Table F.8 – Interests that were consulted on w/c 10 August 2026 under Section 42(1)(d) of PA 2008 as part of newly identified PILs F-95

F.1 S42(1)(d) Consultees – Initial mailout, newly identified PILs and Targeted PILs consultations

F.1.1 This appendix provides a list of those consulted on the Scheme under Section 42(1)(d) and Section 44 of PA 2008 between February 2025 and August 2026.

F.1.2 Under Section 44, Persons with an Interest in Land (PILs) are split into three categories:

- Category 1: Where the applicant, after making diligent inquiry, knows that the person is an owner, lessee, tenant (whatever the tenancy period) or occupier of the land.
- Category 2: Where the applicant, after making diligent inquiry, knows that the person is interested in the land, or has power to sell and convey the land, or to release the land.
- Category 3: Where the applicant thinks that, if the order sought by the proposed application were to be made and fully implemented, the person would or might be entitled to make a relevant claim:
  - As a result of the implementing of the order;
  - As a result of the order having been implemented; or
  - As a result of use of the land once the order has been implemented.

F.1.3 National Grid also identified PILs that had the potential to be defined as Statutory Undertakers. Statutory Undertakers are defined in Section 127(8) of the Planning Act 2008 by reference to Section 8 in the Acquisition of Land Act 1981.

F.1.4 Each table includes the category of the interest (for the purposes of Section 44) and the dates between which the interest was consulted.

Table F.1 – Interests that were consulted on w/c 17 February 2025 under Section 42(1)(d) of PA 2008

Dear Sir/Madam

NORTH HUMBER TO HIGH MARNHAM PROJECT: STATUTORY CONSULTATION ON A PROPOSED APPLICATION FOR DEVELOPMENT CONSENT

SECTION 42, SECTION 44 and SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 13 INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT) REGULATIONS 2017

National Grid Electricity Transmission plc has today launched a statutory consultation in accordance with sections 42 and 47 of the Planning Act 2008 (the "Act") for the North Humber to High Marnham Project (the "Project").

Every year National Grid ESO (Electricity System Operator for Great Britain) identifies a range of Future Energy Scenarios which represent different credible scenarios for how quickly we might make the transition to a cleaner greener energy future as we strive towards net zero by 2050. The Future Energy Scenarios inform the analysis in the Electricity Ten Year Statement, which sets out National Grid ESO's view of future transmission requirements and where the capability of the transmission network might need to be addressed over the next decade. NATIONAL GRID, the Transmission Owner for England and Wales NATIONAL GRID, then responds with solutions to address the requirements identified in the Electricity Ten Year Statement. National Grid ESO assesses and publishes its recommendations as to which proposals should proceed in a Network Options Assessment report (NOA) each year.

With growing offshore wind and interconnectors, an anticipated tripling of wind generation connected across the Scottish networks by 2030 and Government's increased ambition to connect 50 GW of offshore wind by 2030, north-south power flows are set to increase. National Grid ESO in the Electricity Ten Year Statement anticipate that the network between the North and Midlands needs to transfer as much as 29 GW of electricity by 2033, compared to 11.6 GW that it can transfer today while remaining compliant with the standards the network is operated to.

The System Operator has identified the North Humber to High Marnham project and other reinforcements in the latest Network Options Assessment (NOA) as 'HND essential' to deliver the Pathway to 2030 Holistic Network Design (HND)- connecting offshore wind needed to meet the Government's 2030 target. The System Operator also advises in NOA that the reinforcement needs to be accelerated to help meet Government's 2030 offshore wind target.

North Humber to High Marnham (the "Project") is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometres ("km") in overall length between two proposed new

[redacted]

substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:

- Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
- Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
- Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
- A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
- Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
- A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
- Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.

The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.

The Project is sited within the East Riding of Yorkshire, North Lincolnshire and Bassetlaw districts of the East Midlands and Humber regions, routed from the most northerly components of the Project located in the Creyke Beck area, approximately 4km south of Beverley town centre, to the most southerly components in the High Marnham area, approximately 6km east of Tuxford town centre and the A1.

The Project is a Nationally Significant Infrastructure Project ("NSIP") under the Act and requires an application for development consent to the Secretary of State for Energy Security and Net Zero. The development consent being sought will include a number of other provisions, including those which authorise the compulsory acquisition of land and rights over land, if necessary, to construct and maintain the Project.

NATIONAL GRID is undertaking a statutory consultation on the proposed application in accordance with the requirements of the Act. The consultation runs from Tuesday 18th February 2025 until Tuesday 15th April 2025.

Section 42(1)(d) and Section 44 of the Act require NATIONAL GRID to consult on its proposed application with those persons specified by the Act. These persons include, for example, landowners, tenants, occupiers, or persons with other interests in land and those who may be entitled to make a claim under certain land compensation legislation should the proposed Project be constructed, and the land used for the purpose of the Project. NATIONAL GRID has identified that you fall into one of the categories of people that it needs to consult under Section 42 (1)(d) and Section 44 of the Act. As such, you will find enclosed with this letter:

- The Consultation Leaflet that NATIONAL GRID has distributed to the local community as part of the consultation being undertaken under Section 47 of the Act (if you live near the proposed site, you may have already received this leaflet in the post). The leaflet gives a high-level overview of the proposed Project as well as the community consultation that is taking place on the proposed Project;
- A Plan showing the proposed Order Limits for the Project.

We will continue our ongoing conversations with you throughout this statutory consultation and where an agent is appointed, we will ensure they are also sent a copy of this correspondence to aid conversations.

[redacted]

Due to its nature and size, the Project is subject to the Infrastructure Planning (Environment Impact Assessment) Regulations 2017 (the "EIA Regulations"). We are therefore carrying out an Environmental Impact Assessment ("EIA") and consulting on the potential environmental effects of the Project and suggestions for reducing these effects (for examples, through mitigation measures). This information is detailed in the Preliminary Environmental Information Report ("PEIR"). An Environmental Statement will be produced subsequently in accordance with the EIA Regulations and will accompany the application for development consent. Comments on any other aspect of the Project are also welcome.

NATIONAL GRID (as required by the Act) has prepared a Statement of Community Consultation ("SoCC") which sets out how NATIONAL GRID will undertake the statutory consultation for the proposed application with those people living and working in the vicinity of the Project. The SoCC can be viewed on the Project Website: www.nationalgrid.com/nh-hm

A copy of the full suite of consultation documents are available to view on the Project Website from Tuesday 18 February 2025 until Tuesday 15 April 2025

These include:

- Project Background Document;
- Statutory consultation feedback questionnaire;
- Copy of the newspaper notice published under Section 48 of the Act;
- 2024 Strategic Options Backcheck and Review;
- Design Development Report (2025);
- Consultation plans showing the location of the Project; and
- Statement of Community Consultation.

The above list is not exhaustive and the full suite of consultation documents are available to view on the Project Website from Tuesday 18 February 2025 until Tuesday 15 April 2025.

Paper copies of selected consultation documents will also be available by request, free of charge. Paper copies of the PEIR can be provided on request. This may be subject to a charge to cover printing and postage fees.

While no longer a statutory requirement, in addition to being available online, we will seek to ensure the Community Newsletter, Project Background Document, NTS of the PEIR, SoCC and feedback questionnaire are available to view at the following locations throughout the consultation period (subject to availability and agreement).

- Beverley Library, Champney Road, Beverley HU17 8HE. Opening hours: Monday, Wednesday and Friday (9.30am to 5pm), Tuesday and Thursday (9.30am to 9pm), and Saturday (9am to 4pm).
- South Cave Library, 97 Church Street, South Cave HU15 2EP. Opening hours: Tuesday (2pm to 5pm), Thursday (2pm to 7pm) and Saturday (10am to 12pm).
- Goole Library, Carlisle Street, Goole DN14 5DS. Opening hours: Monday and Wednesday (9:30am to 7pm), Tuesday, Thursday and Friday (9:30am to 5pm), and Saturday (9am to 4pm).
- Cottingham Library and Customer Service Centre, Market Green, Cottingham HU16 5QG. Opening hours: Monday and Tuesday (9:30am to 4pm), Thursday (9:30am to 6:30pm), Friday (9:30am to 1pm), and Saturday (9:30am to 12:30pm).
- Crowle Library, Crowle Community Hub, The Market Hall, Market Place, Crowle, North Lincolnshire DN17 4LA. Opening hours: Monday to Friday (9:30am to 12:30pm and 1pm to 5pm) and Saturday (9am to 12pm).
- Haxey Library, The Memorial Hall, Haxey, Doncaster DN9 2HH. Opening hours: Monday and Thursday (2pm to 5pm), Tuesday and Friday (9am to 12pm), and Saturday (10am to 1pm).
- Misterton Library, 31 High Street, Misterton, Doncaster, South Yorkshire DN10 4BU. Opening hours: Tuesday to Thursday (2pm to 5pm) and Saturday (9:30am to 12:30pm)
- Retford Library, Churchgate, Retford DN22 6PE. Opening hours: Monday to Friday (9am to 6pm), and Saturday (9am to 3:30pm).

- Bassetlaw District Council (Retford office), 17B The Square, Retford DN22 6DB[1]. Opening hours: Monday to Friday (9am to 5pm).
- Epworth Library, Live Well Isle of Axholme, Burnham Road, Epworth, DN9 1BZ. Opening hours: Monday to Friday (7am to 9pm), Saturday (9am to 4pm) and Sunday (12pm to 6pm)
- Gainsborough Library, Cobden Street, Gainsborough, DN21 2NG. Opening hours: Monday, Tuesday, Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm) and Saturday (9am to 1pm)
- All Saints Parish Curch, Misterton, High Street, Misterton, DN10 4AL. Opening hours: Monday to Sunday (10am to 4pm)
- Nottinghamshire Mobile Libraries. To find out when the mobile library is in your area, email ask@inspireculture.co.uk or call 01623 677 200.

[1]Bassetlaw District Council's Retford office is operating from a temporary location until late-February 2025. For more information, visit the Councils website.

Public Information Events

During the consultation period a series of face-to-face public consultation events will be head where you can speak with the Project Team.

We welcome you to attend one of our consultation events to meet the project team, ask questions and view more details of the Project:

Venue	Date	Time
Dunham on Trent Village Hall, Low Street, Dunham, NG22 0FJ	Saturday 1 March 2025	11am-4pm
Gringley on the Hill Community Centre, W Wells Lane, Gringley on the Hill, DN10 4QY	Monday 3 March 2025	1-7pm
North and South Wheatley Village Hall, Sturton Road, South Wheatley, DN22 9DL	Tuesday 4 March 2025	1-7pm
Crowle Community Hall, Woodland Avenue, Crowle, DN17 4LL	Monday 10 March 2025	1-7pm
All Saints Community Centre, Church Hill, South Cave, HU15 2EU	Friday 14 March 2025	1-7pm
Gilberdyke Memorial Hall, 11 Clementhorpe Road, Gilberdyke, HU15 2UB	Saturday 15 March 2025	11am-4pm
Garthorpe Village Hall, Shore Road, Garthorpe, DN17 4AD	Wednesday 19 March 2025	1-7pm
Epworth Imperial Hall, Chapel Street, Epworth, DN9 1HJ	Friday 21 March 2025	1-7pm
Cottingham Civic Hall, Market Green, Cottingham, HU16 5QF	Wednesday 26 March 2025	1-7pm

Printed copies of the consultation materials will be made available at consultation events for attendees to review. Attendees will also be able to take away copies of the Project Background Document and feedback questionnaire.

