1. Introduction

1.1 Purpose of this Document

1.1.1 This Book of Reference (BoR) accompanies an application for development consent (the application) by National Grid Electricity Transmission plc (National Grid) under the Planning Act 2008 (the Act) for the North Humber to High Marnham Project (the Project). If made, the Development Consent Order (DCO) would grant consent for National Grid to construct, operate and maintain the Project.

1.1.2 The Project is defined as a Nationally Significant Infrastructure Project (NSIP) under s14(1)(b) and s16 of the Act and the Planning Act 2008 (Nationally Significant Infrastructure Projects) (Electric Lines) Order 2013, as it involves the installation of a new electric line above ground for more than 2 km, which would operate at 400 kV in England.

1.1.3 A full description of the Project is provided in **Application Document 6.4 Environmental Statement Chapter 4 Description of the Project**.

1.1.4 This BoR has been prepared and submitted in compliance with Regulation 5(2)(d) and Regulation 7 of The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (as amended) (the APFP Regulations), and in accordance with the Department for Communities and Local Government guidance Planning Act 2008: Guidance Related to Procedures for Compulsory Acquisition of Land (Department for Communities and Local Government, 2013).

1.1.5 This BoR is to be read in conjunction with the **Application Document 2.3 Land Plans, Application Document 2.14 Special Category Land Plans and Application Document 2.15 Crown Land Plans** submitted under Regulations 5(2)(i) and 5(2)(n) of the APFP Regulations. These plans identify:

- All of the land within the Order Limits required for and directly affected by the authorised development;
- Land which may be acquired permanently under the compulsory acquisition powers within the Order Limits;
- Land that will be subject to compulsory acquisition powers to acquire permanent rights;
- Land where temporary use powers may be exercised;
- Where the land is special category land; and
- Crown land.

1.1.6 This BoR forms part of a suite of documents accompanying the application submitted in accordance with section 55 of the Act and the APFP Regulations and should be read alongside the other application documents that relate to the compulsory acquisition powers sought by National Grid and the need for the Project, including:

- **Application Document 1.3 Guide to the Application;**
- **Application Document 2.14 Special Category Land Plans;**

- **Application Document 2.15 Crown Land Plans;**
- **Application Document 2.3 Land Plans;**
- **Application Document 2.4 Works Plans; and**
- **Application Document 4.1 Statement of Reasons.**

1.1.7 The Order Limits has been split up into six sections and each section has been given a letter (A to F) as a means of identification. The project sections start at the north end of the Project (Birkhill Wood) leading to the south (High Marnham).

1.1.8 This BoR is divided into five parts as prescribed by Regulation 7(1) of the APFP Regulations and the Order Limits is identified by numbered entries, with each entry relating to a colour plot on **Application Document 2.3 Land Plans**. The five parts of the BoR are as follows:

- Part 1 contains the names and addresses for service of each person within Categories 1 and 2 as set out in Section 57 (categories for purposes of section 56(2)(d)) of the Act in respect of any land which it is proposed shall be subject to powers of compulsory acquisition; rights to use land, including the right to attach brackets or other equipment to buildings; or rights to carry out protective works to buildings.
- Part 2 contains the names and addresses of service of each person within Category 3 as set out in section 57 of the Act.
- Part 3 contains the names of all those entitled to enjoy easements or other private rights over land (including private rights of navigation over water) which it is proposed shall be extinguished, suspended or interfered with.
- Part 4 specifies the owner of any Crown interest in the land which is proposed to be used for the purposes of the Order for which application is being made.
- Part 5 specifies land, the acquisition of which is subject to special parliamentary procedure; which is 'special category land' for the purposes of sections 131 and 132 of the Act; and which is replacement land.

1.1.9 Each of the five parts is described in Chapter 2 of this BoR, together with a brief commentary on how the requirements in the APFP Regulations and the related definitions in the Act have been interpreted and applied to the collation of each part of this BoR.

1.1.10 Each plot is numbered uniquely so that the prefix of the plot number relates to the project section letter (A-F) and land plan sheet number on which the plot appears. For example, plot number A1-004 is in project section A, and on sheet 1. In instances where plots fall across two sections, they are lettered and numbered based on the sheet on which they first appear. For example, plot number B8-121 first appears on sheet B8 and so is named based on that sheet even though it actually falls within project section C.

