# 1. Land and Rights Negotiation Tracker Introduction

## 1.1 Overview

1.1.1 This document provides an explanatory preface to the Land Rights and Negotiations Tracker (LRNT) for the North Humber to High Marnham project. Its primary purpose is to assist the Examining Authority and other external stakeholders in understanding how the LRNT should be read, interpreted, and relied upon during Examination. It explains the Applicant's land rights and engagement framework, including the identification and categorisation of Persons with an Interest in Land (PILs), the purpose and appropriate use of Heads of Terms, and the rationale for differing engagement and negotiation approaches across Categories 1, 2, and 3.

1.1.2 This document does not seek to repeat the content of Application Document 4.1 Statement of Reasons. Section 5 of the Statement of Reasons sets out the land rights being sought by the Project, while the LRNT identifies the rights sought over each plot in column C. Section 6 of the Statement of Reasons explains the Project's approach to voluntary acquisition. The purpose of the LRNT is therefore to show how negotiations are progressing in accordance with that approach, including any key issues under discussion between the parties in column U.

1.1.3 Statutory Undertakers (SU) are included in LRNT, column R confirms whether a PIL is a SU. The LRNT provides an overview of voluntary negotiations where they have a freehold interest as well as a summary of negotiations and progress made towards agreeing a form of protective provisions (PPs) to be included in the Development Consent Order (DCO). Additionally, column T identifies where a side agreement is being negotiated in addition to PPs.

1.1.4 Column P on the LRT identifies whether the interest is a Crown interest. The Applicant is continuing to engage with Crown Authorities to confirm the requirements for Crown consent pursuant to Section 135 of the Planning Act 2008 and whether any additional voluntary agreements may be required.

1.1.5 Whilst Heads of Terms (HoTs) are recognised as a precursor to rights in land being legally secured through Option Agreements and ultimately deeds, the current stage of negotiations means that a key focus of the document is to clarify why Heads of Terms (HoTs) are issued to some PILs and not others.

1.1.6 Overall, the document provides context, justification, and assurance that the LRNT is applied consistently, proportionately, and in accordance with established compulsory acquisition practices for nationally significant infrastructure projects.

# 2. Category 1 Persons with an Interest in Land

2.1.1 Category 1 PILs are defined in **Application Document 4.1 Statement of Reasons**. Save for those parties noted in following paragraphs, the Applicant has issued populated HoTs in advance of the DCO application to all Category 1 interests from whom the Applicant is proposing to acquire land or rights in land. These PILs can be seen in tab 1 of the LRNT.

2.1.2 It is important to note that while Category 1 PILs generally possess a qualifying legal interest, there may be occasions where the recorded interest does not correspond to the rights the Applicant requires, such as cases involving split titles or superior interests. In these instances, negotiations are advanced only with the interest able to grant the necessary rights, ensuring that HoTs are issued to the appropriate interest holder and avoiding duplication or confusion. In this case, the Applicant has relied upon the relationships between landlords, lessees, tenants and occupiers to ensure proper consent is secured through a single voluntary agreement with the freehold interest. HoTs have therefore not been issued to Category 1 PILs who are occupiers, the Applicant will amend their approach to this method if it is deemed necessary through detailed negotiations with freehold interests.

2.1.3 The LRNT does not include negotiations with Category 1 PILs where their property is solely affected by third-party diversion works. These voluntary rights are being sought by the relevant Distribution Network Operator (DNO).

2.1.4 Where a Category 1 PIL has been identified as having an interest in respect of the subsoil only, beneath a publicly adopted highway, these plots have not been included as no voluntary land rights are being sought. However, engagement continues with both these interests and with the relevant highway authority.

2.1.5 Where a Category 1 PIL is identified as having a freehold interest in land where the Applicant is solely seeking temporary possession of land no HoTs are being negotiated.

