix 8.6 Otter and Water Vole Report;
  - 6.8.A7 Environmental Statement Appendix 8.7 Bat Roost Report;
  - 6.8.A8 Environmental Statement Appendix 8.8 Bat Activity Report;
  - 6.8.A9 Environmental Statement Appendix 8.9 Hazel Dormouse Report;
  - 6.8.A10 Environmental Statement Appendix 8.10 Aquatic Ecology Report;
  - 6.8.A11 Environmental Statement Appendix 8.11 Summary of Assessments for Sites of Special Scientific Interest;

- 6.8.A12 Environmental Statement Appendix 8.12 Great Crested Newt Report for Nottinghamshire;
- 6.8.F1 Environmental Statement Figure 8.1 International Sites Designated for Nature Conservation within 10 km and National and Local Statutory Designated Sites within 5 km; and
- 6.8.F2 Environmental Statement Figure 8.2 Nature Conservation Non-Statutory Designated Sites and Priority Habitat within 2 km.

- **6.9 Environmental Statement Chapter 9 Ornithology** presents the assessment of likely significant ornithology effects that could result from the Project **Application Document 6.9.A4 Environmental Statement Appendix 9.4 Confidential Ornithology Baseline Report** is a confidential document and is therefore marked 'confidential.' The appendices and figures supporting **Application Document 6.9 Environmental Statement Chapter 9** are listed below:
  - 6.9.A1 Environmental Statement Appendix 9.1 Regional and Local Planning Policy;
  - 6.9.A2 Environmental Statement Appendix 9.2 Ornithology Baseline Report (8 parts);
  - 6.9.A3 Environmental Statement Appendix 9.3 Flight Activity Assessment;
  - 6.9.A4 Environmental Statement Appendix 9.4 Confidential Ornithology Baseline Report;
  - 6.9.F1 Environmental Statement Figure 9.1 Statutory International Designated Sites of Ornithological Importance;
  - 6.9.F2 Environmental Statement Figure 9.2 Statutory National and Local Designated Sites of Ornithological Importance; and
  - 6.9.F3 Environmental Statement Figure 9.3 Non-Statutory Designated Sites of Ornithological Importance.
- **6.10 Environmental Statement Chapter 10 Cultural Heritage** presents the assessment of likely significant cultural heritage effects that could result from the Project. The appendices and figures supporting **Application Document 6.10 Environmental Statement Chapter 10** are listed below:
  - 6.10.A1 Environmental Statement Appendix 10.1 Regional and Local Planning Policy;
  - 6.10.A2 Environmental Statement Appendix 10.2 Cultural Heritage Baseline Report;
  - 6.10.A3 Environmental Statement Appendix 10.3 Cultural Heritage Visualisations;
  - 6.10.A4 Environmental Statement Appendix 10.4 Cultural Heritage Gazetteers;
  - 6.10.A5 Environmental Statement Appendix 10.5 Aerial Photography and LiDAR report;
  - 6.10.A6 Environmental Statement Appendix 10.6 Geophysical Survey Report;

- 6.10.A7 Environmental Statement Appendix 10.7 Geoarchaeological Desk Based Assessment;
- 6.10.A8 Environmental Statement Appendix 10.8 Archaeological Trial Trench Evaluation Report;
- 6.10.F1 Environmental Statement Figure 10.1 Designated Heritage Assets within Study Areas;
- 6.10.F2 Environmental Statement Figure 10.2a Locations of Non-Designated Archaeological Assets within 1 km of Order Limits;
- 6.10.F2 Environmental Statement Figure 10.2b Locations of Non-Designated Built Heritage Assets within 1 km of Lateral LoD;
- 6.10.F3 Environmental Statement Figure 10.3 Location of Archaeological Events;
- 6.10.F4 Environmental Statement Figure 10.4 Historic Landscape Character; and
- 6.10.F5 Environmental Statement Figure 10.5 Isle of Axholme Special Historic Landscape Character Zones.