1.1.11 All plot area measurements in this BoR are approximate, as these measurements are given in square metres, and each measurement is rounded to the nearest whole square metre (no decimal place).

1.1.12 **Application Document 2.3 Land Plans** shows the Order Limits and the numbered plots within the DCO and the Order Limits that are listed in the sections of the BoR. Each plot is coloured. The colouring serves to differentiate the type of rights or

powers sought for each given plot within the Order Limits which corresponds to the respective interest, right or power to be compulsorily acquired or used. There are instances where a plot may have more than one type of interest, right or powers sought. Where two types of interest, rights or powers are sought over a given plot (such as temporary use during construction, as well as permanent rights to operate and maintain the works), the plot is coloured according to the higher power required.

1.1.13 The only exception to this is in the instance of Class 4 (Compulsory Acquisition of Rights – Environmental Mitigation). In these cases, if there is another class of rights within the same plot, both colours are shown with the Class 4 orange shown as hatched. For example, plot A1-046 is shown as green with orange hatch signifying the land is required for Class 2 (Compulsory Acquisition of Rights – Overhead Line) and also Class 4 (Compulsory Acquisition of Rights – Environmental Mitigation). The class of rights are set out in Table 2.1.

1.1.14 The powers sought over each plot are also set out in the BoR's second column, setting out the class of rights required for compulsory acquisition or temporary use over each area of land.

2. Description of the Book of Reference Parts

2.1 Introduction to the Book of Reference Parts

2.1.1 This chapter describes each of the five parts of the BoR in more detail, together with a brief commentary on how the requirements in the APFP Regulations and the related definitions in the Act have been interpreted and applied to the collation of each part of this BoR. The tables containing the detail of each part follow.

2.2 Part 1 of the Book of Reference

2.2.1 Part 1 of this BoR lists all the plot numbers within the Order Limits which are shown on **Application Document 2.3 Land Plans**. Part 1 contains names and addresses for service for every person who is known, after making diligent inquiry, to be an owner, lessee, tenant or occupier of the plot (known as Category 1 interests) or, is interested in or, has the power to sell, convey or release the land (known as Category 2 owners).

2.2.2 A person is within Category 1 if National Grid, after making diligent inquiry, knows that the person is an owner, lessee, tenant (whatever the tenancy period) or occupier of land; see section 57(1) and 57(7) of the Act.

2.2.3 A person is in Category 2 if National Grid, after making diligent inquiry, knows that the person (see s57(2) of the Act):

- Is interested in the land; or
- Has power:
  - To sell or convey the land; or
  - To release the land.

2.2.4 This includes mortgagees and beneficiaries that may have an interest in the land to which the application relates.

2.2.5 The land identified is comprehensively described and, as required by Regulation 7(1)(a) of the APFP Regulations, includes all the land identified in the Order Limits that is proposed to be subject to:

- Powers of compulsory acquisition;
- Rights to use land, including the right to attach brackets or other equipment, including to buildings; or
- Rights to carry out protective works to buildings.

2.2.6 National Grid has taken the approach of seeking powers of compulsory acquisition (or acquisition of rights) in respect of all plots of land required permanently for the Project, even where it already holds an interest or presumes it holds an interest in the land. This approach has been taken to ensure that it has the right to acquire the appropriate interests it needs within the Order Limits even if an unidentified owner later asserts an interest in land which National Grid believes it holds an interest.

2.2.7 By virtue of Article 38 (extinguishment and suspension or private rights) and Article 39 (power to override easement and other rights) of the Order, all or any rights exercisable over or in respect of the Order Limits will be extinguished or overridden insofar as they may interfere with the construction or use of the authorised Project. These are subject to Article 41 (extinguishment of private rights and restrictive covenants relating to apparatus belonging to National Grid, NGED, NPG or BT removed from land subject to temporary possession).

