NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED)
NORTH HUMBER TO HIGH MARNHAM
NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY CONSULTATION

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 47 of the Planning Act 2008 (as amended) (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").

2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations;
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet;
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby;
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation;
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation;
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation;
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation;
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.

3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.

5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED)
NORTH HUMBER TO HIGH MARNHAM
NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY CONSULTATION

6. Under Section 47 of the Planning Act 2008, National Grid has a duty to consult the community on its proposals. The Statement of Community Consultation explains how National Grid will undertake the consultation, where the consultation documents can be viewed, where public events will be held and how people can comment on the proposals and provide responses to the consultation.

   The consultation will take place between Tuesday 18 February 2025 and Tuesday 15 April 2025.

   Between those dates the Statement of Community Consultation is available to view free of charge on the Project's website at: https://www.nationalgrid.com/electricity-transmission/network-and-infrastructure/infrastructure-projects/north-humber-to-high-marnham

   Reference copies of the Statement of Community Consultation and other consultation materials will also be available to view free of charge from Tuesday 18 February 2025 for the duration of the consultation at the following locations in the vicinity of the Project:

   - Community Newsletter
   - Project Background Document
   - Feedback questionnaire
   - NTS of the PEIR. Requests for paper copies of the technical documents forming the PEIR will be reviewed on a case-by-case basis
   - Statement of Community Consultation

   Requests for paper copies of the technical documents will be reviewed on a case by-case basis. To cover printing costs a reasonable copying charge may apply, to be paid for by the recipient and up-to a maximum value of £500 for the whole suite of consultation documents. Please get in touch with us using the details below if you would like a printed or alternative format copy of materials.

How to respond to the consultation

10. The consultation is running between Tuesday 18 February and Tuesday 15 April 2025
11. Any consultation responses or other representations in respect of the Project during the consultation period can be submitted in writing in the following ways:
    - Completing an online feedback questionnaire at: www.nationalgrid.com/nh-hm
    - Providing feedback by email (contact@nh-hm.nationalgrid.com)
    - Scanning a paper copy of the feedback questionnaire or submitting a letter or written response.
    - Returning a paper copy of the response form or a letter response by post at **Freepost NH TO HM** (no stamp required).
12. In providing their consultation response, consultees should:
    - State in writing the nature of the response or representation;
    - Indicate who is making the response or representation; and
    - Include an address to which correspondence relating to the response can be provided
13. A printed copy of the feedback questionnaire can be requested by contacting the Project team on the details below.
14. The Applicant must receive all responses by 11:59pm on Tuesday 15 April 2025 to ensure their consideration.
15. Please note that responses are likely to be made public, but that contact/personal details will be redacted. When deciding on the final form of the proposed application for a DCO for the proposed project, the Applicant will take into account any response to this publicity or the consultation that is received before the specified deadline.
16. The Applicant may be required to make copies of representations available to the Secretary of State. However, the Applicant will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Project and, except as noted above, will not be disclosed to any third parties.
17. If you have any questions about the Project or the consultation, please get in touch:

Planning

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR
NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 - 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Reference copies of certain documents, showing the nature and location of the proposed development will also be available to view free of charge from Tuesday 18 February 2025 at the following inspection points in the vicinity of the Project for the duration of the consultation (until Tuesday 15 April 2025):

9. Following the start of the statutory consultation, consultees will be able to request paper copies of consultation documents. The documents that will be made available on request, free of charge, will be the:
   - Community Newsletter
   - Project Background Document
   - Feedback questionnaire
   - NTS of the PEIR. Requests for paper copies of the technical documents forming the PEIR will be reviewed on a case-by-case basis
   - Statement of Community Consultation

   Requests for paper copies of the technical documents will be reviewed on a case by-case basis. To cover printing costs a reasonable copying charge may apply, to be paid for by the recipient and up-to a maximum value of £500 for the whole suite of consultation documents. Please get in touch with us using the details below if you would like a printed or alternative format copy of materials.

How to respond to the consultation

10. The consultation is running between Tuesday 18 February and Tuesday 15 April 2025
11. Any consultation responses or other representations in respect of the Project during the consultation period can be submitted in writing in the following ways:
    - Completing an online feedback questionnaire at: www.nationalgrid.com/nh-hm
    - Providing feedback by email (contact@nh-hm.nationalgrid.com)
    - Scanning a paper copy of the feedback questionnaire or submitting a letter or written response.
    - Returning a paper copy of the response form or a letter response by post at **Freepost NH TO HM** (no stamp required).
12. In providing their consultation response, consultees should:
    - State in writing the nature of the response or representation;
    - Indicate who is making the response or representation; and
    - Include an address to which correspondence relating to the response can be provided
13. A printed copy of the feedback questionnaire can be requested by contacting the Project team on the details below.
14. The Applicant must receive all responses by 11:59pm on Tuesday 15 April 2025 to ensure their consideration.
15. Please note that responses are likely to be made public, but that contact/personal details will be redacted. When deciding on the final form of the proposed application for a DCO for the proposed project, the Applicant will take into account any response to this publicity or the consultation that is received before the specified deadline.
16. The Applicant may be required to make copies of representations available to the Secretary of State. However, the Applicant will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Project and, except as noted above, will not be disclosed to any third parties.
17. If you have any questions about the Project or the consultation, please get in touch:
    Email: contact@nh-hm.nationalgrid.com
    Telephone: 0808 189 1346
    Freepost: Freepost NH TO HM (please write this in capitals, you do not need a stamp)