The agent did not attend.<br>15/07/2026 - National Grid's agent (Dalcour Maclaren) has not yet commenced discussions with the landowner in respect of the Heads of Terms. Engagement is anticipated to commence in the coming weeks. As part of this process, the landowner's agent has been invited to attend a collaborative engagement day with National Grid's agent on 29 July 2026 to discuss the Heads of Terms and the proposed land rights requirements.<br>27/03/2026 – National Grid's agent (Dalcour Maclaren) hosted an interactive collaboration meeting on 27 March 2026 to discuss, on a generic basis, the template terms and rights being sought. During the meeting, Dalcour Maclaren presented the proposed approach, and the agents took away the template Heads of Terms for consideration. The landowner's agent was in attendance. | Heads of Terms negotiations ongoing | | 04/09/2026 |
| A8-071 | | Compulsory Acquisition of Rights: Access | 3018716 | Yorkshire Water Services Limited (Company No. 02366682) | Leaseholder | Category 1 | Agent not known | SU rights in land | Not required | Not required | 24/07/2026 - Leaseholder of Eileen Rosemary Harrison-Topham and Nancy Marian Jarratt (PIL ref 3020345 & 3019422). If the occupier is required to be party to a voluntary agreement they will be included following conversations with the freeholder. If an agreement is required, National Grid's agent (Dalcour Maclaren) will issue a relevant agreement. | Heads of Terms negotiations not commenced | | 24/07/2026 |

1. *All interests which are not already acquired at the point of submission should be entered in this tracker and marked as complete (column 'w') when agreement with known interests is reached.*
2. *Any non-agreement is also counted as an objection by an affected person(s) for the purpose of this tracker.*

# 3. Category 2 Persons with an Interest in Land

3.1.1 Category 2 PILs are defined in **Application Document 4.1 Statement of Reasons** and comprise persons who have an interest in land or a power to sell, convey or release land, but whose interest would not ordinarily necessitate the negotiation of a separate voluntary land agreement. These PILs can be seen in tab 2 of the LRNT.

3.1.2 While Category 2 PILs are identified and consulted in accordance with the statutory requirements and relevant guidance, they do not typically receive populated Heads of Terms (HoTs). This is because the land rights required for the Project are secured through engagement with the relevant Category 1 interest holder in that plot. Where applicable, compensation may be available under the statutory compensation code for loss or disturbance arising from the exercise of compulsory acquisition powers, rather than through negotiated contractual agreements.

3.1.3 This approach reflects the Planning Act 2008 guidance related to procedures for the compulsory acquisition of land and does not change the consultation requirements and contact made with Category 2 PILs.

3.1.4 The Applicant's direct engagement and negotiation is focused on the interest holder capable of granting the rights required for the Project. This approach ensures that consents are sought by the party best placed to do so and avoids unnecessary duplication of engagement. However, while negotiations are conducted with the relevant interest holder, the Applicant has consulted, and will continue to consult, all affected parties, including occupiers, throughout the development of the Project. This ensures that those with an interest in, or who may be affected by, the Project are kept informed and have ongoing opportunities to provide feedback and raise any concerns.

3.1.5 Should HoTs be required with Category 2 PILs in due course the LRNT will be updated accordingly.

*1. All interests which are not already acquired at the point of submission should be entered in this tracker and marked as complete (column 'w') when agreement with known interests is reached*
*2. Any non-agreement is also counted as an objection by an affected person(s) for the purpose of this tracker*

# 4. Category 3 Persons with an Interest in Land

4.1.1 Category 3 PILs are defined in **Application Document 4.1 Statement of Reasons**. Where a PIL's interest lies outside the Order Limits, these interests may be included within Part 2 of the Book of Reference (BoR) as potentially entitled to make a relevant claim. This reflects the fact that any such potential claim could arise from works associated with any of the land plots within the relevant section that are in proximity to that interest. There is no requirement on the Applicant to make any assumptions of where a potential claim may arise by reference to the plot numbers.

4.1.2 Heads of Terms are not issued to Category 3 PILs, as the project is not seeking to acquire land or land rights from these parties. Where no land transaction is required, there is no legal or commercial basis for issuing Heads of Terms or entering into compensation negotiations.

4.1.3 Where a Category 3 PIL additionally has an interest within the Order Limits (and therefore within a defined plot), that interest is included again in Category 1 or Category 2 in the BoR within the relevant plot identified and included in the LRNT where relevant.

4.1.4 Category 3 PILs are kept under regular review throughout the development of the Project. Should changes occur in design, construction methodology, or access requirements, additional Category 3 PILs may be added (or removed) or an existing Category 3 PIL recategorised. Where recategorisation is necessary, the engagement approach is adjusted accordingly, which may then include the issue of HoTs.

# Abbreviations

| Abbreviation | Full Reference |
|---|---|
| BoR | Book of Reference |
| DCO | Development Consent Order |
| HoTs | Heads of Terms |
| LRNT | Land Rights and Negotiations Tracker |
| PIL | Person with an Interest in Land |
| PPs | Protective Provisions |
| SU | Statutory Undertaker |
| TCC | Temporary Construction Compound |