In addition to the consultation events, we will be holding a series of webinar sessions, where members of the Project Team will be available to answer questions. The dates and times of these sessions are as follows:

Date	Time	Topic
Tuesday 25 February 2025	6:30-7:30pm	General – Overview of the proposals
Thursday 6 March 2025	6:30-7:30pm	Route sections 1, 2 and 3
Tuesday 11 March 2025	6:30-7:30pm	Route sections 4, 5, 6 and 7
Thursday 13 March 2025	6:30-7:30pm	Route sections 8 and 9
Tuesday 18 March 2025	6:30-7:30pm	Route sections 10 and 11
Thursday 27 March 2025	2-3pm	General – Overview of the proposals

To register for a webinar or request a call back from a member of the Project Team at a time that is convenient to you, please email [redacted].

Responding to the consultation

Reponses to this consultation must be received by 15 April 2025.

Responses to this consultation can be submitted using the online feedback questionnaire available at www.nationalgrid.com/nh-hm

Alternatively, you can return a printed copy of the feedback questionnaire or a free text response via email: [redacted] or post **FREEPOST NH TO HM** (please write this in capitals, you do not need a stamp).

Please get in touch with us using the details below if you would like a printed or alternative format copy of the materials.

Telephone: [redacted]

Email: [redacted]

We (and any appointed agent of NATIONAL GRID) will review the proposals for the Project in light of the feedback we receive as part of this consultation and will take into account all feedback and comments received, before we make our application for development consent. The Non-Statutory Consultation Feedback Report, which forms part of the Consultation Materials summarises the feedback we received during the stage non-statutory consultation (2023) and localised non-statutory consultation (2024) and how we have had regard to comments.

We may be required to make copies of representations available to the Secretary of State. However, we will request that personal details are not placed on public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this project and, except as noted above, will not be disclosed to any third parties.

If you have any questions about the Project, please don't hesitate to contact us at the above postal or email address.

We look forward to hearing from you.

Yours

Dear Sir/Madam,

NORTH HUMBER TO HIGH MARNHAM PROJECT: STATUTORY CONSULTATION ON A PROPOSED APPLICATION FOR DEVELOPMENT CONSENT

SECTION 42, SECTION 44 and SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED) REGULATION 13 INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT) REGULATIONS 2017

National Grid Electricity Transmission plc ("National Grid") owns and maintains the high-voltage electricity transmission network in England and Wales.

The North Humber to High Marnham Electricity Network Reinforcement Project (the "Project") is being developed and promoted by National Grid in relation to a proposed application for a Development Consent Order ("DCO"). National Grid launched a statutory consultation on the 18th February 2025 in accordance with sections 42 and 47 of the Planning Act 2008 (the "Act") in respect of the Project. The statutory consultation period ended at 11:59pm on the 15th April 2025. However, as a result of our ongoing land investigations, you have since been identified as a person with whom NGET is required to consult under the Act. Whilst our consultation period has ended, we would like to meet with you and get any feedback you have on the Project. This letter explains the nature of the project and how you can provide your comments on it. We would like to collect this feedback within 28 days of the date of this letter.

Background

By way of background, every year the National Electricity System Operator ("NESO") – which is the body responsible for planning and managing Great Britain's electricity system – looks at how much energy needs to be carried on the network in the future. It also looks at where network capability needs to be improved. NESO identifies a range of Future Energy Scenarios which represent different credible scenarios for how quickly we [redacted]ener energy future as we strive towards net zero by 2050. The Future [redacted]e Electricity Ten Year Statement, which sets out NESOs view of future [redacted]e capability of the transmission network might need to be addressed over the next decade. National Grid, the Transmission Owner for England and Wales is then required to respond with solutions to address the requirements identified in the Electricity Ten Year Statement.

The system operator, NESO, assesses the proposed solutions and publishes its recommendations as to which proposals should proceed in a Network Options Assessment ("NOA") report each year.

North-South power flows are set to increase as a result of growing numbers of offshore wind farms and interconnectors being constructed, an anticipated tripling of wind generation across the Scottish networks by 2030, and the Government's increased ambition to connect 50 GW of offshore wind to the grid by 2030. In its Electricity Ten Year Statement, NESO anticipates that the network between the North and Midlands will need to transfer as much as 29 GW of electricity by 2033, compared to 11.6 GW that it can transfer today, while remaining compliant with operational network standards.

NESO has identified the Project and other reinforcements in the latest Network Options Assessment (NOA) as essential to deliver the Pathway to 2030 Holistic Network Design (HND) – which will connect offshore wind needed to meet the Government's 2030 target. NESO also advises in the NOA that the reinforcement works need to be accelerated to help meet the Government's 2030 offshore wind target.

The Project

The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometres ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid is consulting on all aspects of the proposed development for the Project, including:

- Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
- Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
- Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
- A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
- Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
- A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
- Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.

The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites, and ancillary [redacted] diversions and drainage works. There would also be land required for [redacted]ent of the environment including biodiversity net gain.

The Project is sited within the East Riding of Yorkshire, North Lincolnshire and Bassetlaw districts of the East Midlands and Humber regions, routed from the most northerly components of the Project located in the Creyke Beck area, approximately 4km south of Beverley town centre, to the most southerly components in the High Marnham area, approximately 6km east of Tuxford town centre and the A1.

The Project is a Nationally Significant Infrastructure Project ("NSIP") under the Act and requires an application for development consent to the Secretary of State for Energy Security and Net Zero. The DCO being sought will include a number of provisions, including those which authorise the compulsory acquisition of land and rights over land, if necessary, to construct and maintain the Project.

Consultation

Section 42(1)(d) and Section 44 of the Act require National Grid to consult on its proposed application with those persons specified by the Act. These persons include, for example, landowners, tenants, occupiers, or persons with other interests in land and those who may be entitled to make a claim under certain land compensation legislation should the proposed Project be constructed, and the relevant land used for the purpose of the Project. National Grid has identified that you fall into one of the categories of persons whom it needs to consult under Section 42 (1)(d) and Section 44 of the Act.

As such, you will find enclosed with this letter:

- The Consultation Leaflet that National Grid has distributed to the local community as part of the consultation being undertaken under Section 47 of the Act (if you live near the proposed site, you may have already received this leaflet in the post). The leaflet gives a high-level overview of the proposed Project as well as the community consultation that is taking place on the proposed Project; and

- A Plan showing the proposed Order Limits for the Project (being the extent of the land over which the Project can be carried out).

We have attached the original statutory consultation notice to this letter for reference, however, please note that the deposit locations will continue to hold copies of materials for reference notwithstanding the dates set out in that notice.

Following this consultation exercise, we will seek to continue discussions with you throughout the DCO application process and where an agent is appointed, we will ensure they are also sent copies of correspondence to aid discussions.

Environment Impact Assessment

Due to its nature and size, the Project is subject to the Infrastructure Planning (Environment Impact Assessment) Regulations 2017 (the "EIA Regulations"). We are therefore carrying out an Environmental Impact Assessment ("EIA") and consulting on the potential environmental effects of the Project and suggestions for reducing these [redacted]easures). This information is detailed in the Preliminary Environmental [redacted]e viewed at [redacted] An Environmental Statement will also be produced in due course in accordance with the EIA Regulations and will accompany the application for development consent. Comments on this, and any other aspect of the Project are also welcome.

Statement of Community Consultation

National Grid (as required by the Act) has prepared a Statement of Community Consultation ("SoCC") which sets out how National Grid will carry out the necessary statutory consultation on the proposed application with those people living and working in the vicinity of the Project. The SoCC can be viewed on the Project Website: [redacted]

Consultation Documents

The full suite of consultation documents are also available to view on the Project Website.

These include:

- Project Background Document;
- Statutory consultation feedback questionnaire;
- Copy of the newspaper notice published under Section 48 of the Act;
- 2024 Strategic Options Backcheck and Review;
- Design Development Report (2025);
- Consultation plans showing the location of the Project; and
- Statement of Community Consultation.

Paper copies of selected consultation documents are available on request, free of charge. Paper copies of the PEIR can be provided on request, however, this may be subject to a charge to cover printing and postage fees due to the size of the document.

While no longer a statutory requirement, in addition to being available online, we will seek to ensure the Community Newsletter, Project Background Document, non-technical summary of the PEIR, SoCC and feedback questionnaire are available to view at the following locations for a period of at least 28 days from the date of this letter.

- Beverley Library, Champney Road, Beverley HU17 8HE. Opening hours: Monday, Wednesday and Friday (9.30am to 5pm), Tuesday and Thursday (9.30am to 9pm), and Saturday (9am to 4pm).
- South Cave Library, 97 Church Street, South Cave HU15 2EP. Opening hours: Tuesday (2pm to 5pm), Thursday (2pm to 7pm) and Saturday (10am to 12pm).
- Goole Library, Carlisle Street, Goole DN14 5DS. Opening hours: Monday and Wednesday (9:30am to 7pm), Tuesday, Thursday and Friday (9:30am to 5pm), and Saturday (9am to 4pm).
- Cottingham Library and Customer Service Centre, Market Green, Cottingham HU16 5QG. Opening hours: Monday and Tuesday (9:30am to 4pm), Thursday (9:30am to 6:30pm), Friday (9:30am to 1pm), and Saturday (9:30am to 12:30pm).
- Crowle Library, Crowle Community Hub, The Market Hall, Market Place, Crowle, North Lincolnshire DN17 4LA. Opening hours: Monday to Friday (9:30am to 12:30pm and 1pm to 5pm) and Saturday (9am to 12pm).
- Haxey Library, The Memorial Hall, Haxey, Doncaster DN9 2HH. Opening hours: Monday and Thursday (2pm to 5pm), Tuesday and Friday (9am to 12pm), and Saturday (10am to 1pm).
- Misterton Library, 31 High Street, Misterton, Doncaster, South Yorkshire DN10 4BU. Opening hours: Tuesday to Thursday (2pm to 5pm) and Saturday (9:30am to 12:30pm)
- Retford Library, Churchgate, Retford DN22 6PE. Opening hours: Monday to Friday (9am to 6pm), and Saturday (9am to 3:30pm).
- *Bassetlaw District Council (Retford office), 17B The Square, Retford DN22 6DB1. Opening hours: Monday to Friday (9am to 5pm).
- [redacted]Axholme, Burnham Road, Epworth, DN9 1BZ. Opening hours: Monday [redacted] (9am to 4pm) and Sunday (12pm to 6pm)
- [redacted]treet, Gainsborough, DN21 2NG. Opening hours: Monday, Tuesday, Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm) and Saturday (9am to 1pm)

- All Saints Parish Church, High Street, Misterton, DN10 4AL. Opening hours: Monday to Sunday (10am to 4pm)
- Nottinghamshire Mobile Libraries. To find out when the mobile library is in your area, email ask@inspireculture.co.uk or call 01623 677 200.

*Bassetlaw District Council's Retford office is operating from a temporary location until late-February 2025. For more information, visit the Council's website.

Responding to the consultation

Reponses to this consultation must be received within 28 days from the date of this letter. Responses to this consultation can be submitted using the online feedback questionnaire available at [redacted]

Alternatively, you can return a printed copy of the feedback questionnaire or a response via email: [redacted] or post FREEPOST NH TO HM (please write this in capitals, you do not need a stamp).

Please get in touch with us using the details below if you would like a printed or alternative format copy of the materials.