NATIONAL GRID ELECTRICITY TRANSMISSION PLC SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED) NORTH HUMBER TO HIGH MARNHAM NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY CONSULTATION

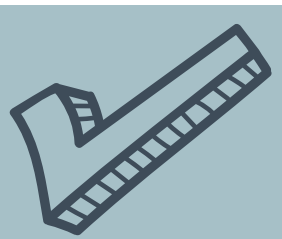

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 - 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 47 of the Planning Act 2008 (as amended) (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations;
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet;
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby;
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation;
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation;
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation;
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation;
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Under Section 47 of the Planning Act 2008, National Grid has a duty to consult the community on its proposals. The Statement of Community Consultation explains how National Grid will undertake the consultation, where the consultation documents can be viewed, where public events will be held and how people can comment on the proposals and provide responses to the consultation.
   The consultation will take place between Tuesday 18 February 2025 and Tuesday 15 April 2025.
   Between those dates the Statement of Community Consultation is available to view free of charge on the Project's website at: https://www.nationalgrid.com/electricity-transmission/network-and-infrastructure/infrastructure-projects/north-humber-to-high-marnham
   Reference copies of the Statement of Community Consultation and other consultation materials will also be available to view free of charge from Tuesday 18 February 2025 for the duration of the consultation at the following locations in the vicinity of the Project:

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR
NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 - 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Reference copies of certain documents, showing the nature and location of the proposed development will also be available to view free of charge from Tuesday 18 February 2025 at the following inspection points in the vicinity of the Project for the duration of the consultation (until Tuesday 15 April 2025):

How to respond to the consultation

10. The consultation is running between Tuesday 18 February and Tuesday 15 April 2025
11. Any consultation responses or other representations in respect of the Project during the consultation period can be submitted in writing in the following ways:
    - Completing an online feedback questionnaire at: www.nationalgrid.com/nh-hm
    - Providing feedback by email (contact@nh-hm.nationalgrid.com)
    - Scanning a paper copy of the feedback questionnaire or submitting a letter or written response.
    - Returning a paper copy of the response form or a letter response by post at **Freepost NH TO HM** (no stamp required).
12. In providing their consultation response, consultees should:
    - State in writing the nature of the response or representation;
    - Indicate who is making the response or representation; and
    - Include an address to which correspondence relating to the response can be provided
13. A printed copy of the feedback questionnaire can be requested by contacting the Project team on the details below.
14. The Applicant must receive all responses by 11:59pm on Tuesday 15 April 2025 to ensure their consideration.
15. Please note that responses are likely to be made public, but that contact/personal details will be redacted. When deciding on the final form of the proposed application for a DCO for the proposed project, the Applicant will take into account any response to this publicity or the consultation that is received before the specified deadline.
16. The Applicant may be required to make copies of representations available to the Secretary of State. However, the Applicant will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Project and, except as noted above, will not be disclosed to any third parties.

   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Under Section 47 of the Planning Act 2008, National Grid has a duty to consult the community on its proposals. The Statement of Community Consultation explains how National Grid will undertake the consultation, where the consultation documents can be viewed, where public events will be held and how people can comment on the proposals and provide responses to the consultation.
   The consultation will take place between Tuesday 18 February 2025 and Tuesday 15 April 2025.

Starmer says UK and Europe facing 'generational change'

PM calls for more defence spending after Trump's talks with Putin

Kit Sandeman
POLITICAL EDITOR

THE UK and Europe are facing a "generational challenge" the Prime Minister said yesterday as he headed to a top-level summit in Paris.

Sir Keir Starmer met with European leaders for emergency talks after Donald Trump sent the continent into a tailspin last week by announcing he had held a 'cordial' 90 minute conversation with Vladimir Putin.

The Paris talks are being held on the eve of initial meetings between senior Russian and American figures in Saudi Arabia which some fear could mean European security being effectively negotiated without the presence of Europeans.

Ukraine has not been invited to the Saudi talks and Ukrainian President Volodymyr Zelensky said yesterday he would not accept the outcome if not involved.

He also said he was travelling to Saudi Arabia this week but that the visit was unrelated to the talks.

Elsewhere, Number 10 yesterday confirmed Sir Keir Starmer will meet with Donald Trump in Washington DC next week, with the subject of Ukraine likely to be among the top talking points.

Last week, Starmer appeared to directly contradict the US President for the first time, saying Ukraine was on an 'irreversible path' to joining Nato, after his American counterpart said this was "out of the question".

Speaking at an event yesterday before leaving for Paris, the Prime Minister said: "We're facing a generational challenge when it comes to national security.

"Obviously, the immediate question is the future of Ukraine, and we must continue to put Ukraine in the strongest possible position whatever happens next, and to make sure that if there is peace, and we all want peace, that it is lasting."

CRISIS MEETING: French President Emmanuel Macron welcomes British Prime Minister Keir Starmer during a meeting at the Elysée Palace in Paris on the situation in Ukraine and security issues in Europe.

Sir Keir said the US wants to achieve "lasting peace" in Ukraine which "aligns precisely" with the UK and EU position.

"I think what the US wants to achieve is lasting peace in Ukraine that aligns precisely with what we want in the United Kingdom, what Ukraine wants and what our European allies want," he said.