- **6.11 Environmental Statement Chapter 11 Water Environment** presents the assessment of likely significant water environment effects that could result from the Project. The appendices and figures supporting **Application Document 6.11 Environmental Statement Chapter 11** are listed below:
  - 6.11.A1 Environmental Statement Appendix 11.1 Regional and Local Planning Policy;
  - 6.11.A2 Environmental Statement Appendix 11.2 Water Resources Assessment;
  - 6.11.F1 Environmental Statement Figure 11.1 Water Environment Features and Study Area;
  - 6.11.F2 Environmental Statement Figure 11.2 Environment Agency Flood Zones 2 and 3;
  - 6.11.F3 Environmental Statement Figure 11.3 Flood Risk Areas – Rivers and the Sea;
  - 6.11.F4 Environmental Statement Figure 11.4 Flood Risk Areas – Surface Water; and
  - 6.11.F5 Environmental Statement Figure 11.5 Water Framework Directive Surface Water Bodies.
- **6.12 Environmental Statement Chapter 12 Geology and Hydrogeology** presents the assessment of likely significant geology and hydrogeology effects that could result from the Project. The appendices and figures supporting **Application Document 6.12 Environmental Statement Chapter 12** are listed below:
  - 6.12.A1 Environmental Statement Appendix 12.1 Regional and Local Planning Policy;

- 6.12.A2 Environmental Statement Appendix 12.2 Preliminary Contamination Risk Assessment;
- 6.12.A3 Environmental Statement Appendix 12.3 Preliminary Qualitative Mineral Resource Assessment;
- 6.12.A4 Environmental Statement Appendix 12.4 Preliminary Qualitative Groundwater Risk Assessment;
- 6.12.F1 Environmental Statement Figure 12.1 Superficial Geology;
- 6.12.F2 Environmental Statement Figure 12.2 Bedrock Geology;
- 6.12.F3 Environmental Statement Figure 12.3 Geologically Designated Sites; and
- 6.12.F4 Environmental Statement Figure 12.4 Hydrogeology and Hydrogeological Receptors.

- **6.13 Environmental Statement Chapter 13 Agriculture and Soils** presents the assessment of likely significant agriculture and soils effects that could result from the Project. The appendices and figures supporting **Application Document 6.13 Environmental Statement Chapter 13** are listed below:
  - 6.13.A1 Environmental Statement Appendix 13.1 Regional and Local Planning Policy;
  - 6.13.A2 Environmental Statement Appendix 13.2 Agricultural Land Classification Survey Report;
  - 6.13.F1 Environmental Statement Figure 13.1 Agricultural and Soils Study Area;
  - 6.13.F2 Environmental Statement Figure 13.2 Provisional Agricultural Land Classification Mapping;
  - 6.13.F3 Environmental Statement Figure 13.3 Detailed Agricultural Land Classification Mapping (Post-1988);
  - 6.13.F4 Environmental Statement Figure 13.4 Agri-environmental Schemes;
  - 6.13.F5 Environmental Statement Figure 13.5 Forestry and Woodland Grant Schemes;
  - 6.13.F6 Environmental Statement Figure 13.6 National Soil Map; and
  - 6.13.F7 Environmental Statement Figure 13.7 Detailed Agricultural Land Classification Survey Map.
- **6.14 Environmental Statement Chapter 14 Traffic and Transport** – presents the assessment of likely significant traffic and transport effects that could result from the Project. The appendices and figures supporting **Application Document 6.14 Environmental Statement Chapter 14** are listed below:
  - 6.14.A1 Environmental Statement Appendix 14.1 Regional and Local Planning Policy;
  - 6.14.A2 Environmental Statement Appendix 14.2 Traffic and Transport Baseline Conditions;
  - 6.14.A3 Environmental Statement Appendix 14.3 Future Baseline;

- 6.14.A4 Environmental Statement Appendix 14.4 Magnitude of Impact;
- 6.14.A5 Environmental Statement Appendix 14.5 Construction Effects Summary;
- 6.14.F1 Environmental Statement Figure 14.1 Primary Access Routes;
- 6.14.F2 Environmental Statement Figure 14.2 Sensitive Receptors;
- 6.14.F3 Environmental Statement Figure 14.3 Collision Data; and