Freephone: [redacted]
Email: [redacted]

We (and any appointed agent of National Grid) will review the proposals for the Project in light of the feedback we receive as part of this consultation and will take into account all feedback and comments received, before we make our application for development consent. The Non-Statutory Consultation Feedback Report, which forms part of the Consultation Materials summarises the feedback we received during the stage non-statutory consultation (2023) and localised non-statutory consultation (2024) and how we have had regard to comments.

We may be required to make copies of representations available to the Secretary of State. However, we will request that personal details are not placed on public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this project and will not be disclosed to any third parties other than National Grid's appointed agents and contractors engaged in relation to the Project and the consultation process, and they will be required to also comply with the relevant data protection legislation in holding and processing any such data.

During the consultation period a series of face-to-face public consultation events were held, and although these have since concluded, we would be happy to meet with you at your property if that would be convenient, to discuss our proposals and answer any questions you may have. We are happy to provide paper copies of the Project Background Document and the feedback questionnaire upon request.

Yours sincerely,

[redacted]

14 January 2026

Dear Sir/Madam,

NORTH HUMBER TO HIGH MARNHAM PROJECT: STATUTORY CONSULTATION ON A PROPOSED APPLICATION FOR DEVELOPMENT CONSENT

SECTION 42, SECTION 44 and SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED) REGULATION 13 INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT) REGULATIONS 2017

National Grid Electricity Transmission plc ("National Grid") owns and maintains the high-voltage electricity transmission network in England and Wales.

The North Humber to High Marnham Electricity Network Reinforcement Project (the "Project") is being developed and promoted by National Grid in relation to a proposed application for a Development Consent Order ("DCO"). National Grid launched a statutory consultation on the 18th February 2025 in accordance with sections 42 and 47 of the Planning Act 2008 (the "Act") in respect of the Project. The statutory consultation period ended at 11:59pm on the 15th April 2025. However, as a result of our ongoing design development and land investigations, you have since been identified as a person with whom National Grid is required to consult under the Act. We are now opening a specific targeted landowner consultation including an offer to meet with you and seek any feedback you have on the Project. This consultation will run for a period of **28 days from the 14th January 2026 to 11th February 2026.** This letter explains the Project and how you can provide comments.

Background

By way of background, every year the National Electricity System Operator ("NESO") – which is the body responsible for planning and managing Great Britain's electricity system – looks at how much energy needs to be carried on the network in the future. It also looks at where network capability needs to be improved. NESO identifies a range of Future Energy Scenarios which represent different credible scenarios for how quickly we might make the transition to a cleaner greener energy future as we strive towards net zero by 2050. The Future Energy Scenarios inform the analysis in the Electricity Ten Year Statement, which sets out NESOs view of future transmission requirements and where the capability of the transmission network might need to be addressed over the next decade.

National Grid, the Transmission Owner for England and Wales is then required to respond with solutions to address the requirements identified in the Electricity Ten Year Statement. The system operator, NESO, assesses the

proposed solutions and publishes its recommendations as to which proposals should proceed in a Network Options Assessment ("NOA") report each year.

North-South power flows are set to increase as a result of growing numbers of offshore wind farms and interconnectors being constructed, an anticipated tripling of wind generation across the Scottish networks by 2030, and the Government's increased ambition to connect 50 GW of offshore wind to the grid by 2030. In its Electricity Ten Year Statement, NESO anticipates that the network between the North and Midlands will need to transfer as much as 29 GW of electricity by 2033, compared to 11.6 GW that it can transfer today, while remaining compliant with operational network standards. If all the proposed new offshore wind that is planned to connect into the Creyke Beck area gets built, this would amount to just over 12 GW of generation capacity by the early 2030s.

NESO has identified the Project and other reinforcements in the latest Network Options Assessment (NOA) as essential to deliver the Pathway to 2030 Holistic Network Design (HND) – which will connect offshore wind with the grid needed to meet the Government's 2030 target. NESO also advises in the NOA that the reinforcement works need to be accelerated to help meet the Government's 2030 offshore wind target.

The Project

The Project is a proposal by National Grid to upgrade the electricity transmission system between two new substations, one near Cottingham and another near High Marnham in Nottinghamshire. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometres ("km") in overall length between two proposed new substations, Birkhill Wood 400 kV Substation and High Marnham 400 kV Substation, and is made up of:

- Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400 kV Substations
- Replacement and re-alignment of a section of the existing 400 kV 4ZQ overhead line route between Brantingham and east of Broomfleet
- Replacement and re-alignment of a section of the existing 400 kV ZDA overhead line route between Ealand and west of Keadby

The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites, and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.

The Project is sited within the local authority areas of East Riding of Yorkshire, North Lincolnshire and Bassetlaw, routed from the most northerly components in the Creyke Beck area, approximately 4km south of Beverley town centre, to the most southerly components in the High Marnham area, approximately 6km east of Tuxford town centre and the A1.

The Project is a Nationally Significant Infrastructure Project ("NSIP") under the Act and requires an application for development consent to be made to the Secretary of State for Energy Security and Net Zero. The DCO being sought will include a number of provisions, including those which authorise the compulsory acquisition of land and rights over land, if necessary, to construct and maintain the Project.

Consultation

Section 42(1)(d) and Section 44 of the Act require National Grid to consult on its proposed application with those persons specified by the Act. These persons include, for example, landowners, tenants, occupiers, or persons with other interests in land and those who may be entitled to make a claim under certain land compensation legislation should the proposed Project be constructed, and the relevant land used for the purpose of the

Project. National Grid has identified that you fall into one of the categories of persons whom it needs to consult under Section 42 (1)(d) and Section 44 of the Act.

As such, you will find enclosed with this letter:

- A Consultation Newsletter providing a high-level overview of the proposed Project, it's history and how you can provide your feedback; and
- A Plan showing the proposed Order Limits for the Project (being the extent of the land over which the Project can be carried out).

Following this targeted landowner consultation, we will seek to continue discussions with you throughout the DCO application process and where an agent is appointed, we will ensure they are also sent copies of correspondence to aid discussions.

Environment Impact Assessment

Due to its nature and size, the Project is subject to the Infrastructure Planning (Environment Impact Assessment) Regulations 2017 (the "EIA Regulations"). We are therefore carrying out an Environmental Impact Assessment ("EIA") and consulting on the potential environmental effects of the Project and suggestions for reducing these effects (for example, through mitigation measures). This information is detailed in the Preliminary Environmental Information Report ("PEIR"), which can be viewed in the document library of the project website at www.nationalgrid.com/nh-hm. An Environmental Statement will also be produced in due course in accordance with the EIA Regulations and will accompany the application for development consent.

Statement of Community Consultation

National Grid (as required by the Act) has prepared a Statement of Community Consultation ("SoCC") which sets out how National Grid will carry out the necessary statutory consultation on the proposed application with those people living and working in the vicinity of the Project. The SoCC can be viewed in the document library on the Project Website: www.nationalgrid.com/nh-hm.

Consultation Documents

The full suite of consultation documents are also available to view on the Project Website: www.nationalgrid.com/nh-hm.

These include:

- Project Background Document;
- Statutory consultation feedback questionnaire;
- Copy of the newspaper notice published under Section 48 of the Act;
- Strategic Options Report Update;
- Design Development Report (2025);
- Consultation plans showing the location of the Project; and
- Statement of Community Consultation.

Paper copies of selected consultation documents are available on request, free of charge. Paper copies of the PEIR can be provided on request, however, this may be subject to a charge to cover printing and postage fees due to the size of the document.

Responding to the consultation

Reponses to this consultation must be received within 28 days from the date of this letter. Responses to this consultation can be submitted via email/ letter using the enclosed WSP envelope or phone using the contact information within this letter.

We (and any appointed agent of National Grid) will review the proposals for the Project in light of the feedback we receive as part of this consultation and will take into account all feedback and comments received, before we make our application for development consent. The non-statutory consultation feedback report, which forms part of the consultation materials, summarises the feedback we received during the Project non-statutory consultation (2023) and localised non-statutory consultation (2024) and how we have had regard to comments.

We may be required to make copies of representations available to the Secretary of State. However, we will request that personal details are not placed on public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this project. Personal details will not be disclosed to any third parties other than National Grid's appointed agents and contractors engaged in relation to the Project and the consultation process, and they will be required to also comply with the relevant data protection legislation in holding and processing any such data.

During all consultation periods a series of face-to-face public consultation events were held, and although these have since concluded, our appointed land agents, Dalcour Maclaren, would be happy to meet with you at your property or at any other location if that would be convenient, to discuss our proposals for the Project and answer any questions you may have.

If you have any further questions, please get in touch with us through the information at the top of this letter.

Yours sincerely,

Dear XXX

NORTH HUMBER TO HIGH MARNHAM PROJECT: TARGETED CONSULTATION ON A PROPOSED APPLICATION FOR DEVELOPMENT CONSENT

SECTION 42, SECTION 44 and SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED) REGULATION 13 INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT) REGULATIONS 2017

The North Humber to High Marnham Electricity Network Reinforcement Project (the "Project") is being developed and promoted by National Grid Electricity Transmission (National Grid) in relation to a proposed application for a Development Consent Order ("DCO"). National Grid launched a statutory consultation on the 18th February 2025 in accordance with sections 42 and 47 of the Planning Act 2008 (the "Act") in respect of the Project. The statutory consultation period ended at 11:59pm on the 15th April 2025. However, as a result of our ongoing design development and land investigations, you have since been identified as a person with whom National Grid is required to consult under the Act. We are now opening a specific targeted landowner consultation to meet with you and get any feedback you have on the Project. This consultation will run for a period of 28 days from the 15th May 2026 to 12th June 2026. This letter explains how you can provide your comments to the Project.

Consultation

Section 42(1)(d) and Section 44 of the Act require National Grid to consult on its proposed application with those persons specified by the Act. National Grid has identified that you fall into one of the categories of persons whom it needs to consult under Section 42 (1)(d) and Section 44 of the Act.

As such, you will find enclosed with this letter a Plan showing the proposed Order Limits for the Project (being the extent of the land over which the Project can be carried out).

Following this targeted consultation exercise, we will seek to continue discussions with you throughout the DCO application process and where an agent is appointed, we will ensure they are also sent copies of correspondence to aid discussions.

Consultation Documents

The full suite of statutory consultation documents are available to view on the Project Website www.nationalgrid.com/nh-hm. Please note that some of the materials you are able to view on the Project Website are dated February 2025, from the launch of statutory consultation. To confirm, the enclosed plan shows the latest Project proposals on your land.

Responding to the consultation

Reponses to this consultation must be received before 11th June 2026. Responses to this consultation can be submitted via email/ letter or phone, using the contact information within this letter. We would be grateful if you could get in touch with the Dalcour Maclaren team on the below details to arrange a meeting to discuss any queries or feedback you would like to submit.

15th June 2026

Our Ref: 20260615-WSP-s42-<ContactID>

Dear Sir/Madam,

NORTH HUMBER TO HIGH MARNHAM PROJECT: TARGETED STATUTORY CONSULTATION ON A PROPOSED APPLICATION FOR DEVELOPMENT CONSENT

SECTION 42, SECTION 44 and SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED) REGULATION 13 INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT) REGULATIONS 2017

National Grid Electricity Transmission plc ("National Grid") owns and maintains the high-voltage electricity transmission network in England and Wales.