The US stance on Ukraine demands for Europe to do more to pay for and provide its own security and increases pressure for greater defence spending across the continent.

Sir Keir said his message to European counterparts would be to "step up" and that it was important to have "realistic and credible answers" for how to make any peace agreement last.

"I think that we need to do more. We need to step up in terms of our collective response in Europe, and by that I mean capability.

"By that, I mean playing our full part when it comes to the defence of the sovereignty of Ukraine if there's a peace agreement, and, of course, when it comes to funding and training.

"So, on all those fronts, I want the UK and all European allies to step up, and for the UK to play a leading part in that."

Sir Keir is unlikely to go beyond his commitment to set out a plan to increase defence spending to a 2.5 per cent share of the economy, despite calls from Mr Trump to hike spending to five per cent and Nato chief Mark Rutte's suggestion allies should spend more than three per cent.

The UK currently spends around 2.3 per cent of gross national product on defence.

Former army chief Lord Richard Dannatt has warned that the UK lacks forces and equipment and that putting boots on the ground in Ukraine would come at a "considerable cost".

The meeting in Paris, called by French President Emmanuel Macron will see Sir Keir joined by leaders from Germany, Italy, Poland, Spain, the Netherlands and Denmark along with the presidents of the European Council and European Commission and the secretary-general of Nato.

Asked how high the stakes will be at the emergency talks, Sir Keir said it was "very important" to try to move forward after three years of conflict.

"We don't know what's going to happen next and we need to have realistic and credible answers to how any ceasefire, how any peace agreement will be lasting, just and enduring, because the last thing I want to see is a pause in the fighting that simply gives Putin the chance to come again, which is why it's very important that we have these discussions."

In a message aimed at encouraging European allies and Mr Trump to commit to deterring a future attack, he confirmed he could deploy the military.

He said the UK was ready to play a "leading role" in Ukraine's defence "by putting our own troops on the ground if necessary".

Morrisons and Asda are bottom of Which? shop survey

YORKSHIRE giants Asda and Morrisons came bottom of the annual Which? supermarket survey, with M&S triumphing for the first time in recent years.

Shoppers praised M&S's quality of products and shopping experience, with the retailer topping the in-store shopping category and is a Which? Recommended Provider (WRP).

Asda and Morrisons both scored 66 per cent and came bottom of the in-store table. They were also the only supermarkets that failed to score more than three stars in any category.

Tesco moved up the rankings – coming second for in-store shopping and joint first for online shopping. But it missed out on WRP status due to the consumer champion's concerns about the accessibility of its Clubcard loyalty scheme.

A total of 3,206 shoppers took part in the survey and rated supermarkets on everything from store appearance and queueing time to delivery.

Several Morrisons customers complained of cramped stores and poorly-manned checkouts in the survey.

Asda scored two stars for everything from value for money and customer service to store appearance and stock availability. However, returning boss Allan Leighton has pledged to "restore Asda's DNA", including by cutting prices. The company has recently made up some ground on rivals in the Which? cheapest supermarket of the month rankings.

For online shopping, Ocado and Tesco (both 79 per cent) tied at the top of the table, but Tesco again missed out on a WRP due to Which?'s concerns over its Clubcard accessibility.

Waitrose (78 per cent) got an excellent online score and several four-star ratings, but as with its in-store experience, many shoppers in our survey baulked at its comparably expensive prices.

Sainsbury's (76 per cent) came third for online, but secured a WRP as shoppers felt it was better value than Waitrose.

Council accused of failing to cost school transport change

NORTH Yorkshire Council chiefs have "not bothered" to fully assess the costs of a controversial change to school transport, it was claimed.

The new policy means children only get free transport to their nearest school, rather than using the previous catchment system.

The change has raised a range of concerns, including children being bussed out of the county, the financial impact on some schools and the splitting up of friendship groups.

Several councillors asked for more details of the likely costs and savings at a meeting on Friday, but were told they would need to wait until next year for a review of the policy for further information.

Conservative councillor Annabel Wilkinson, executive member for education, learning and skills, said there had been a "long and detailed consultation" which gave councillors the chance to seek clarification ahead of members voting on the change in July last year.

She said the policy had a range of variables including parent preference over admissions, school popularity and school place availability and added: "The policy papers presented to the councillors showed a savings range to account for some of these variables and we do expect to make savings in the first few years, and they have been factored into the medium-term financial strategy.

"We have implemented a post-implementation review which we will look at after a year of implementation so the autumn of 2026."

Speaking after the meeting, Councillor Stuart Parsons, who leads the North Yorkshire Independent Group, said councillors had voted on the policy-making savings of up to £4.2m but this had now dropped to less than £3m, with no understanding of what extra costs the policy change would mean.

He said: "All these routes across the Pennines which are currently priority two are going to need to be priority one if children are using them to go to school. But nobody has bothered to find out how much more that is going to cost."

Liberal Democrat councillor Felicity Cunliffe-Lister said that by time of the review, parents will already have been forced to make unwanted changes.

More than a dozen councillors walked out of the council chamber towards the end of the meeting in protest at a decision by the executive to propose an amendment to the council's five-year plan without giving prior notice.

It came after a series of bad-tempered exchanges between councillors, with the executive committee being accused of making personal attacks on members.