- **6.15 Environmental Statement Chapter 15 Air Quality** – presents the assessment of likely significant air quality effects that could result from the Project. The appendices and figures supporting **Application Document 6.15 Environmental Statement Chapter 15** are listed below:
  - 6.15.A1 Environmental Statement Appendix 15.1 Regional and Local Planning Policy;
  - 6.15.A2 Environmental Statement Appendix 15.2 Construction Dust Methodology and Assessment;
  - 6.15.A3 Environmental Statement Appendix 15.3 Construction Vehicle Emissions Modelling;
  - 6.15.F1 Environmental Statement Figure 15.1 Air Quality Construction Dust Study Area;
  - 6.15.F2 Environmental Statement Figure 15.2 Air Quality Construction Vehicle Emissions Study Area and Receptor Locations;
  - 6.15.F3 Environmental Statement Figure 15.3 Air Quality NRMM Emissions Study Area; and
  - 6.15.F4 Environmental Statement Figure 15.4 Air Quality Baseline.
- **6.16 Environmental Statement Chapter 16 Noise and Vibration** presents the assessment of likely significant noise and vibration effects that could result from the Project. The appendices and figures supporting **Application Document 6.16 Environmental Statement Chapter 16** are listed below:
  - 6.16.A1 Environmental Statement Appendix 16.1 Regional and Local Planning Policy;
  - 6.16.A2 Environmental Statement Appendix 16.2 Baseline Noise Survey Data;
  - 6.16.A3 Environmental Statement Appendix 16.3 Construction Noise and Vibration Data;
  - 6.16.A4 Environmental Statement Appendix 16.4 Construction Traffic Noise and Vibration Assessment;
  - 6.16.A5 Environmental Statement Appendix 16.5 Operational Overhead Line Noise Assessment;
  - 6.16.F1 Environmental Statement Figure 16.1 Noise and Vibration Baseline;
  - 6.16.F2 Environmental Statement Figure 16.2 Construction Noise Assessment Outputs; and

- 6.16.F3 Environmental Statement Figure 16.3 Construction Vibration Assessment Outputs.

- **6.17 Environmental Statement Chapter 17 Socio-Economics, Recreation and Tourism** presents the assessment of likely significant socio-economics, recreation and tourism effects that could result from the Project. The appendices and figures supporting **Application Document 6.17 Environmental Statement Chapter 17** are listed below:
  - 6.17.A1 Environmental Statement Appendix 17.1 Regional and Local Planning Policy;
  - 6.17.A2 Environmental Statement Appendix 17.2 Navigation-Related Socio-Economic, Recreation and Tourism Impacts;
  - 6.17.F1 Environmental Statement Figure 17.1 Socio-economics, Recreation and Tourism Study Area;
  - 6.17.F2 Environmental Statement Figure 17.2 60-minute Drive Time Catchment Area;
  - 6.17.F3 Environmental Statement Figure 17.3 Community Facilities;
  - 6.17.F4 Environmental Statement Figure 17.4 Business, Recreation and Tourism Receptors; and
  - 6.17.F5 Environmental Statement Figure 17.5 Recreational Land and Recreational Routes.
- **6.18 Environmental Statement Chapter 18 Health and Wellbeing** presents the assessment of likely significant health and wellbeing effects that could result from the Project. The appendices and figures supporting **Application Document 6.18 Environmental Statement Chapter 18** are listed below:
  - 6.18.A1 Environmental Statement Appendix 18.1 Regional and Local Planning Policy; and
  - 6.18.F1 Environmental Statement Figure 18.1 Health and Wellbeing Baseline Study Area.
- **6.19 Environmental Statement Chapter 19 Climate Change** presents the assessment of likely significant climate change effects that could result from the Project. The appendices supporting **Application Document 6.19 Environmental Statement Chapter 19** are listed below:
  - 6.19.A1 Environmental Statement Appendix 19.1 Regional and Local Planning Policy;
  - 6.19.A2 Environmental Statement Appendix 19.2 Climate Change Risk Assessment;
  - 6.19.A3 Environmental Statement Appendix 19.3 In-Combination Climate Change Impact Assessment; and
  - 6.19.A4 Environmental Statement Appendix 19.4 Greenhouse Gas Reduction Strategy.

