Denmark's comments to the proposed Morven Hawthorn Pit Grid Connection Project

The Agency for Green Transition and Aquatic Environment have read the material on Environmental Impact Assessment Scoping Report and have the following remarks.

The Agency for Green Transition and Aquatic Environment would like to remark that marine mammals inhabiting the Danish Nature 2000 areas are through telemetry data been observed traveling from Denmark to areas outside the coast of Great Britain. The Agency for Green Transition and Aquatic Environment therefore request that the environmental assessment on Morven Hawthorn Pit Grid Connection Project regarding marine mammals includes assessment on influence on the Danish marine mammal populations.

The Agency for Green Transition and Aquatic Environment's would like to follow the further process on Environmental Impact Assessment on the Morven Hawthorn Pit Grid Connection Project.

Best regards