2.3 Part 2 of the Book of Reference

2.3.1 Part 2 of this BoR is required by Regulation 7(1)(b) of the APFP Regulations to contain '*the names and addresses for service of each person within Category 3 as set out in section 57* (of the Act)'. A person is within Category 3 if, National Grid thinks, having made diligent inquiry, that they would or might be entitled to make a relevant claim as a result of implementing the Order, or as a result of the Order having been implemented, or as a result of the use of land once the Order has been implemented. A 'relevant claim' is defined in the section 57(6) of the Act as meaning:

- A claim under Section 10 of the Compulsory Purchase Act 1965 (compensation where satisfaction is not made for the taking, or injurious affection, of land subject to compulsory purchase),
- A claim under Part 1 of the Land Compensation Act 1973 (compensation for depreciation of land value by physical factors caused by the use of public works), or
- A claim under Section 152(3) of the Act where land is injuriously affected by the carrying out of the authorised works.

2.3.2 Where a person has an interest under Category 3 (i.e. those that would or might have a relevant claim) within the Order Limits (and therefore within a plot), the person is included and listed with the relevant plot number. Where a person has an interest outside the Order Limits, but it is National Grid's opinion that they should be included in Part 2 (as potentially being entitled to make relevant claim as above), the person is listed against the relevant work number from which the claim may emanate.

2.3.3 Land interests in this section are defined through either their associated land plot(s), their vicinity to works (but outside of the Order Limits) or both.

2.4 Part 3 of the Book of Reference

2.4.1 In accordance with Regulation 7(1)(c) of the APFP Regulations, Part 3 lists the names of all those entitled to enjoy easements or other private rights over land (including private rights of navigation over water) which it is proposed may be extinguished, suspended or interfered with as a consequence of the authorised development. This will include some interests listed in Part 2.

2.5 Part 4 of the Book of Reference

2.5.1 In accordance with Regulation 7(1)(d) of the APFP Regulation, Part 4 of the BoR specifies the owner of any Crown interest in the Order Limits which is proposed to be used for the purpose of the Order for which application is being made, and which includes land belonging to the government departments. 'Crown land' is defined in section 227 of the Act and includes interests belonging to government departments among other Crown interests.

2.5.2 As a result of diligent inquiries, National Grid has identified one Crown interest, plot A16-035, and one reputed Crown interest, plot A16-034, belonging to The King's Most Excellent Majesty In Right Of His Crown. Crown land and reputed Crown land is shown on **Application Document 2.15 Crown Land Plans**.

2.6 Part 5 of the Book of Reference

2.6.1 In accordance with Regulation 7(1)(e) of the APFP Regulations, Part 5 specifies land:

- the acquisition of which is subject to special parliamentary procedure;
- which is special category land;
- which is replacement land

and, for each plot of such land within which it is intended that all or part of the proposed development and works shall be carried out, the area in square metres of that plot.

2.6.2 Land required for the Project which is special category land is listed in Part 5 of the Book of Reference and shown on the **Application Document 2.14 Special Category Land Plans**. **Application Document 4.1 Statement of Reasons Appendix C Special Category Land Report** sets out further details in respect of special category land, replacement land and land subject to special parliamentary procedure.

2.7 Book of Reference Notes

2.7.1 Part 1 of this BoR provides the area in square metres of each plot of land included in the Order Limits of the DCO.

2.7.2 The term ‘approximately’ is used before all plot area measurements because the draft DCO (Article 2(4)) requires all areas described in square metres in the BoR to be read as being approximated. This is because these measurements are given in square metres and each measurement is rounded up to the nearest whole square metre.

2.8 Classification of Interests, Rights and Powers

2.8.1 The powers conferred by the Order to acquire interests and rights and to use land will be exercisable by National Grid in respect of the authorised development, Northern Powergrid in respect of Northern Powergrid (NPG) works, National Grid Electricity Distribution (NGED) in respect of NGED works and British Telecommunications (BT) in respect of BT works (the terms ‘National Grid’, ‘authorised development’, ‘Northern Powergrid’, ‘Northern Powergrid works’, ‘National Grid Electricity Distribution’, ‘National Grid Electricity Distribution works’, ‘British Telecommunications’ and ‘British Telecommunications works’ are defined in the Order). Accordingly, each part of the BoR sets out the respective interest, right or power to be acquired, extinguished, or used, by National Grid and acquired or used by NPG, NGED or BT in relation to each parcel of land. The interests, rights or powers are described by reference to the classes in Table 2.1. Some of the classes of interests, rights or powers include other classes as set out in Table 2.1. For instance, if National Grid may acquire Class 2 powers over a parcel of land (Compulsory Acquisition of Rights – Overhead Line), it may exercise Class 6 powers (Temporary Use of Land for Access) as well. This gives National Grid the ability to acquire or exercise a lesser right or power where appropriate.