- **6.20 Environmental Statement Chapter 20 Intra-project Cumulative Effects** presents a description of the approach to the cumulative effects assessment, including the combined likely significant effects arising from interactions between different environmental topics, on the same receptor group. The appendix supporting **Application Document 6.20 Environmental Statement Chapter 20** is given below:
  - 6.20.A1 Environmental Statement Appendix 20.1 Intra-project Cumulative Effects Screening Tables.
- **6.21 Environmental Statement Chapter 21 Inter-project Cumulative Effects** presents a description of the approach to the cumulative effects assessment, including the combined likely significant effects arising from the Project in combination with other developments. The appendices and figures supporting **Application Document 6.21 Environmental Statement Chapter 21** are listed below:
  - 6.21.A1 Environmental Statement Appendix 21.1 Long List Nationally Significant Infrastructure Projects NSIP;
  - 6.21.A2 Environmental Statement Appendix 21.2 Long List East Riding of Yorkshire Council;
  - 6.21.A3 Environmental Statement Appendix 21.3 Long List North Lincolnshire Council;
  - 6.21.A4 Environmental Statement Appendix 21.4 Long List Bassetlaw District Council;
  - 6.21.A5 Environmental Statement Appendix 21.5 Long List West Lindsey District Council;
  - 6.21.A6 Environmental Statement Appendix 21.6 Long List Lincolnshire County Council;
  - 6.21.A7 Environmental Statement Appendix 21.7 Long List North Kesteven District Council;
  - 6.21.A8 Environmental Statement Appendix 21.8 Long List City of Lincoln Council;
  - 6.21.A9 Environmental Statement Appendix 21.9 Long List Rotherham Metropolitan Borough Council;
  - 6.21.A10 Environmental Statement Appendix 21.10 Long List City of Doncaster Council;
  - 6.21.A11 Environmental Statement Appendix 21.11 Long List Newark and Sherwood District Council;
  - 6.21.A12 Environmental Statement Appendix 21.12 Long List Hull City Council;
  - 6.21.A13 Environmental Statement Appendix 21.13 Long List Nottinghamshire County Council;
  - 6.21.A14 Environmental Statement Appendix 21.14 Description of Other Developments;

  - 6.21.F1 Environmental Statement Figure 21.1 Cumulative Effects Assessment: Long List of Other Developments; and
  - 6.21.F2 Environmental Statement Figure 21.2 Cumulative Effects Assessment: Short List of Other Developments.
- **6.22 Environmental Statement Non-Technical Summary** summarises in non-technical language the contents of the Environmental Statement, including the key features of the baseline, mitigation measures and residual significant effects.

2.8 Volume 7: Other Documents

2.8.1 This volume includes additional documents that have been produced in support of the application.

Volume Contents

2.8.2 The following documents are contained within this volume:

- **7.1 Biodiversity Net Gain Report** – presents the methodology and results of a Biodiversity Net Gain (BNG) assessment using the Statutory Biodiversity Metric User Guide (Department for Environment, Food and Rural Affairs, 2026), and BNG good practice principles which are described in Appendix G (Chartered Institute of Ecology and Environmental Management (CIEEM), Institute of Environmental Management and Assessment (IEMA) and Construction Industry Research and Information Association (CIRIA), 2019).
- **7.2 Outline Code of Construction Practice (CoCP)** outlines the principles and procedures which will be applied to the Project to mitigate the potential environmental impacts of construction.
- **7.3 Register of Environmental Actions and Commitments (REAC)** sets out the mitigation measures and environmental commitments required to reduce, manage and where possible avoid construction-related impacts identified through the technical assessments reported in the Environmental Statement.
- **7.4 Outline Construction Traffic Management Plan** sets out proposals for the management of construction traffic on the local highway network in the vicinity of the Project during the construction period in order to limit any potential disruptions and implications on the overall transport network.
- **7.5 Outline Soil Management Plan** sets out the overarching principles, procedures and responsibilities for the sustainable handling, protection, storage and reinstatement of soils for the Project.
- **7.6 Outline Public Rights of Way Management Plan** sets out the principles and procedures to minimise and manage potential construction impacts associated with the Project on the PRoW network.
- **7.7 Outline Noise and Vibration Management Plan** sets out the general principles, controls and arrangements that will be applied to the Project to manage noise and vibration during construction.
- **7.8 Outline Landscape and Ecology Management Plan** sets out the framework for the planting, management and monitoring of landscaping and ecological mitigation and enhancement of habitats.