Southgate play going on tour later this year

DEAR England, the award-winning play about Gareth Southgate's time as the England football manager, will embark on a nationwide tour later this year.

Written by stage and screen writer James Graham, Dear England had a sell-out run at the National Theatre before it transferred to the West End in 2023, securing best new play at the Olivier Awards last year.

It will now take to the road for a 16-venue tour on September 15, until March 14 2026.

Playwright Graham said he had "frequent sleepless nights" about whether it would translate to stage, but feels it has connected with people as the story is "so moving" and Southgate is "such a compelling character".

Dear England will open at the Theatre Royal Plymouth and the tour includes Sheffield Lyceum, the Leeds Grand Theatre and the Alhambra Theatre in Bradford.

Southgate, who lives in Harrogate, ended an eight-year stint as the national team boss in 2024.

England will not lack motivation against rivals Scotland, says Earl

SPORTS POST

RUGBY UNION

Ed Elliot
SPORTS REPORTER

BEN Earl revealed the agony of re-watching recent Calcutta Cup failures has left England gunning for redemption as he admitted Scotland's last visit to Twickenham caused him to question his suitability for international rugby.

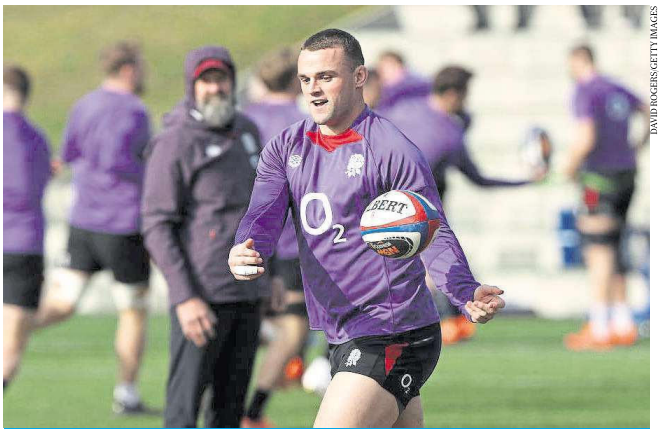

Gregor Townsend's team are chasing a record-breaking fifth consecutive win over their fierce rivals during Saturday's pivotal Guinness Six Nations showdown at Allianz Stadium.

Part of England's preparation to end Scottish domination stretching back to 2021 has involved analysing painful footage of their two defeats in the fixture during the reign of head coach Steve Borthwick.

Back-row forward Earl came off the bench in the first of those matches – a 29-23 loss in south-west London at the start of the Borthwick era – before being dropped for the remainder of the 2023 championship following a round-two cameo against Italy.

"It certainly feels like a big week in terms of this is a team that's got the wood over us at the moment," he said.

"This is a team that we've not had a huge amount of joy against, certainly for a good chunk of time. It's got a big-game feel to it and that more times than not has brought the best out of us.

DAVID ROGERS/GETTY IMAGES

'BIG-GAME FEEL': England's Ben Earl off loads the ball during a training session held at Pennyhill Park ahead of this weekend's Six Nations clash with Scotland.

"We've watched the last two games we've played (against Scotland); that's almost unidentifiable in terms of what we've been as a team when we've been at our best over the last couple of years since Steve's come in.

"We've watched some of that back, we've learnt some lessons. We're not going to be short of motivation, that's for sure."

Having initially been jettisoned by Borthwick, Earl returned from a period of soul searching to become a key cog in the England side which finished third at the 2023 Rugby World Cup in France and then remain a regular. The 27-year-old Saracens player, who started last year's 30–21 loss at Murrayfield, feels a shift in mindset was central to his revival at Test level.

"I distinctly remember 2023 Scotland at home was a big turning point for me in terms of I had to learn a really harsh lesson," said Earl.

"That was a time where the penny really dropped: that I was unfit, that I didn't know what it takes to become a top-class international rugby player, I didn't know what it took to play under Steve. All of that, really.

"It's not necessarily unfit in terms of physiologically. It's like, 'I'm shattered, can I keep going?' is a different mindset to 'I'm shattered, I think I've emptied myself and got nothing left'. You've always got more.

"Steve's a big believer in the backrowers being the ones who run the furthest, work the hardest. You always think that until you get thrown into the Colosseum. It certainly felt that was a day for me that I learnt the most."

Following defeat to reigning champions Ireland on the opening weekend, England catapulted themselves back into title contention courtesy of a last-gasp 26-25 win over France on February 8.

Flanker Tom Curry trained on Monday as he manages a chronic hip condition, while lock George Martin, who is nursing a knee injury, took part in a modified session.

Curry believes the thrilling defeat of Les Bleus has created intense competition in the camp.

"Obviously the first 48 hours (after a win) are really good but the main thing is even last week's training and today's training are edgy as in people are pushing," said the 26-year-old.

"It's not comfortable. I have won big games and sometimes you come back in and the first session everyone is on their heels a bit. But everyone is on their toes.

"It doesn't mean everything is going right but it means people are pushing and that's a really good feeling when it is not perfect, there is stuff to work on, but you know the attitude is right."

Ross McCann, Ali Price and Cameron Redpath have been called up by Scotland.

Matt Currie drops out after being concussed during Edinburgh's match against Zebre on Friday night, while Alexander Masibaka has returned to his club Soyaux Angouleme.