The North Humber to High Marnham Electricity Network Reinforcement Project (the "Project") is being developed and promoted by National Grid in relation to a proposed application for a Development Consent Order ("DCO"). National Grid launched a statutory consultation on 18 February 2025 in accordance with sections 42 and 47 of the Planning Act 2008 (the "Act") in respect of the Project. The statutory consultation period ended at 11:59pm on 15 April 2025.

It has become apparent from our searches of the Land Registry, that you are in possession of a land interest which **may** be indirectly affected by part of the Project at this stage. Specifically, we are now writing to you as a **potential** Category 3 interest under section 44 of the Act. A Category 3 interest relates to persons/organisations whose land, whilst not necessarily directly affected by part of the Project, may be entitled to make a relevant claim for compensation, if development consent for North Humber to High Marnham is granted, and the Development Consent Order is fully implemented. A relevant claim means a claim under:

- Section 10 of the Compulsory Purchase Act 1965
- Part 1 of the Land Compensation Act 1973
- Section 152(3) of the Planning Act 2008

A land agent/surveyor/legal representative will be able to advise you on your entitlement to make a claim, and your rights as a potential Category 3 interest, in respect of the Act but any valid claim under these provisions could only be made after the Project receives its DCO and the Project is implemented (currently expected to be Spring 2028).

We are now opening a specific targeted consultation to seek any feedback you have on the Project. This consultation will run for a period of **28 days from 15 June – 13 July 2026.** This letter explains the Project and how you can provide comments.

Background

By way of background, every year the National Electricity System Operator ("NESO") – which is the body responsible for planning and managing Great Britain's electricity system – looks at how much energy needs to be carried on the network in the future. It also looks at where network capability needs to be improved. NESO identifies a range of Future Energy Scenarios which represent different credible scenarios for how quickly we might make the transition to a cleaner greener energy future as we strive towards net zero by 2050. The Future Energy Scenarios inform the analysis in the Electricity Ten Year Statement, which sets out NESO's view of future transmission requirements and where the capability of the transmission network might need to be addressed over the next decade.

National Grid, the Transmission Owner for England and Wales is then required to respond with solutions to address the requirements identified in the Electricity Ten Year Statement. The system operator, NESO, assesses the proposed solutions and publishes its recommendations as to which proposals should proceed in a Network Options Assessment ("NOA") report each year.

North-South power flows are set to increase as a result of growing numbers of offshore wind farms and interconnectors being constructed, an anticipated tripling of wind generation across the Scottish networks by 2030, and the Government's increased ambition to connect 50 GW of offshore wind to the grid by 2030. In its Electricity Ten Year Statement, NESO anticipates that the network between the North and Midlands will need to transfer as much as 29 GW of electricity by 2033, compared to 11.6 GW that it can transfer today, while remaining compliant with operational network standards. If all the proposed new offshore wind that is planned to connect into the Creyke Beck area gets built, this would amount to just over 12 GW of generation capacity by the early 2030s.

NESO has identified the Project and other reinforcements in the latest NOA as essential to deliver the Pathway to 2030 Holistic Network Design (HND) – which will connect offshore wind with the grid needed to meet the Government's 2030 target. NESO also advises in the NOA that the reinforcement works need to be accelerated to help meet the Government's 2030 offshore wind target.

The Project

The Project is a proposal by National Grid to upgrade the electricity transmission system between two new substations, one near Cottingham and another near High Marnham in Nottinghamshire. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometres ("km") in overall length between two proposed new substations, Birkhill Wood 400 kV Substation and High Marnham 400 kV Substation (separately consented), and is made up of:

- Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400 kV Substations
- Replacement and re-alignment of a section of the existing 400 kV 4ZQ overhead line route between Brantingham and east of Broomfleet
- Replacement and re-alignment of a section of the existing 400 kV ZDA overhead line route between Ealand and west of Keadby

The Project will involve a range of temporary construction activities that are likely to affect the local highway network. **We have identified that you may be affected by temporary road closures and associated traffic management measures required to facilitate works on existing overhead line routes, the construction of temporary access roads, highway works, temporary works compounds, work sites, utility diversions, drainage works and other ancillary works.** You have been identified due to your interest in, use of, or reliance on the affected routes, including for access to land, property, businesses or services.

T: 0808 189 1346
email: contact@nh-hm.nationalgrid.com
FREEPOST NH TO HM
www.nationalgrid.com

The Project is sited within the local authority areas of East Riding of Yorkshire, North Lincolnshire and Bassetlaw, routed from the most northerly components in the Creyke Beck area, approximately 4 km south of Beverley town centre, to the most southerly components in the High Marnham area, approximately 6 km east of Tuxford town centre and the A1.

The Project is a Nationally Significant Infrastructure Project ("NSIP") under the Act and requires an application for development consent to be made to the Secretary of State for Energy Security and Net Zero. The DCO being sought will include a number of provisions, including those which authorise the compulsory acquisition of land and rights over land, if necessary, to construct and maintain the Project.

Consultation

In accordance with Sections 42(1)(d) and 44 of the Act, National Grid is required to consult with persons who are considered to fall within Category 3. A person is within Category 3 where National Grid considers that, if the Development Consent Order were to be made and fully implemented, they would or might be entitled to make a relevant claim as a result of the implementation of the Order, the Order having been implemented, or the use of land once the Order has been implemented. This includes, for example, persons who have an interest in, use of, or reliance on land or routes that may be affected by the Project, including through temporary construction activities such as road closures and associated traffic management measures. Following diligent enquiry, National Grid has identified that you fall within Category 3 of persons it is required to consult under the Act.

As such, you will find enclosed with this letter:

- A Plan showing the proposed Order Limits for the Project (being the extent of the land over which the Project can be carried out).
- A plan showing the extent of temporary highway closures and associated traffic management.

Additionally, to help clearly explain what this consultation might mean for you, we have recorded a video which provides an overview of the Project, the reasons for the consultation, any potential impacts, and how we are working to minimise disruption where possible. It also explains how you can share your feedback with us. You can view the video via the following link and QR code:

https://players.brightcove.net/867903724001/default_default/index.html?videoId=6397419395112

A copy of the video transcript is also available on request.

All feedback provided will be reviewed and considered in accordance with our Statement of Community Consultation.

Environment Impact Assessment

www.nationalgrid.com

Due to its nature and size, the Project is subject to the Infrastructure Planning (Environment Impact Assessment) Regulations 2017 (the "EIA Regulations"). We are therefore carrying out an Environmental Impact Assessment ("EIA") and consulting on the potential environmental effects of the Project and suggestions for reducing these effects (for example, through mitigation measures). This information is detailed in the Preliminary Environmental Information Report ("PEIR") produced when the original statutory consultation took place, which can be viewed in the document library of the Project website at www.nationalgrid.com/nh-hm. An Environmental Statement will also be produced in due course in accordance with the EIA Regulations and will accompany the application for development consent.

Statement of Community Consultation

National Grid (as required by the Act) has prepared a Statement of Community Consultation ("SoCC") which sets out how National Grid will carry out the necessary statutory consultation on the proposed application with those people living and working in the vicinity of the Project. The SoCC can be viewed in the document library on the Project Website: www.nationalgrid.com/nh-hm.

Consultation Documents

The full suite of consultation documents are available to view on the Project Website: www.nationalgrid.com/nh-hm.

These include:

- Project Background Document;
- Statutory consultation feedback questionnaire;
- Copy of the newspaper notice published under Section 48 of the Act;
- Strategic Options Report Update;
- Design Development Report (2025);
- Preliminary Environmental Information Report (PEIR)
- Consultation plans showing the location of the Project; and
- Statement of Community Consultation.

Paper copies of selected consultation documents are available on request, free of charge. Paper copies of the PEIR can be provided on request, however, this may be subject to a charge to cover printing and postage fees due to the size of the document.

Responding to the consultation

Reponses to this consultation must be received within 28 days from the date of this letter. Responses to this consultation can be submitted via email / letter using the enclosed envelope, or by email using the contact information within this letter.

We (and any appointed agent of National Grid) will review the proposals for the Project in light of the feedback we receive as part of this consultation and will take into account all feedback and comments received, before we make our application for development consent. The non-statutory consultation feedback report, which forms part of the consultation materials, summarises the feedback we received during the Project non-statutory consultation (2023) and localised non-statutory consultation (2024) and how we have had regard to comments.

We may be required to make copies of representations available to the Secretary of State. However, we will request that personal details are not placed on public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this project. Personal details will not be disclosed to any third parties other than National Grid's appointed agents and contractors engaged in relation to the Project and the consultation process, and they will be required to also comply with the relevant data protection legislation in holding and processing any such data.

XXXXXXX 2026

Our Ref:

Dear Sir/Madam,

NORTH HUMBER TO HIGH MARNHAM PROJECT: STATUTORY CONSULTATION ON A PROPOSED APPLICATION FOR DEVELOPMENT CONSENT

THE PLANNING ACT 2008 (AS AMENDED) REGULATION 13 INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017

National Grid Electricity Transmission plc ("National Grid") owns and maintains the high-voltage electricity transmission network in England and Wales.

The North Humber to High Marnham Electricity Network Reinforcement Project (the "Project") is being developed and promoted by National Grid in relation to a proposed application for a Development Consent Order ("DCO"). National Grid launched a statutory consultation on the 18th February 2025 in accordance with sections 42 and 47 of the Planning Act 2008 (the "Act") in respect of the Project. The statutory consultation period ended at 11:59pm on the 15th April 2025. However, as a result of our ongoing design development and land investigations, you have since been identified as a person with whom National Grid is required to consult under the Act. We are now opening a specific targeted landowner consultation including an offer to meet with you and seek any feedback you have on the Project. This consultation will run for a period of **28 days from the 12 August 2026 to the 10 September 2026.** This letter explains the Project and how you can provide comments.

There are other project activities underway, such as surveys, so you may have further correspondence from us shortly. We are still seeking your feedback and this will be addressed as per the Statement of Community Consultation (SoCC). The SoCC can be viewed in the document library on the Project Website: www.nationalgrid.com/nh-hm.

If you do have any queries or concerns, please do contact us via the information contained in this letter.

Background

By way of background, every year the National Electricity System Operator ("NESO") – which is the body responsible for planning and managing Great Britain's electricity system – looks at how much energy needs to be carried on the network in the future. It also looks at where network capability needs to be improved. NESO identifies a range of Future Energy Scenarios which represent different credible scenarios for how quickly we might make the transition to a cleaner greener energy future as we strive towards net zero by 2050. The Future Energy Scenarios inform the analysis in the Electricity Ten Year Statement, which sets out NESOs view of future

transmission requirements and where the capability of the transmission network might need to be addressed over the next decade.

National Grid, the Transmission Owner for England and Wales is then required to respond with solutions to address the requirements identified in the Electricity Ten Year Statement. The system operator, NESO, assesses the proposed solutions and publishes its recommendations as to which proposals should proceed in a Network Options Assessment ("NOA") report each year.

North-South power flows are set to increase as a result of growing numbers of offshore wind farms and interconnectors being constructed, an anticipated tripling of wind generation across the Scottish networks by 2030, and the Government's increased ambition to connect 50 GW of offshore wind to the grid by 2030. In its Electricity Ten Year Statement, NESO anticipates that the network between the North and Midlands will need to transfer as much as 29 GW of electricity by 2033, compared to 11.6 GW that it can transfer today, while remaining compliant with operational network standards. If all the proposed new offshore wind that is planned to connect into the Creyke Beck area gets built, this would amount to just over 12 GW of generation capacity by the early 2030s.