- **7.9 Outline Archaeological Written Scheme of Investigation** provides the process, guiding principles and methods for planning and implementing additional archaeological mitigation works proposed to mitigate the adverse effects of the Project.
- **7.10 Outline Cultural Heritage Management Plan** sets out the mitigation measures that are required to ensure the cultural heritage resource, that may be affected by the Project, is protected and managed during construction and during specific maintenance activities carried out during the operational stage of the Project.
- **7.11 Electric and Magnetic Field Compliance Report** assesses the compliance of electric and magnetic fields (EMFs) produced by the Project within the requirements of National Policy Statement for Electricity Networks Infrastructure (EN-5) (Department for Energy Security and Net Zero, 2025).
- **7.12 Water Framework Directive Assessment** provides a summary of Stages 1 and 2 and presents the methodology and conclusions of Stage 3 and 4 of the Water Framework Directive Assessment for the Project.
- **7.13 Flood Risk Assessment** provides a summary of flood risk from all relevant sources to the Project, and an assessment of the predicted impact of the Project on flood risk elsewhere. The document describes how the risk of flooding will be managed and includes the standard mitigation measures proposed.
- **7.14 Arboricultural Impact Assessment** identifies all trees, tree groups and woodlands which have the potential to be affected by the Project and provides an assessment of the impacts resulting from the Project on those arboricultural features.
- **7.15 Transport Assessment** establishes the baseline transport conditions relevant to the Project, identifies the future transport conditions and transport impacts of the Project and illustrates whether mitigation is required for transport issues generated by the Project.
- **7.16 Photomontages** – series of photomontages produced to illustrate the likely appearance of the Project from representative viewpoints across the route.
- **7.17 Strategic Options Report Including Needs Case** explains the need case for the Project, identifies the strategic options considered and details the rationale for selection of the preferred strategic option.
- **7.18 Corridor and Preliminary Routeing and Siting Study** identifies the broad locations for the required infrastructure, focusing on the routeing of new electricity transmission infrastructure, including consideration of alternative corridors and identification of an emerging preferred corridor.
- **7.19 Supplementary Corridor and Routeing Report** identifies a potential alternative corridor between South Wheatley and High Marnham, in addition to those identified in the Corridor and Preliminary Routeing and Siting Study, for routeing the new electricity transmission infrastructure.
- **7.20 Design Development Report - 2025** describes how the Project has evolved since the 2023 non-statutory consultation (undertaken between June and July 2023) and the 2024 localised non-statutory consultation (undertaken between July and August 2024) in response to consultation feedback and further environmental, socio-economic and engineering studies.

- **7.21 Equality Impact Assessment** considers the construction and operation of the Project and other related activities, such as community consultation and engagement, to demonstrate how equality and inclusion principles have been properly considered, and that proposals have given due regard to the needs of all protected characteristic groups. The assessment presents potential equality impacts, informed by baseline data, outcomes of public consultation and the content of the Environmental Statement.
- **7.22 Navigational Risk Assessment** identifies the potential navigational hazards arising during construction of the overhead line, assesses the associated risks, and defines appropriate mitigation measures to ensure that risks are reduced to a level that is as low as reasonably practicable.

Appendix A
Master Document List and Revision History

Table A.1 below provides a full list of application documents submitted to date. The table will be used as a 'living document' during examination, capturing all updates and revisions to the application documents. For ease of reference the documents are grouped by volumes and colour coded accordingly. The Planning Inspectorate reference column in Table A.1 below will not be populated until this document is updated during examination, as these references only become known following submission of the application. All application documents are revision number (A) at submission and will be updated accordingly if revisions are required during the examination. The document numbering has been prepared in accordance with the Planning Inspectorate's Nationally Significant Infrastructure Projects: Advice on the Preparation and Submission of Application Documents, specifically in Annex A, published in August 2024 (Planning Inspectorate, 2026).

Documents not highlighted are the latest version.

Documents greyed out have been superseded.