George Horne sustained a facial injury during Glasgow's victory against Dragons on Sunday and he is yet to join the squad in Spain, where Gregor Townsend's squad are in a warm-weather training camp, while he is assessed by medics at his club.

Masibaka was called up ahead of the Italy match but has not joined the squad in Spain.

'It's my last year on the peloton' – Thomas

CYCLING

Rebecca Johnson
SPORTS REPORTER

TOUR de France winner and double Olympic champion Geraint Thomas will retire from cycling this year.

The 38-year-old announced on Monday morning he will be bringing the curtain down on a successful 19-year professional career, with British Cycling saying September's Tour of Britain will be his final race.

Thomas claimed Olympic team pursuit gold on the track at both Beijing 2008 and London 2012 before going on to win the Tour de France in 2018, becoming the third Briton and only Welshman to win road cycling's biggest race.

In 2023, he signed a new two-year deal with Ineos Grenadiers, which he expected would be his last. And in a post on X, Thomas said: "Thought it was time we made it official. Yes, this will be my last year in the peloton.

"It's not been a bad run eh? Never in my wildest dreams did I imagine being a pro for 19 years. There'll be lots of time to reflect but, before then, I've got some big races to prep for."

Thomas added to BBC Breakfast: "Since I was a kid I dreamt of riding the Tour and being part of the Olympics and winning was obviously a dream as well, but to achieve that was just nuts.

"Beijing was massive, my first Olympics and winning gold there. But the Tour's what changed my life, being recognised all over the place. So to be a part of that history and to win it, I just pinch myself."

PLANNING NOTICES

NATIONAL GRID ELECTRICITY TRANSMISSION PLC SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED)
NORTH HUMBER TO HIGH MARNHAM
NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY CONSULTATION

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 47 of the Planning Act 2008 (as amended) (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project")
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations;
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet;
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby;
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation;
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation;
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation;
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation;
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Under Section 47 of the Planning Act 2008, National Grid has a duty to consult the community on its proposals. The Statement of Community Consultation explains how National Grid will undertake the consultation, where the consultation documents can be viewed, where public events will be held and how people can comment on the proposals and provide responses to the consultation.

The consultation will take place between Tuesday 18 February 2025 and Tuesday 15 April 2025.

SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)_
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR
NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").

2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:

   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.

3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.

5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR
NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 - 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Reference copies of certain documents, showing the nature and location of the proposed development will also be available to view free of charge from Tuesday 18 February 2025 at the following inspection points in the vicinity of the Project for the duration of the consultation (until Tuesday 15 April 2025):

Starmer says UK and Europe facing 'generational change'

PM calls for more defence spending after Trump's talks with Putin

Kit Sandeman
POLITICAL EDITOR

THE UK and Europe are facing a "generational challenge" the Prime Minister said yesterday as he headed to a top-level summit in Paris.

Sir Keir Starmer met with European leaders for emergency talks after Donald Trump sent the continent into a tailspin last week by announcing he had held a 'cordial' 90 minute conversation with Vladimir Putin.

The Paris talks are being held on the eve of initial meetings between senior Russian and American figures in Saudi Arabia which some fear could mean European security being effectively negotiated without the presence of Europeans.

Ukraine has not been invited to the Saudi talks and Ukrainian President Volodymyr Zelensky said yesterday he would not accept the outcome if not involved.

He also said he was travelling to Saudi Arabia this week but that the visit was unrelated to the talks.

Elsewhere, Number 10 yesterday confirmed Sir Keir Starmer will meet with Donald Trump in Washington DC next week, with the subject of Ukraine likely to be among the top talking points.

Last week, Starmer appeared to directly contradict the US President for the first time, saying Ukraine was on an 'irreversible path' to joining Nato, after his American counterpart said this was "out of the question".

Speaking at an event yesterday before leaving for Paris, the Prime Minister said: "We're facing a generational challenge when it comes to national security.

"Obviously, the immediate question is the future of Ukraine, and we must continue to put Ukraine in the strongest possible position whatever happens next, and to make sure that if there is peace, and we all want peace, that it is lasting."

CRISIS MEETING: French President Emmanuel Macron welcomes British Prime Minister Keir Starmer during a meeting at the Elysée Palace in Paris on the situation in Ukraine and security issues in Europe.

Sir Keir said the US wants to achieve "lasting peace" in Ukraine which "aligns precisely" with the UK and EU position.

"I think what the US wants to achieve is lasting peace in Ukraine that aligns precisely with what we want in the United Kingdom, what Ukraine wants and what our European allies want," he said.

The US stance on Ukraine demands for Europe to do more to pay for and provide its own security and increases pressure for greater defence spending across the continent.

Sir Keir said his message to European counterparts would be to "step up" and that it was important to have "realistic and credible answers" for how to make any peace agreement last.

"I think that we need to do more. We need to step up in terms of our collective response in Europe, and by that I mean capability.

"By that, I mean playing our full part when it comes to the defence of the sovereignty of Ukraine if there's a peace agreement, and, of course, when it comes to funding and training.

"So, on all those fronts, I want the UK and all European allies to step up, and for the UK to play a leading part in that."

Sir Keir is unlikely to go beyond his commitment to set out a plan to increase defence spending to a 2.5 per cent share of the economy, despite calls from Mr Trump to hike spending to five per cent and Nato chief Mark Rutte's suggestion allies should spend more than three per cent.