2.8.2 National Grid's interest, right or power is set out first in column 2 of Parts 1-5 with NPG's interest, right or power set out second; NGED's interest, right or power set out third; and BT's interest, right or power set out fourth. Where a zero is entered this means that either NPG, NGED or BT, as the case may be, will have no right of compulsory acquisition or use over that parcel of land. For example, a reference '2/5/0/0' means that within that referenced plot, National Grid may exercise the Class 2 powers (and any subordinate powers), NPG may exercise the Class 5 powers (Temporary Use of Land for Construction, Maintenance, Dismantling and/or Decommissioning of Redundant Infrastructure) (as their class is listed second and reads 5) and NGED and BT may not exercise any powers (as their class is listed third and fourth respectively and reads 0). Where plots are required for Class 4 in addition to another class, the dual requirement is set out in brackets. For example, plot A1-046 which is shown on **Application Document 2.3 Land Plans** as being green with orange hatched is listed in column 2 of the BoR with 2(4)/0/0/0. This means that National Grid requires Class 2 (Compulsory Acquisition of Rights – Overhead Line) and Class 4 (Compulsory Acquisition of Rights – Environmental Mitigation) and NPG, NGED and BT will have no powers over that plot.

2.8.3 Government guidance in relation to the compulsory acquisition of land under the Act states, at paragraph 10 of Annex D, '*The book of reference should also cross-refer to the relevant articles in the development consent order*'. For the purpose of this BoR, the relevant articles contained in the draft DCO have been set against the acquisition of various interests and rights and the power to use land temporarily as shown in Table 2.1 below, thereby informing the reader as to the relevant articles engaged in the DCO.

2.8.4 For the purposes of this BoR, the acquisition of various interests and rights and the power to use land temporarily for various purposes have been classified as set out in Table 2.1 below.

Table 2.1 – Classification of acquisition and temporary use of land and rights

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
Class 1 Compulsory Acquisition of Land	Article 23	Brown	Acquisition of all interests and rights in the land.	Classes 2, 3, 5 and 6
Class 2 Compulsory Acquisition of Rights – Overhead Line	Article 24	Green	Acquisition of rights by the creation of new rights and imposition of restrictions for the purposes of using, maintaining, repairing, renewing, upgrading, inspecting, removing, replacing and decommissioning the High Voltage Electricity Transmission Line, together with the acquisition of existing rights or benefits of existing restrictions: a) With or without vehicles, plant and equipment from the surface, water, or from the air to enter and oversail the land to lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the authorised development, (including the removal of materials including spoil) in, under, over and/or on the land, together with such telemetry and fibre-optic lines; b) To fly over, use on, and recover from the land, robots, helicopters, drones, gadgets or similar devices either remote controlled or autonomous, including for the purposes of construction, inspection and maintenance and decommissioning; c) With or without vehicles, plant and equipment to enter and oversail the land to remove any buildings, structures, pylons, apparatus, equipment, and vegetation on or from that land; which may obstruct or	Classes 3, 5 and 6

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
			interfere with the rights sought by the undertaker for the authorised development; d) With or without vehicles, plant and equipment to enter and oversail the land to access any adjoining land for the purposes of the authorised development; e) With or without vehicles, plant and equipment to enter and oversail the land, airspace and any watercourse to exercise the rights over and across the land; f) Carry out such works (together with associated fencing) required by a planning permission and/or consent now or to be granted over the land and/or in accordance with any necessary licences relating to protected species and/or wildlife; g) Construct, install, use, retain, maintain, inspect, modify, improve, adjust, repair, replace, extend, test, cleanse and remove any drainage systems and manage waterflows in any drains or watercourses; h) Install underground land drainage systems of any kind in the land and connect to any existing drainage systems already in existence in the land; i) To require the landowner not to do or suffer anything to be done upon the land which may interfere with or cause damage to the authorised development, including without limitation impose clearance restrictions to the authorised development; j) Carry out any other works, including environmental mitigation, necessary or expedient to the land as listed in Schedule 1 of the Order; and	