NESO has identified the Project and other reinforcements in the latest Network Options Assessment (NOA) as essential to deliver the Pathway to 2030 Holistic Network Design (HND) – which will connect offshore wind with the grid needed to meet the Government's 2030 target. NESO also advises in the NOA that the reinforcement works need to be accelerated to help meet the Government's 2030 offshore wind target.

The Project

The Project is a proposal by National Grid to upgrade the electricity transmission system between two new substations, one near Cottingham and another near High Marnham in Nottinghamshire. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometres ("km") in overall length between two proposed new substations, Birkhill Wood 400 kV Substation and High Marnham 400 kV Substation, and is made up of:

- Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400 kV Substations
- Replacement and re-alignment of a section of the existing 400 kV 4ZQ overhead line route between Brantingham and east of Broomfleet
- Replacement and re-alignment of a section of the existing 400 kV ZDA overhead line route between Ealand and west of Keadby

The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites, and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.

The Project is sited within the local authority areas of East Riding of Yorkshire, North Lincolnshire and Bassetlaw, routed from the most northerly components in the Creyke Beck area, approximately 4km south of Beverley town centre, to the most southerly components in the High Marnham area, approximately 6km east of Tuxford town centre and the A1.

The Project is a Nationally Significant Infrastructure Project ("NSIP") under the Act and requires an application for development consent to be made to the Secretary of State for Energy Security and Net Zero. The DCO being sought will include a number of provisions, including those which authorise the compulsory acquisition of land and rights over land, if necessary, to construct and maintain the Project.

T: 0800 051 4430
email: contact@nh-hm.nationalgrid.com
www.nationalgrid.com

Consultation

Section 42(1)(d) and Section 44 of the Act required National Grid to consult on its proposed application with those persons specified by the Act. These persons include, for example, landowners, tenants, occupiers, or persons with other interests in land and those who may be entitled to make a claim under certain land compensation legislation should the proposed Project be constructed, and the relevant land used for the purpose of the Project. National Grid has identified that you fall into one of the categories of persons whom it would have needed to consult under Section 42 (1)(d) and Section 44 of the Act. Those sections have now been repealed (with effect from 24 July 2026) meaning there is no longer a requirement to undertake statutory consultation. However, to ensure all those affected by the Project are consulted on a consistent basis, National Grid is applying the same approach to consultation as it has applied in previous statutory consultations for this Project.
As such, you will find enclosed with this letter:

- A Consultation Newsletter providing a high-level overview of the proposed Project, its history and how you can provide your feedback; and
- A Plan showing the proposed Order Limits for the Project (being the extent of the land over which the Project can be carried out).

Following this targeted landowner consultation, we will seek to continue discussions with you throughout the DCO application process and where an agent is appointed, we will ensure they are also sent copies of correspondence to aid discussions.

Environment Impact Assessment

Due to its nature and size, the Project is subject to the Infrastructure Planning (Environment Impact Assessment) Regulations 2017 (the "EIA Regulations"). We are therefore carrying out an Environmental Impact Assessment ("EIA") and consulting on the potential environmental effects of the Project and suggestions for reducing these effects (for example, through mitigation measures). This information is detailed in the Preliminary Environmental Information Report ("PEIR"), which can be viewed in the document library of the project website at www.nationalgrid.com/nh-hm. An Environmental Statement will also be produced in due course in accordance with the EIA Regulations and will accompany the application for development consent.

Statement of Community Consultation

National Grid (was required by s.47 of the Act before its repeal) prepared a Statement of Community Consultation ("SoCC") which set out how National Grid would carry out the necessary statutory consultation on the proposed application with those people living and working in the vicinity of the Project. The SoCC can be viewed in the document library on the Project Website: www.nationalgrid.com/nh-hm.

Consultation Documents

The full suite of consultation documents are also available to view on the Project Website: www.nationalgrid.com/nh-hm.

These include:

- Project Background Document;
- Statutory consultation feedback questionnaire;
- Copy of the newspaper notice published under Section 48 of the Act;
- Strategic Options Report Update;
- Design Development Report (2025);
- Consultation plans showing the location of the Project; and
- Statement of Community Consultation.

1-3 Strand
London WC2N 5EH

T: 0800 051 4430
email: contact@nh-hm.nationalgrid.com
www.nationalgrid.com

Paper copies of selected consultation documents are available on request, free of charge. Paper copies of the PEIR can be provided on request, however, this may be subject to a charge to cover printing and postage fees due to the size of the document.

Responding to the consultation

Reponses to this consultation must be received within 28 days from the date of this letter. Responses to this consultation can be submitted by letter using the enclosed WSP envelope by email or phone using the contact information within this letter.

We (and any appointed agent of National Grid) will review the proposals for the Project in light of the feedback we receive as part of this consultation and will take into account all feedback and comments received, before we make our application for development consent. The non-statutory consultation feedback report, which forms part of the consultation materials, summarises the feedback we received during the Project non-statutory consultation (2023) and localised non-statutory consultation (2024) and how we have had regard to comments.

We may be required to make copies of representations available to the Secretary of State. However, we will request that personal details are not placed on public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this project. Personal details will not be disclosed to any third parties other than National Grid's appointed agents and contractors engaged in relation to the Project and the consultation process, and they will be required to also comply with the relevant data protection legislation in holding and processing any such data.

During all consultation periods a series of face-to-face public consultation events were held, and although these have since concluded, our appointed land agents, Dalcour Maclaren, would be happy to meet with you at your property or at any other location if that would be convenient, to discuss our proposals for the Project and answer any questions you may have.

If you have any further questions, please get in touch with us through the information at the top of this letter.

Yours sincerely

For and on behalf of National Grid Electricity Transmission plc

January 2026

Project News

Targeted Landowner Newsletter | New Persons with Interest in Land (PILS)

National Grid is seeking your feedback on our proposals for North Humber to High Marnham

The way electricity is generated in the UK is changing and we are transitioning to more secure, cleaner, home-grown energy from more affordable sources. National Grid Electricity Transmission (National Grid) therefore needs to reinforce the electricity network to connect new sources energy to homes and businesses.

North Humber to High Marnham is a proposed new 90-kilometre high-voltage overhead line between a new substation to the north of Hull, in the Creyke Beck area, and a new substation at High Marnham in Nottinghamshire. The project is part of The Great Grid Upgrade, the largest overhaul of the grid in generations and will future proof the grid for years to come.

Why are we getting in touch?

Over the last three years we've carried out non-statutory consultation between June and July 2023, a localised non-statutory consultation between July and August 2024, and a statutory consultation between February and April 2025 with communities and landowners along the proposed route. As a result of our ongoing design development, we've made some changes to the land required for the scheme. These changes mean that your land is now included within the draft order limits.

We're getting in touch with you because we want to make sure you have all the information you need about the project and the opportunity to share your views.

We'd like to hear your thoughts about our proposals. You can do this by phoning, emailing or contacting us on the information below:

Indicative project timeline

Contact Details:

Post -
The Barn, Bignell Park Barns, Chesterton, Bicester, Oxfordshire, OX26 1TD

Phone -
0333 188 3511

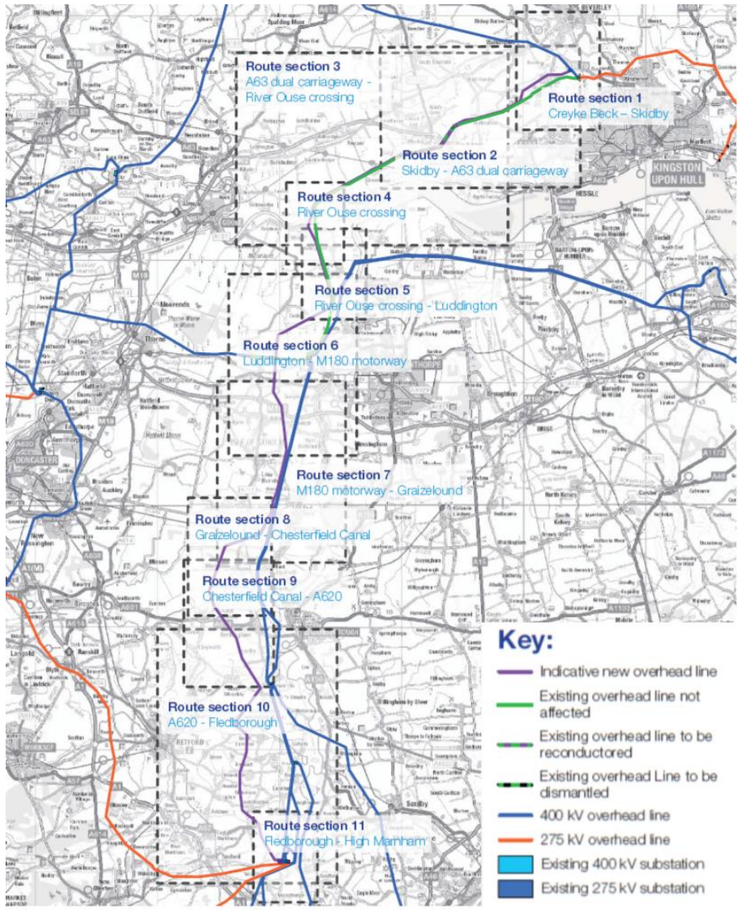

Email -
NH-HM@dalcourmaclaren.com

This targeted statutory consultation will run for 28 days, between 14th January and 11th February 2026.

nationalgrid

Our proposals:

- **approximately 90 km of new 400 kilovolt (kV) overhead line between the new Birkhill Wood and High Marnham substations**
- **replacement and realignment of a section of the existing overhead line between Brantingham and east of Broomfleet**
- **compensation and enhancement works, including for biodiversity net gain (BNG)**
- **replacement and realignment of a section of the existing overhead line between Ealand and west of Keadby**

© Crown Copyright 2024. All rights reserved. Ordnance Survey Licence AC0000808122. © National Grid UK

Figure 2: Map of Current Proposals

BNG Explained: We will be required to deliver a minimum of 10 per cent biodiversity net gain (known as BNG). This means our work needs to result in more, or better quality, natural environment than before the Project. This opens up real opportunities to use the Project to enhance our wild spaces and provide new habitats.

Draft Order Limits Explained: The Draft Order Limits form the boundary of the entire area within which the Project could take place, including temporary and permanent works as well as works to the existing infrastructure. We will provide plans showing the approximate location of towers, haul roads, compounds and other infrastructure.

View Our Online Interactive Map:

Please note, some of the material you are able to view on the project website are dated February 2025, from the launch of statutory consultation.

nationalgrid

The need for North Humber to High Marnham

With growing offshore wind generation and increased interconnection, an anticipated tripling of wind generation connected across the Scottish networks by 2030, and the Government's ambition to connect 50 gigawatts (GW) of offshore wind by 2030, north-south power flows are set to increase. If all the proposed new offshore wind that is planned to connect into the Creyke Beck area gets built, this would amount to just over 12 GW of generation capacity by the early 2030s.

The existing network serving the Creyke Beck area can export just under 7 GW of electricity while remaining compliant with the Security and quality of supply standards to which the network is operated. The network as it is today would therefore not have the capacity needed to export the significant forecast increase in contracted generation out of the area, or to accommodate the north-south power flows that are expected. Because of this, we need to increase the capability of the transmission network between the north of England and the Midlands.