The UK currently spends around 2.3 per cent of gross national product on defence.

Former army chief Lord Richard Dannatt has warned that the UK lacks forces and equipment and that putting boots on the ground in Ukraine would come at a "considerable cost".

The meeting in Paris, called by French President Emmanuel Macron will see Sir Keir joined by leaders from Germany, Italy, Poland, Spain, the Netherlands and Denmark along with the presidents of the European Council and European Commission and the secretary-general of Nato.

Asked how high the stakes will be at the emergency talks, Sir Keir said it was "very important" to try to move forward after three years of conflict.

"We don't know what's going to happen next and we need to have realistic and credible answers to how any ceasefire, how any peace agreement will be lasting, just and enduring, because the last thing I want to see is a pause in the fighting that simply gives Putin the chance to come again, which is why it's very important that we have these discussions."

In a message aimed at encouraging European allies and Mr Trump to commit to deterring a future attack, he confirmed he could deploy the military.

He said the UK was ready to play a "leading role" in Ukraine's defence "by putting our own troops on the ground if necessary".

Morrisons and Asda are bottom of Which? shop survey

YORKSHIRE giants Asda and Morrisons came bottom of the annual Which? supermarket survey, with M&S triumphing for the first time in recent years.

Shoppers praised M&S's quality of products and shopping experience, with the retailer topping the in-store shopping category and is a Which? Recommended Provider (WRP).

Asda and Morrisons both scored 66 per cent and came bottom of the in-store table. They were also the only supermarkets that failed to score more than three stars in any category.

Tesco moved up the rankings – coming second for in-store shopping and joint first for online shopping. But it missed out on WRP status due to the consumer champion's concerns about the accessibility of its Clubcard loyalty scheme.

A total of 3,206 shoppers took part in the survey and rated supermarkets on everything from store appearance and queueing time to delivery.

Several Morrisons customers complained of cramped stores and poorly-manned checkouts in the survey.

Asda scored two stars for everything from value for money and customer service to store appearance and stock availability. However, returning boss Allan Leighton has pledged to "restore Asda's DNA", including by cutting prices. The company has recently made up some ground on rivals in the Which? cheapest supermarket of the month rankings.

For online shopping, Ocado and Tesco (both 79 per cent) tied at the top of the table, but Tesco again missed out on a WRP due to Which?'s concerns over its Clubcard accessibility.

Waitrose (78 per cent) got an excellent online score and several four-star ratings, but as with its in-store experience, many shoppers in our survey baulked at its comparably expensive prices.

Sainsbury's (76 per cent) came third for online, but secured a WRP as shoppers felt it was better value than Waitrose.

Council accused of failing to cost school transport change

NORTH Yorkshire Council chiefs have "not bothered" to fully assess the costs of a controversial change to school transport, it was claimed.

The new policy means children only get free transport to their nearest school, rather than using the previous catchment system.

The change has raised a range of concerns, including children being bussed out of the county, the financial impact on some schools and the splitting up of friendship groups.

Several councillors asked for more details of the likely costs and savings at a meeting on Friday, but were told they would need to wait until next year for a review of the policy for further information.

Conservative councillor Annabel Wilkinson, executive member for education, learning and skills, said there had been a "long and detailed consultation" which gave councillors the chance to seek clarification ahead of members voting on the change in July last year.

She said the policy had a range of variables including parent preference over admissions, school popularity and school place availability and added: "The policy papers presented to the councillors showed a savings range to account for some of these variables and we do expect to make savings in the first few years, and they have been factored into the medium-term financial strategy.

"We have implemented a post-implementation review which we will look at after a year of implementation so the autumn of 2026."

Speaking after the meeting, Councillor Stuart Parsons, who leads the North Yorkshire Independent Group, said councillors had voted on the policy-making savings of up to £4.2m but this had now dropped to less than £3m, with no understanding of what extra costs the policy change would mean.

He said: "All these routes across the Pennines which are currently priority two are going to need to be priority one if children are using them to go to school. But nobody has bothered to find out how much more that is going to cost."

Liberal Democrat councillor Felicity Cunliffe-Lister said that by time of the review, parents will already have been forced to make unwanted changes.

More than a dozen councillors walked out of the council chamber towards the end of the meeting in protest at a decision by the executive to propose an amendment to the council's five-year plan without giving prior notice.

It came after a series of bad-tempered exchanges between councillors, with the executive committee being accused of making personal attacks on members.

Southgate play going on tour later this year

DEAR England, the award-winning play about Gareth Southgate's time as the England football manager, will embark on a nationwide tour later this year.

Written by stage and screen writer James Graham, Dear England had a sell-out run at the National Theatre before it transferred to the West End in 2023, securing best new play at the Olivier Awards last year.

It will now take to the road for a 16-venue tour on September 15, until March 14 2026.

Playwright Graham said he had "frequent sleepless nights" about whether it would translate to stage, but feels it has connected with people as the story is "so moving" and Southgate is "such a compelling character".

Dear England will open at the Theatre Royal Plymouth and the tour includes Sheffield Lyceum, the Leeds Grand Theatre and the Alhambra Theatre in Bradford.

Southgate, who lives in Harrogate, ended an eight-year stint as the national team boss in 2024.