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
			k) To carry out any activities ancillary or incidental thereto. 2. Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order Limits to: a) Prevent anything to be done in or upon the land or any part thereof for the purpose of the erection of any buildings or construction, erection or works of any kind (including the foundations or footings thereto and save as works required for the authorised development); b) Prevent anything to be done by way of hard surfacing of the land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development); c) To prevent anything to be done by way of excavation of any kind in the land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities; d) To prevent the planting or growing within the land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not	

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
			cause damage to the relevant part of the authorised development nor make it materially more difficult or expensive to access the relevant part of the authorised development); e) To prevent anything being done which may interfere with free flow and passage of electricity or telecommunications through the cables or support for the authorised development; f) To prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development; and g) To prevent any activity which would in the reasonable opinion of the undertaker result in the disturbance of ecological mitigation areas or areas of habitat creation including any ploughing or grazing without the prior written consent of the undertaker.	
Class 3 Compulsory Acquisition of Rights – Access	Article 24	Blue	Acquisition of rights by the creation of new rights and the imposition of restrictions for using, maintaining, repairing, renewing, updating, inspecting and removing the operational and maintenance access routes, together with acquisition of existing rights or benefits of existing restrictions: a) Pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials from the surface, from the water or from the air to enter and oversail the land for the purposes of the works, the inspection, testing, maintenance, renewal, upgrading, replacement and removal of the cables and connection into any adjacent cables and associated	Classes 5 and 6

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
			works, to take plant and equipment on to adjoining land and make such investigations in or on the land which is ancillary for the purposes of exercise of the rights; b) To construct, use, maintain and improve a permanent means of access including to and over visibility splays, and retain, maintain, straighten, widen, repair, alter, upgrade and use existing access routes for the purposes of accessing the land, adjoining land and highway; c) To remove any buildings, structures, pylons, apparatus, equipment, and vegetation including trees, hedges and bushes from that land; d) Fell, lop, cut, coppice wood, uproot trees or hedges or shrubs which now or hereafter may be present on the land for the purpose of enabling the right to pass and re-pass to adjoining land; e) Place and use plant, machinery, structures and temporary structures within the land; f) To require the landowner not to do or suffer anything to be done upon the land which may interfere with the undertaker's access; g) Construct, install, use, retain, maintain, inspect, modify, improve, adjust, repair, replace, extend, test, cleanse and remove any drainage systems and manage waterflows in any drains or watercourses; h) Erect and remove temporary fencing, gates, walls, barriers or other means of enclosure; i) Lay out temporary paths and bridleways for public use as temporary diversions for public rights of way which are interfered with during any period in which	

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
			construction, maintenance, repair, renewal or decommissioning is being carried out; and j) To carry out activities ancillary thereto.	
Class 4 Compulsory Acquisition of Rights – Environmental Mitigation	Article 24	Orange	Acquisition of rights by the creation of new rights and the imposition of restrictions for the purposes of using, maintaining, repairing, renewing, upgrading, inspecting, removing and replacing the environmental and landscape mitigation: a) Install, execute, implement, retain, repair, improve, renew, remove, relocate and plant trees, woodland, shrubs, hedgerows, seeding and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs, bushes, grasses or flora and fauna of any kind, carry out landscaping and implementing of wetlands; b) Install, execute, implement, retain, repair, improve, renew, relocate, maintain and carry out mitigation, maintenance, remediation works for new environmental or ecological mitigation works or landscape mitigation; c) Carry out such works (together with associated fencing) required by a planning permission and/or consent now or to be granted over the land in accordance with any necessary licences relating to protected species and/or wildlife; d) To require the landowner not to do or suffer anything to be done upon the land which may interfere with the landscape or ecological works or activities and the ongoing existence and maintenance of those works or activities, or do or allow to be done	Classes 5 and 6