Why can't the projected be routed underground?

When we need to add capacity to the electricity network, we look at all the options, including overhead lines and underground cables. Underground cables have different environmental impacts and cost much more than overhead lines. The Government expects us to keep costs on electricity bills as low as possible.

For those reasons, the national policy statement for new electricity infrastructure (EN-5) explains that government expect overhead lines to be appropriate in many cases, but not in sensitive locations like National Landscapes.

Have you considered potential environmental impacts?

Yes. From the very start of developing North Humber to High Marnham, we've been assessing potential environmental effects and looking at ways to mitigate them. Our Preliminary Environmental Information Report (PEIR) sets out what we've learned so far and explains how we propose to minimise impacts and maximise benefits. A non-technical summary of the PEIR is also available to read.

What if I have questions?

National Grid has appointed Dalcour Maclaren (DM) as the consultant land agents for the project. They will be your primary point of contact.

You will receive correspondence from Dalcour Maclaren, including maps of the proposed alignment, and you will be offered a meeting to discuss the scheme and provide any feedback.

Contact DM – although you will be contacted for a meeting, if you have urgent questions, please feel free to reach out via the details below.

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)_
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR *NORTH HUMBER TO HIGH MARNHAM*

FOR REFERENCE

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").

2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:

   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.

3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.

5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025
   on www.nationalgrid.com/nh-hm

- Project Background Document
- Feedback questionnaire
- NTS of the PEIR. Requests for paper copies of the technical documents forming the PEIR will be reviewed on a case-by-case basis
- Statement of Community Consultation

Requests for paper copies of the technical documents will be reviewed on a case by-case basis. To cover printing costs a reasonable copying charge may apply, to be paid for by the recipient and up-to a maximum value of £500 for the whole suite of consultation documents. Please get in touch with us using the details below if you would like a printed or alternative format copy of materials.

How to respond to the consultation

10. The consultation is running between Tuesday 18 February and Tuesday 15 April 2025

11. Any consultation responses or other representations in respect of the Project during the consultation period can be submitted in writing in the following ways:

    - Completing an online feedback questionnaire at: www.nationalgrid.com/nh-hm
    - Providing feedback by email (contact@nh-hm.nationalgrid.com)
    - Scanning a paper copy of the feedback questionnaire or submitting a letter or written response.
    - Returning a paper copy of the response form or a letter response by post at **FREEPOST NH TO HM** (please write this in capitals, you do not need a stamp).

12. In providing their consultation response, consultees should:

    - State in writing the nature of the response or representation;
    - Indicate who is making the response or representation; and
    - Include an address to which correspondence relating to the response can be provide

13. A printed copy of the feedback questionnaire can be requested by contacting the Project team on the details below.

14. The Applicant must receive all responses by 11:59pm on Tuesday 15 April 2025 to ensure their consideration.

15. Please note that responses are likely to be made public, but that contact/personal details will be redacted. When deciding on the final form of the proposed application for a DCO for the proposed project, the Applicant will take into account any response to this publicity or the consultation that is received before the specified deadline.

FOR REFERENCE

16. The Applicant may be required to make copies of representations available to the Secretary of State. However, the Applicant will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Project and, except as noted above, will not be disclosed to any third parties.

17. If you have any questions about the Project or the consultation, please get in touch:

Email: contact@nh-hm.nationalgrid.com
Telephone: 0800 051 4430
Freepost: FREEPOST NH TO HM (please write this in capitals, you do not need a stamp)

Volunteering in the community

Members of our project team were pleased to be able to roll up their sleeves and help out recently at The Moorlands Youth and Community Centre. Located in Goole, the Centre works with the community by providing support for people, running a local food bank service, and working with youth in the community.

The team was pleased to be able to contribute to such a valuable local resource by helping renovate some of the inside of the building, such as fitting ceiling tiles, renovating an office space, organising their pantry and clearing rooms for the community to use.

For more information about the centre, search online for 'The Moorlands Youth and Community Centre'.

If your organisation or one you know of could benefit from volunteer support from National Grid, please get in touch via email at **contact@nh-hm.nationalgrid.com**

National Grid | January 2026 Community Update

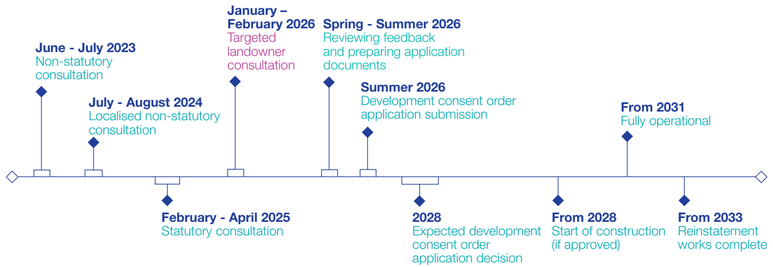

Next steps

We will carefully consider all feedback received through our current targeted landowner consultation alongside the outcome of ongoing technical and environmental assessments. We will then finalise our proposals and prepare our application for development consent. A full account of how we have considered consultation feedback will be provided in the Consultation report, which we will prepare as part of our development consent order application.

We will continue to provide regular updates, including via our project website and update newsletters, as we prepare to submit our application for development consent in Summer 2026.

Indicative project timeline

The Great Grid Upgrade

North Humber to High Marnham

Community update

January 2026

North Humber to High Marnham is a proposed new 90-kilometre high-voltage overhead line which would carry more power to homes and businesses.

As part of The Great Grid Upgrade, we are reinforcing the electricity network in East Yorkshire, North Lincolnshire and Nottinghamshire. Our plans involve building a new overhead line between a substation just outside of Hull and a substation at High Marnham, north of Newark. By doing this, we will help boost the UK's energy security through connecting secure, cleaner and more affordable energy from where it's generated to where it's needed.

Over the last three years, we have held multiple rounds of public consultation on our plans, most recently in early 2025. Thank you to everyone who has taken part in these consultations and given their feedback.

3 rounds
of public consultation

c. 1,850
people attended a consultation event

Around 1,200
consultation responses received

Since our last consultation, we have been busy reviewing your feedback and carrying out further technical and environmental assessments. In this newsletter, you can read about:

- targeted landowner consultation
- current surveys and updates for landowners
- archaeology updates
- Birkhill Wood and High Marnham substations update
- volunteering in the community
- our community benefit fund
- project next steps.

Targeted landowner consultation

Following the close of our last consultation in April 2025, our teams have been reviewing your feedback and the results of further, ongoing survey work. We have also continued to engage with potentially impacted landowners and stakeholders, such as expert transport, archaeology and environmental teams at your local council. You can find out more about some of the other updates in this newsletter by scanning the QR code using your phone or tablet.

This work has resulted in some changes to our draft order limits, which include all of the land we would need to build and operate North Humber to High Marnham. We are therefore undertaking a targeted landowner consultation on the changes.

If you are impacted by these changes, our lands team will be getting in contact with you with further information.

Current surveys and updates for landowners

Over the past few years, you may have seen members of our team out on-site along the route of the project as they carry out a range of environmental surveys. These surveys are important as they help us to understand the area around our proposals so that we can take into account of that as we develop our plans. Surveys will continue between now and the submission of our application for development consent.

While some surveys will take place on public rights of way, there will be instances where we need to access private land to carry out our work. We will always seek to agree this with the landowner/occupier where we can before the work takes place, and the members of our team carrying out survey works will always carry identification.

Archaeology surveys

Alongside our engineering and environmental surveys, we are looking into the archaeological heritage of the region. We are committed to understanding the archaeological potential of the landscape, ensuring all heritage assets are identified and protected as much as possible along our proposed route.

In autumn 2025, we started archaeological surveys along the route that will continue through the winter period. This work involves excavating trenches for investigation by specialists. The results of these surveys are being used to inform the environmental assessment and proposed design of the project. Our findings will be detailed in full as part of our development consent order application.

If you are a landowner or occupier and have questions about surveys, you can speak to our Lands team at Dalcour Maclaren. They can be contacted by:

emailing **NH-HM@dalcourmaclaren.com**

calling **0333 188 3511**

or writing to **The Barn, Bignell Park Barns, Chesterton, Bicester, OX26 1TD.**

Project benefits

Up-to 6 million homes could be powered through the energy carried by North Humber to High Marnham

Boosting energy security by helping reduce our dependence on imported gas

Helping to lower energy bills by connecting the Grid to more affordable forms of electricity

National Grid | January 2026 Community Update

Birkhill Wood and High Marnham substations update

At our last consultation in early 2025, the planning applications for both Birkhill Wood and High Marnham substations had not been submitted. We therefore consulted on both substations as part of our proposals for North Humber to High Marnham.

Since then, we have shared all feedback about the substations with each of the substation project teams for consideration as part of their design development, and further progress has been made to ensure the relevant permissions are in place.

We are pleased to say that the planning applications for Birkhill Wood and High Marnham substations have now been submitted to the relevant local planning authorities.

As a result, we have removed the Birkhill Wood and High Marnham substations and associated works from our proposals for North Humber to High Marnham. We will continue to work closely with both substation projects to coordinate our works.

National Grid | January 2026 Community Update

Have your say on community benefits for your area

In 2025, the Government published new guidance that sets out how projects like ours can deliver a lasting positive legacy through community benefit funding.

This guidance could unlock millions of pounds of funding to benefit local communities and the wider area:

£200,000 **new overhead lines could provide £200,000 of funding for every kilometre built**

Any funding would be available after the project is granted development consent and construction work has started. In the meantime, we have developed a community benefits survey to ask for your views on how any future funding could be spent. The community benefit fund on North Humber to High Marnham could be in the region of around £18 million.

We want to understand what is important to you, and where funding could deliver long-lasting benefits, including through community grant schemes and investment in community groups or via regional partnerships.

Some of the areas we think could benefit from community benefit funding include:

Better community spaces: investment in places you use every day, village halls, play parks, leisure areas, community rooms, and faster broadband. Grants to help local clubs and restore heritage sites.

Protecting nature: to reduce the impact of new infrastructure. Planting trees and hedgerows, boosting biodiversity, and creating nature areas around affected villages.

Safer, easier travel: fixing roads, adding pavements, cycle paths, bridleways, and improving rural transport options like buses and community schemes.

Local jobs and skills: to create opportunities for local people, offer apprenticeships, hire local contractors, support STEM in schools, and fund youth skills programmes.

Secure, cleaner and more affordable energy: ways to cut bills and go greener. Insulation grants, EV charge points, and community energy tariffs.

You can share your views by completing our online survey by scanning the QR code with your phone or tablet.You can also request a paper copy of the survey by emailing us at **contact@nh-hm.nationalgrid.com** or by calling us on **0808 189 1346** (Mon – Fri, 9am-5:30pm).

Completed paper surveys can be sent free of charge to **Freepost NH TO HM**.

The survey will close on **23 March 2026**, after which the project team will review the feedback received.

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 (AS AMENDED)_
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR *NORTH HUMBER TO HIGH MARNHAM*

FOR REFERENCE

1. Notice is hereby given that National Grid Electricity Transmission plc ("National Grid") of 1 – 3 Strand, London, WC2N 5EH (the "Applicant") intends to apply to the Secretary of State for Energy, Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 (the "Act") to authorise the construction and operation of the North Humber to High Marnham Project (the "Project").

2. The Project is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometers ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:

   - Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
   - Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
   - Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
   - A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
   - Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
   - A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
   - Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.
   - The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.