PLANNING NOTICES

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("km") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("km") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Reference copies of certain documents, showing the nature and location of the proposed development will also be available to view free of charge from Tuesday 18 February 2025 at the following inspection points in the vicinity of the Project for the duration of the consultation (until Tuesday 15 April 2025):

Please get in touch with us using the details below if you would like a printed or alternative format copy of materials.

How to respond to the consultation

10. The consultation is running between Tuesday 18 February and Tuesday 15 April 2025
11. Any consultation responses or other representations in respect of the Project during the consultation period can be submitted in writing in the following ways:
    - Completing an online feedback questionnaire at: www.nationalgrid.com/nh-hm
    - Providing feedback by email (contact@nh-hm.nationalgrid.com)
    - Scanning a paper copy of the feedback questionnaire or submitting a letter or written response.
    - Returning a paper copy of the response form or a letter response by post at **Freepost NH TO HM** (no stamp required).
12. In providing their consultation response, consultees should:
    - State in writing the nature of the response or representation;
    - Indicate who is making the response or representation; and
    - Include an address to which correspondence relating to the response can be provided
13. A printed copy of the feedback questionnaire can be requested by contacting the Project team on the details below.
14. The Applicant must receive all responses by 11:59pm on Tuesday 15 April 2025 to ensure their consideration.
15. Please note that responses are likely to be made public, but that contact/personal details will be redacted. When deciding on the final form of the proposed application for a DCO for the proposed project, the Applicant will take into account any response to this publicity or the consultation that is received before the specified deadline.
16. The Applicant may be required to make copies of representations available to the Secretary of State. However, the Applicant will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Project and, except as noted above, will not be disclosed to any third parties.
17. If you have any questions about the Project or the consultation, please get in touch:

NATIONAL GRID ELECTRICITY TRANSMISSION PLC SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED) NORTH HUMBER TO HIGH MARNHAM NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY CONSULTATION

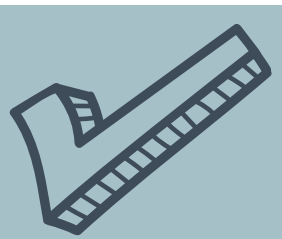

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 - 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 47 of the Planning Act 2008 (as amended) (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations;
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet;
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby;
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation;
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation;
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation;
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation;
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Under Section 47 of the Planning Act 2008, National Grid has a duty to consult the community on its proposals. The Statement of Community Consultation explains how National Grid will undertake the consultation, where the consultation documents can be viewed, where public events will be held and how people can comment on the proposals and provide responses to the consultation.
   The consultation will take place between Tuesday 18 February 2025 and Tuesday 15 April 2025.
   Between those dates the Statement of Community Consultation is available to view free of charge on the Project's website at: https://www.nationalgrid.com/electricity-transmission/network-and-infrastructure/infrastructure-projects/north-humber-to-high-marnham
   Reference copies of the Statement of Community Consultation and other consultation materials will also be available to view free of charge from Tuesday 18 February 2025 for the duration of the consultation at the following locations in the vicinity of the Project:

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR
NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 - 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.

(PROHIBITION OF WAITING) AMENDMENT ORDER 20

NOTICE IS HEREBY GIVEN that the Lincolnshire County Council propose to make an Order under their powers contained in the Road Traffic Regulation Act 1984, the effect of which will be to introduce no waiting at any time on the junction of Abbottsford Way and Hykeham Road.
Exemptions are included which will permit waiting for disabled persons' vehicles and for the purpose of picking up or setting down passengers, loading or unloading of goods, the maintenance of the roads, and works in connection with the supply of gas, electricity, water and telecommunications apparatus.
A copy of the plan showing the lengths of road concerned along with a Statement of Reasons for proposing to make the Order may be inspected on our website: www.lincolnshire.gov.uk/trafficorders
If you are unable to view our website the documents can be supplied to you by contacting us using the contact details below or calling our Customer Service Centre on 01522 782070 during office hours.
You may also be able to view these documents at the offices of Lincoln City Council, during normal office hours.
Objections or representations to the proposals, together with the grounds on which they are made, must be made in writing to **Chief Executive – Lincolnshire County Council, Lancaster House, 36 Orchard Street, Lincoln, LN1 1XX or Email: TRO@lincolnshire.gov.uk** (For the attention of: Mr N Brumby Traffic Orders Section) by **27th March 2025**

LINCOLNSHIRE COUNTY COUNCIL

(LINCOLN HIGH STREET)
(PROHIBITION OF WAITING) AMENDMENT ORDER 2025

NOTICE IS HEREBY GIVEN that the Lincolnshire County Council has made an Order under their powers contained in the Road Traffic Regulation Act 1984, the effect of which will be to change the existing waiting and loading restrictions on the west side of High Street, Lincoln between Alfred Street and St Marks Street. A 24-hour bus lane will also be established between Tanners Lane and the existing bus stop in the vicinity of Firth Road/Station Street. The Order will come into operation on **3rd March 2025** and a copy of the Order and a plan showing the lengths of road concerned with a Statement of Reasons can be requested. These documents can be supplied to you by emailing TRO@lincolnshire.gov.uk or calling our Customer Service Centre on 01522 782070 during office hours. You may also be able to view these documents at the offices of Lincoln City Council, during normal office hours.
Any person who desires to question the validity of the Order or of any provision contained therein on the grounds that it is not within the powers conferred by the Road Traffic Regulation Act 1984, or on the grounds that any requirement of the Act or of any instrument made under it has not been complied with in relation to the Order may within 6 weeks after 24th February 2025 make application to the High Court for this purpose.