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
			anything that may cause the land to no longer fulfil the biodiversity purpose identified. 2. Restrictive covenants A restrictive covenant over the land for the benefit of the remainder of the Order Limits; a) Not to undertake any activity which in the reasonable opinion of the undertaker would result in the disturbance of fauna or funa benefitting from the landscape or ecological mitigation area; and b) Not to, without the undertaker's consent, cut, fell, lop, remove, plough or graze the landscape or ecological mitigation area during the period within which the undertaker is bound by any consent to maintain that landscape or ecological mitigation area or areas.	
Class 5 Temporary Use of Land for Construction, Maintenance, Dismantling and/or Decommissioning of Redundant Infrastructure	Articles 27, 28, 29, 30 and 31	Pink	The power to enter on and take temporary possession of the land including to: a) Construct temporary works (including the provision of means of access), compounds and laydowns with or without artificial lighting, mitigation works including planting in support of new environmental mitigation or for enhancement of existing environmental areas, soil storage and bunding and drainage works, and construction of buildings, structures, apparatus or equipment on land; b) Pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials from the surface, from the water or from the air to enter and oversail the land for the purposes of the temporary works;	Class 6

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
			c) Construct, use, maintain, improve and remove means of access including construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging, culverting or diversion of watercourses and private drains, sewers, or ponds during any period which construction is being carried out; visibility splays and bell mouths and use existing access routes for the purposes of accessing the land, adjoining land and highway; d) To fly over, use on, and recover from the land robots, helicopters, drones, gadgets or similar devices either remote controlled or autonomous; e) Remove, discharge and dewater from the land and to construct, install, use, retain and remove temporary drainage and manage waterflows in any drains, watercourses and culverts; f) Install underground land drainage systems of any kind in the land and connect to any existing drainage systems already in existence in the land; g) Install, execute, implement, retain and remove temporary ecological and environmental measures; h) Install, execute, implement, retain and remove temporary environmental or ecological mitigation or enhancement works, and the installation of temporary barriers for the protection of fauna; i) Erect and remove temporary fencing, gates, walls, barriers or other means of enclosure;	

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
			j) Lay out temporary paths and bridleways for public use as temporary diversions for public rights of way which are interfered with during any period in which construction, maintenance, repair, renewal or decommissioning is being carried out; k) Place and use plant, machinery, structures and temporary structures within the land, and to erect temporary signage and provide measures for the benefit of public and personnel safety; l) Remove, modify or to install any overhead electric lines, poles, pylons, masts, telecommunications lines, buildings, structures, equipment or underground cables, pipes, conduits and apparatus on or within the land; m) Erect scaffolding and any crossing protection structure along with any stays, poles, anchors, earthing, fencing, signage, or anything required to make safe on the land; n) Remove vegetation including trees, hedges, bushes, foliage, crop or grasses, including herbaceous grasses or greenery on the land; o) Create boreholes, trial excavation pits, archaeology trenches and any other which survey breaks ground for the purposes of intrusively surveying the land, to keep in place and monitor the same through construction, maintenance repair, replacement or decommissioning and to reinstate the land; p) Construct any works specified in relation to that land in column (2) of each part of Schedule 10 of the Order (land of which temporary possession may be taken), or any other mitigation works;	

Class	Relevant article in Order	Colour on land plans	Description of class	Subordinate class(es)
			q) Carry out any other works to the land which are necessary or expedient and listed in Schedule 1 of the Order; r) To carry out activities ancillary thereto.	
Class 6 Temporary Use of Land for Access	Articles 27, 28, 29, 30 and 31	Yellow	The power to temporarily enter land for access including to: a) Access with or without vehicles, plant and equipment at all times over the land; b) Remove any electric lines, electrical plant, buildings, structures, pylons, apparatus, equipment and vegetation from that land; c) Create and use such access and to carry out such other works as may be necessary to create such access; d) With or without vehicles, plant and equipment to enter the land to remove any apparatus, equipment, and vegetation on or from that land; which may obstruct or interfere with the visibility splay rights sought by the undertaker for the authorised development; e) Erect, use and remove temporary fencing signage and traffic management equipment and provide measures for the benefit of public and personnel safety; f) To carry out any activities ancillary or incidental thereto.	None