3. The Project will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

4. The Project is an Environmental Impact Assessment ("EIA") development, as defined by The Infrastructure Planning (EIA) Regulations 2017. An Environmental Statement will therefore be submitted as part of the application, which will contain information about the environmental effects of the Project.

5. The documents, plans and maps showing the nature and location of the Project, including the Preliminary Environmental Information Report ("PEIR") and non-technical summary (NTS), will be available to download free of charge from Tuesday 18 February 2025 until Tuesday 15 April 2025
   on www.nationalgrid.com/nh-hm

NATIONAL GRID ELECTRICITY TRANSMISSION PLC

- Project Background Document
- Feedback questionnaire
- NTS of the PEIR. Requests for paper copies of the technical documents forming the PEIR will be reviewed on a case-by-case basis
- Statement of Community Consultation

Requests for paper copies of the technical documents will be reviewed on a case by-case basis. To cover printing costs a reasonable copying charge may apply, to be paid for by the recipient and up-to a maximum value of £500 for the whole suite of consultation documents. Please get in touch with us using the details below if you would like a printed or alternative format copy of materials.

How to respond to the consultation

10. The consultation is running between Tuesday 18 February and Tuesday 15 April 2025

11. Any consultation responses or other representations in respect of the Project during the consultation period can be submitted in writing in the following ways:

    - Completing an online feedback questionnaire at: www.nationalgrid.com/nh-hm
    - Providing feedback by email (contact@nh-hm.nationalgrid.com)
    - Scanning a paper copy of the feedback questionnaire or submitting a letter or written response.
    - Returning a paper copy of the response form or a letter response by post at **FREEPOST NH TO HM** (please write this in capitals, you do not need a stamp).

12. In providing their consultation response, consultees should:

    - State in writing the nature of the response or representation;
    - Indicate who is making the response or representation; and
    - Include an address to which correspondence relating to the response can be provide

13. A printed copy of the feedback questionnaire can be requested by contacting the Project team on the details below.

14. The Applicant must receive all responses by 11:59pm on Tuesday 15 April 2025 to ensure their consideration.

15. Please note that responses are likely to be made public, but that contact/personal details will be redacted. When deciding on the final form of the proposed application for a DCO for the proposed project, the Applicant will take into account any response to this publicity or the consultation that is received before the specified deadline.

FOR REFERENCE

16. The Applicant may be required to make copies of representations available to the Secretary of State. However, the Applicant will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Project and, except as noted above, will not be disclosed to any third parties.

17. If you have any questions about the Project or the consultation, please get in touch:

Email: contact@nh-hm.nationalgrid.com
Telephone: 0800 051 4430
Freepost: FREEPOST NH TO HM (please write this in capitals, you do not need a stamp)

TEMPORARY ROAD CLOSURE FAQs

Q: Why is the road being temporarily closed?

Temporary road closures may be required to facilitate specific highway related works associated with the Project. These may include localised highway widening, the undergrounding or diversion of existing distribution network operator (DNO) apparatus within the road, and the construction of new or modified access arrangements such as bellmouths to serve offline haul roads. These works are necessary to ensure that, once completed, construction traffic can operate safely and efficiently, and that existing utilities and highway infrastructure are appropriately protected. Closures would only be used where necessary and for the shortest practicable duration, with traffic management measures designed to maintain safety for road users, local residents and construction workers.

Q: How long will the road be temporarily closed for?

Any road closures would be temporary and time limited. The precise duration would depend on the nature of the works taking place and the final construction programme, which will be developed following consent and contractor appointment. However, National Grid's representatives will be in touch shortly to share the information that we do have at this early stage. Where closures are required, advance notice will be provided, and works will be sequenced to minimise disruption.

Q: Will there be any alternative access or diversion routes?

Where a temporary road closure is required, suitable diversion routes will be identified wherever possible and clearly signed. Emergency and pedestrian access will be maintained at all times in any event, and measures will be put in place to ensure that local access, including for residents and businesses, is appropriately managed wherever reasonably practicable.

Q: Will I still be able to access my property during the closure?

National Grid recognises the importance of maintaining access to properties. Where a temporary road closure affects vehicular access to residential or commercial premises, arrangements will be made to maintain access wherever possible, or to provide suitable alternative solutions. Affected parties will be contacted in advance to discuss any specific access requirements. If you have any specific requirements, we encourage you to share them with us. Where reasonable and practicable we will work with the contractor to look to see what can be accommodated.

Q: How much notice will I be given before a closure takes place?

Advance notice of any temporary road closures will be provided in accordance with statutory requirements and in liaison with the relevant highway authority. National Grid will also seek to provide early informal notification to affected parties wherever possible once works programming is sufficiently defined. Further information on communications with residents and businesses affected by temporary road closures will be set out with the

1-3 Strand
London WC2N 5EH

T: 0800 051 4430
email: contact@nh-hm.nationalgrid.com
www.nationalgrid.com

Outline Construction Traffic Management Plan, submitted alongside the draft DCO; and will be available to view and comment upon following Acceptance.

Q: Who is responsible for approving the temporary road closures?

If granted, the DCO will contain powers to temporary close roads required for the construction of the project. The Local Highways Authority, alongside affected parties, will be given at least 28 days notice of any temporary road closure and would be implemented in accordance with applicable legislation and traffic management procedures. Any closures would also need to comply with the requirements of the Development Consent Order, if granted.

Q: Will the road be reinstated once the works are finished?

Yes. All highway works related to the construction of the project are considered temporary and will be removed near the end of the construction period. The highway will be reinstated to it's original condition (e.g. verge, hedgerow etc reinstated) in accordance with the requirements of the highway authority and applicable standards, unless otherwise agreed. In some circumstances, the reinstatement works will require the road to be temporarily closed again. This temporary closure will be approximately 3 years after the first.

Q: Does this consultation mean the temporary closure is definitely going to happen?

This consultation is being undertaken to inform affected parties of potential impacts and to allow representations to be made. Final decisions on construction methods, traffic management and the use of road closures will be made following the determination of the Development Consent Order and detailed construction planning.

Q: Why am I being consulted?

You are being consulted as a Category 3 Person with an Interest in Land because you may be affected by temporary works, such as road closures or access restrictions, even though no permanent land rights are proposed over your land / property. The Planning Act 2008 requires promoters of nationally significant infrastructure projects, such as the North Humber to High Marnham Network Reinforcement project, to consult persons who may be affected by the exercise of DCO powers. This consultation is therefore wider than just for those parties where it is proposed they will have land acquired from them or new rights over their property.

Q: Will there be compensation for disruption caused by the road closure?

Temporary inconvenience or disruption alone does not automatically give rise to compensation. However, where a person can demonstrate that they have suffered a quantifiable loss as a direct result of the exercise of powers under the Development Consent Order, they may be entitled to compensation in accordance with the Compensation Code. National Grid would encourage anyone who believes they may be entitled to compensation to seek independent advice from an appropriately qualified professional.

1-3 Strand
London WC2N 5EH

T: 0800 051 4430
email: contact@nh-hm.nationalgrid.com
www.nationalgrid.com

Q: How do I provide feedback?

You may submit representations on how the proposals could affect you and raise any concerns or suggestions for mitigation as part of the consultation process. If the Project proceeds to Examination once the application for the development consent order has been made, there will also be an opportunity to make representations to the Examining Authority.

Q: Will emergency services be affected?

No. Emergency access will be maintained at all times, and National Grid will work closely with emergency services and highway authorities to ensure that temporary traffic management arrangements do not compromise emergency response.

Q: Who do I contact if I have concerns or special requirements?

If you wish to raise any concerns, or notify National Grid of any special requirements, the Project Team can be contacted at contact@nh-hm.nationalgrid.com or on 0800 051 4430. Alternatively, you can write to:
NHHM Project Team
Freepost WSP
PO Box 75783
London
EC2P 2RT
These matters can then be discussed and, where appropriate, considered as part of detailed construction planning.

Q: Where can I find more information about the project?

Further information about the North Humber to High Marnham (NHHM) project, including consultation materials and updates, is available via the project website (www.nationalgrid.com/nh-hm) and through the dedicated project contact details provided in this correspondence.

Dear Sir/Madam

NORTH HUMBER TO HIGH MARNHAM PROJECT: STATUTORY CONSULTATION ON A PROPOSED APPLICATION FOR DEVELOPMENT CONSENT

SECTION 42, SECTION 44 and SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED) REGULATION 13 INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT) REGULATIONS 2017

National Grid Electricity Transmission plc has today launched a statutory consultation in accordance with sections 42 and 47 of the Planning Act 2008 (the "Act") for the North Humber to High Marnham Project (the "Project").

Every year National Grid ESO (Electricity System Operator for Great Britain) identifies a range of Future Energy Scenarios which represent different credible scenarios for how quickly we might make the transition to a cleaner greener energy future as we strive towards net zero by 2050. The Future Energy Scenarios inform the analysis in the Electricity Ten Year Statement, which sets out National Grid ESO's view of future transmission requirements and where the capability of the transmission network might need to be addressed over the next decade. NATIONAL GRID, the Transmission Owner for England and Wales NATIONAL GRID, then responds with solutions to address the requirements identified in the Electricity Ten Year Statement. National Grid ESO assesses and publishes its recommendations as to which proposals should proceed in a Network Options Assessment report (NOA) each year.

With growing offshore wind and interconnectors, an anticipated tripling of wind generation connected across the Scottish networks by 2030 and Government's increased ambition to connect 50 GW of offshore wind by 2030, north-south power flows are set to increase. National Grid ESO in the Electricity Ten Year Statement anticipate that the network between the North and Midlands needs to transfer as much as 29 GW of electricity by 2033, compared to 11.6 GW that it can transfer today while remaining compliant with the standards the network is operated to.

The System Operator has identified the North Humber to High Marnham project and other reinforcements in the latest Network Options Assessment (NOA) as 'HND essential' to deliver the Pathway to 2030 Holistic Network Design (HND)- connecting offshore wind needed to meet the Government's 2030 target. The System Operator also advises in NOA that the reinforcement needs to be accelerated to help meet Government's 2030 offshore wind target.

North Humber to High Marnham (the "Project") is a proposal by National Grid to upgrade the electricity transmission system between new substations near Cottingham and High Marnham. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 90 kilometres ("km") in overall length between two proposed new substations, Birkhill Wood 400kV Substation and High Marnham 400kV Substation. National Grid will consult on all aspects of the proposed development for the Project, including:

- Approximately 90 km of new overhead line between the new Birkhill Wood and High Marnham 400kV Substations
- Replacement and re-alignment of a section of the existing 400kV 4ZQ overhead line route between Brantingham and east of Broomfleet
- Replacement and re-alignment of a section of the existing 400kV ZDA overhead line route between Ealand and west of Keadby
- A new 400 kV Birkhill Wood substation, with a new permanent access. This is proposed to be a Gas Insulated Switchgear ("GIS") substation
- Replacement and re-alignment of a section of the existing 400kV 4ZR route to allow for connection into the new Birkhill Wood substation
- A new 400 kV High Marnham substation, with a new permanent access. This is proposed to be an Air Insulated Switchgear ("AIS") substation.
- Replacement and re-alignment of the existing 4ZV and XE 275kV overhead line routes and existing 400kV ZDA and ZDF overhead line routes, to allow for connection into the new High Marnham substation.