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR
NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 - 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Reference copies of certain documents, showing the nature and location of the proposed development will also be available to view free of charge from Tuesday 18 February 2025 at the following inspection points in the vicinity of the Project for the duration of the consultation (until Tuesday 15 April 2025):

9. Following the start of the statutory consultation, consultees will be able to request paper copies of consultation documents. The documents that will be made available on request, free of charge, will be the:
   - Community Newsletter
   - Project Background Document
   - Feedback questionnaire
   - NTS of the PEIR. Requests for paper copies of the technical documents forming the PEIR will be reviewed on a case-by-case basis
   - Statement of Community Consultation

   Requests for paper copies of the technical documents will be reviewed on a case by-case basis. To cover printing costs a reasonable copying charge may apply, to be paid for by the recipient and up-to a maximum value of £500 for the whole suite of consultation documents. Please get in touch with us using the details below if you would like a printed or alternative format copy of materials.

How to respond to the consultation

10. The consultation is running between Tuesday 18 February and Tuesday 15 April 2025
11. Any consultation responses or other representations in respect of the Project during the consultation period can be submitted in writing in the following ways:
    - Completing an online feedback questionnaire at: www.nationalgrid.com/nh-hm
    - Providing feedback by email (contact@nh-hm.nationalgrid.com)
    - Scanning a paper copy of the feedback questionnaire or submitting a letter or written response.
    - Returning a paper copy of the response form or a letter response by post at **Freepost NH TO HM** (no stamp required).
12. In providing their consultation response, consultees should:
    - State in writing the nature of the response or representation;
    - Indicate who is making the response or representation; and
    - Include an address to which correspondence relating to the response can be provided
13. A printed copy of the feedback questionnaire can be requested by contacting the Project team on the details below.
14. The Applicant must receive all responses by 11:59pm on Tuesday 15 April 2025 to ensure their consideration.
15. Please note that responses are likely to be made public, but that contact/personal details will be redacted. When deciding on the final form of the proposed application for a DCO for the proposed project, the Applicant will take into account any response to this publicity or the consultation that is received before the specified deadline.
16. The Applicant may be required to make copies of representations available to the Secretary of State. However, the Applicant will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Project and, except as noted above, will not be disclosed to any third parties.
17. If you have any questions about the Project or the consultation, please get in touch:
    Email: contact@nh-hm.nationalgrid.com
    Telephone: 0808 189 1346

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR
NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 - 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Reference copies of certain documents, showing the nature and location of the proposed development will also be available to view free of charge from Tuesday 18 February 2025 at the following inspection points in the vicinity of the Project for the duration of the consultation (until Tuesday 15 April 2025):

Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the *North Humber to High Marnham Project* (the "Project").

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").
2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:
   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.
3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.
4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.
5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.
6. Reference copies of certain documents, showing the nature and location of the proposed development will also be available to view free of charge from Tuesday 18 February 2025 at the following inspection points in the vicinity of the Project for the duration of the consultation (until Tuesday 15 April 2025):

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR NORTH HUMBER TO HIGH MARNHAM

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").

2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:

• Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
• Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
• Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
• A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
• Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
• A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
• Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
• The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.

3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.

5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025 on www.nationalgrid.com/nh-hm.

6. Reference copies of certain documents, showing the nature and location of the proposed development will also be available to view free of charge from Tuesday 18 February 2025 at the following inspection points in the vicinity of the Project for the duration of the consultation (until Tuesday 15 April 2025):

• Statement of Community Consultation
Requests for paper copies of the technical documents will be reviewed on a case by-case basis. To cover printing costs a reasonable copying charge may apply, to be paid for by the recipient and up-to a maximum value of £500 for the whole suite of consultation documents. Please get in touch with us using the details below if you would like a printed or alternative format copy of materials.

How to respond to the consultation

10. The consultation is running between Tuesday 18 February and Tuesday 15 April 2025
11. Any consultation responses or other representations in respect of the Project during the consultation period can be submitted in writing in the following ways:
• Completing an online feedback questionnaire at: www.nationalgrid.com/nh-hm
• Providing feedback by email (contact@nh-hm.nationalgrid.com)
• Scanning a paper copy of the feedback questionnaire or submitting a letter or written response.
• Returning a paper copy of the response form or a letter response by post at **Freepost NH TO HM** (no stamp required).
12. In providing their consultation response, consultees should:
• State in writing the nature of the response or representation;
• Indicate who is making the response or representation; and
• Include an address to which correspondence relating to the response can be provided
13. A printed copy of the feedback questionnaire can be requested by contacting the Project team on the details below.
14. The Applicant must receive all responses by 11:59pm on Tuesday 15 April 2025 to ensure their consideration.
15. Please note that responses are likely to be made public, but that contact/personal details will be redacted. When deciding on the final form of the proposed application for a DCO for the proposed project, the Applicant will take into account any response to this publicity or the consultation that is received before the specified deadline.
16. The Applicant may be required to make copies of representations available to the Secretary of State. However, the Applicant will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Project and, except as noted above, will not be disclosed to any third parties.
17. If you have any questions about the Project or the consultation, please get in touch:
Email: contact@nh-hm.nationalgrid.com
Telephone: 0808 189 1346