The Project will include other required works, for example, temporary diversions for works on existing overhead line routes, temporary access roads, highway works, temporary works compounds, work sites and ancillary works. The Project will also include utility diversions and drainage works. There would also be land required for mitigation, compensation and enhancement of the environment including biodiversity net gain.

The Project is sited within the East Riding of Yorkshire, North Lincolnshire and Bassetlaw districts of the East Midlands and Humber regions, routed from the most northerly components of the Project located in the Creyke Beck area, approximately 4km south of Beverley town centre, to the most southerly components in the High Marnham area, approximately 6km east of Tuxford town centre and the A1.

The Project is a Nationally Significant Infrastructure Project ("NSIP") under the Act and requires an application for development consent to the Secretary of State for Energy Security and Net Zero. The development consent being sought will include a number of other provisions, including those which authorise the compulsory acquisition of land and rights over land, if necessary, to construct and maintain the Project.

NATIONAL GRID is undertaking a statutory consultation on the proposed application in accordance with the requirements of the Act. The consultation runs from Tuesday 18th February 2025 until Tuesday 15th April 2025.

Section 42(1)(d) and Section 44 of the Act require NATIONAL GRID to consult on its proposed application with those persons specified by the Act. These persons include, for example, landowners, tenants, occupiers, or persons with other interests in land and those who may be entitled to make a claim under certain land compensation legislation should the proposed Project be constructed, and the land used for the purpose of the Project. NATIONAL GRID has identified that you fall into one of the categories of people that it needs to consult under Section 42 (1)(d) and Section 44 of the Act. As such, you will find enclosed with this letter:

- The Consultation Leaflet that NATIONAL GRID has distributed to the local community as part of the consultation being undertaken under Section 47 of the Act (if you live near the proposed site, you may have already received this leaflet in the post). The leaflet gives a high-level overview of the proposed Project as well as the community consultation that is taking place on the proposed Project;
- A Plan showing the proposed Order Limits for the Project.

We will continue our ongoing conversations with you throughout this statutory consultation and where an agent is appointed, we will ensure they are also sent a copy of this correspondence to aid conversations.

Due to its nature and size, the Project is subject to the Infrastructure Planning (Environment Impact Assessment) Regulations 2017 (the "EIA Regulations"). We are therefore carrying out an Environmental Impact Assessment ("EIA") and consulting on the potential environmental effects of the Project and suggestions for reducing these effects (for examples, through mitigation measures). This information is detailed in the Preliminary Environmental Information Report ("PEIR"). An Environmental Statement will be produced subsequently in accordance with the EIA Regulations and will accompany the application for development consent. Comments on any other aspect of the Project are also welcome.

NATIONAL GRID (as required by the Act) has prepared a Statement of Community Consultation ("SoCC") which sets out how NATIONAL GRID will undertake the statutory consultation for the proposed application with those people living and working in the vicinity of the Project. The SoCC can be viewed on the Project Website: www.nationalgrid.com/nh-hm

A copy of the full suite of consultation documents are available to view on the Project Website from Tuesday 18 February 2025 until Tuesday 15 April 2025

These include:

- Project Background Document;
- Statutory consultation feedback questionnaire;
- Copy of the newspaper notice published under Section 48 of the Act;
- 2024 Strategic Options Backcheck and Review;
- Design Development Report (2025);
- Consultation plans showing the location of the Project; and
- Statement of Community Consultation.

The above list is not exhaustive and the full suite of consultation documents are available to view on the Project Website from Tuesday 18 February 2025 until Tuesday 15 April 2025.

Paper copies of selected consultation documents will also be available by request, free of charge. Paper copies of the PEIR can be provided on request. This may be subject to a charge to cover printing and postage fees.

While no longer a statutory requirement, in addition to being available online, we will seek to ensure the Community Newsletter, Project Background Document, NTS of the PEIR, SoCC and feedback questionnaire are available to view at the following locations throughout the consultation period (subject to availability and agreement).

- Beverley Library, Champney Road, Beverley HU17 8HE. Opening hours: Monday, Wednesday and Friday (9.30am to 5pm), Tuesday and Thursday (9.30am to 9pm), and Saturday (9am to 4pm).
- South Cave Library, 97 Church Street, South Cave HU15 2EP. Opening hours: Tuesday (2pm to 5pm), Thursday (2pm to 7pm) and Saturday (10am to 12pm).
- Goole Library, Carlisle Street, Goole DN14 5DS. Opening hours: Monday and Wednesday (9:30am to 7pm), Tuesday, Thursday and Friday (9:30am to 5pm), and Saturday (9am to 4pm).
- Cottingham Library and Customer Service Centre, Market Green, Cottingham HU16 5QG. Opening hours: Monday and Tuesday (9:30am to 4pm), Thursday (9:30am to 6:30pm), Friday (9:30am to 1pm), and Saturday (9:30am to 12:30pm).
- Crowle Library, Crowle Community Hub, The Market Hall, Market Place, Crowle, North Lincolnshire DN17 4LA. Opening hours: Monday to Friday (9:30am to 12:30pm and 1pm to 5pm) and Saturday (9am to 12pm).
- Haxey Library, The Memorial Hall, Haxey, Doncaster DN9 2HH. Opening hours: Monday and Thursday (2pm to 5pm), Tuesday and Friday (9am to 12pm), and Saturday (10am to 1pm).
- Misterton Library, 31 High Street, Misterton, Doncaster, South Yorkshire DN10 4BU. Opening hours: Tuesday to Thursday (2pm to 5pm) and Saturday (9:30am to 12:30pm)
- Retford Library, Churchgate, Retford DN22 6PE. Opening hours: Monday to Friday (9am to 6pm), and Saturday (9am to 3:30pm).
- Bassetlaw District Council (Retford office), 17B The Square, Retford DN22 6DB[1]. Opening hours: Monday to Friday (9am to 5pm).
- Epworth Library, Live Well Isle of Axholme, Burnham Road, Epworth, DN9 1BZ. Opening hours: Monday to Friday (7am to 9pm), Saturday (9am to 4pm) and Sunday (12pm to 6pm)
- Gainsborough Library, Cobden Street, Gainsborough, DN21 2NG. Opening hours: Monday, Tuesday, Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm) and Saturday (9am to 1pm)
- All Saints Parish Curch, Misterton, High Street, Misterton, DN10 4AL. Opening hours: Monday to Sunday (10am to 4pm)
- Nottinghamshire Mobile Libraries. To find out when the mobile library is in your area, email ask@inspireculture.co.uk or call 01623 677 200.

[1]Bassetlaw District Council's Retford office is operating from a temporary location until late-February 2025. For more information, visit the Councils website.

Public Information Events

During the consultation period a series of face-to-face public consultation events will be head where you can speak with the Project Team.

We welcome you to attend one of our consultation events to meet the project team, ask questions and view more details of the Project:

Venue	Date	Time
Dunham on Trent Village Hall, Low Street, Dunham, NG22 0FJ	Saturday 1 March 2025	11am-4pm
Gringley on the Hill Community Centre, W Wells Lane, Gringley on the Hill, DN10 4QY	Monday 3 March 2025	1-7pm

North and South Wheatley Village Hall, Sturton Road, South Wheatley, DN22 9DL	Tuesday 4 March 2025	1-7pm
Crowle Community Hall, Woodland Avenue, Crowle, DN17 4LL	Monday 10 March 2025	1-7pm
All Saints Community Centre, Church Hill, South Cave, HU15 2EU	Friday 14 March 2025	1-7pm
Gilberdyke Memorial Hall, 11 Clementhorpe Road, Gilberdyke, HU15 2UB	Saturday 15 March 2025	11am-4pm
Garthorpe Village Hall, Shore Road, Garthorpe, DN17 4AD	Wednesday 19 March 2025	1-7pm
Epworth Imperial Hall, Chapel Street, Epworth, DN9 1HJ	Friday 21 March 2025	1-7pm
Cottingham Civic Hall, Market Green, Cottingham, HU16 5QF	Wednesday 26 March 2025	1-7pm

Printed copies of the consultation materials will be made available at consultation events for attendees to review. Attendees will also be able to take away copies of the Project Background Document and feedback questionnaire.

In addition to the consultation events, we will be holding a series of webinar sessions, where members of the Project Team will be available to answer questions. The dates and times of these sessions are as follows:

Date	Time	Topic
Tuesday 25 February 2025	6:30-7:30pm	General – Overview of the proposals
Thursday 6 March 2025	6:30-7:30pm	Route sections 1, 2 and 3
Tuesday 11 March 2025	6:30-7:30pm	Route sections 4, 5, 6 and 7
Thursday 13 March 2025	6:30-7:30pm	Route sections 8 and 9
Tuesday 18 March 2025	6:30-7:30pm	Route sections 10 and 11
Thursday 27 March 2025	2-3pm	General – Overview of the proposals

To register for a webinar or request a call back from a member of the Project Team at a time that is convenient to you, please email contact@nh-hm.nationalgrid.com or call 0808 189 1346.

Responding to the consultation

Reponses to this consultation must be received by 15 April 2025.

Responses to this consultation can be submitted using the online feedback questionnaire available at www.nationalgrid.com/nh-hm

Alternatively, you can return a printed copy of the feedback questionnaire or a free text response via email: contact@nh-hm.nationalgrid.com or post **FREEPOST NH TO HM** (please write this in capitals, you do not need a stamp).

Please get in touch with us using the details below if you would like a printed or alternative format copy of the materials.

Telephone: 0808 189 1346

Email: contact@nh-hm.nationalgrid.com

We (and any appointed agent of NATIONAL GRID) will review the proposals for the Project in light of the feedback we receive as part of this consultation and will take into account all feedback and comments received, before we make our application for development consent. The Non-Statutory Consultation Feedback Report, which forms part of the Consultation Materials summarises the feedback we received during the stage non-statutory consultation (2023) and localised non-statutory consultation (2024) and how we have had regard to comments.

We may be required to make copies of representations available to the Secretary of State. However, we will request that personal details are not placed on public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this project and, except as noted above, will not be disclosed to any third parties.

If you have any questions about the Project, please don't hesitate to contact us at the above postal or email address.

We look forward to hearing from you.

Yours

Appendix F6
Return to Sender Information

nationalgrid

Contents

F.1 Return to Sender and Unconfirmed Delivery Information F-1

F.1 Return to Sender and Unconfirmed Delivery Information

F.1.1 This appendix provides a list of all Section 42 letters that were returned to sender or confirmed as undelivered following the initial mailout for the relevant consultation period, and what action was taken.

F.1.2 Under Section 44, Persons with an Interest in Land (PILs) are split into three categories:

- Category 1: Where the applicant, after making diligent inquiry, knows that the person is an owner, lessee, tenant (whatever the tenancy period) or occupier of the land.
- Category 2: Where the applicant, after making diligent inquiry, knows that the person is interested in the land, or has power to sell and convey the land, or to release the land.
- Category 3: Where the applicant thinks that, if the order sought by the proposed application were to be made and fully implemented, the person would or might be entitled to make a relevant claim:
  - As a result of the implementing of the order;
  - As a result of the order having been implemented; or
  - As a result of use of the land once the order has been implemented.

F.1.3 National Grid also identified PILs that had the potential to be defined as Statutory Undertakers. Statutory Undertakers are defined in Section 127(8) of the Planning Act 2008 by reference to Section 8 in the Acquisition of Land Act 1981.

F.1.4 All notified PILs were given at least 28 days to respond to the consultation, beginning with the day after the day on which they received consultation documents.
