Subject: Esso Pipeline Project Issue Specific Hearings
Date: 24 October 2019 12:19:53

Dear Examining Authority,

Esso Southampton to London Pipeline Project
Interested Party: Nick Jarman, reference: 20022545
Submitted in response to the requirements to meet Deadline 1

Further to my request for an Open Floor Hearing, I also request that I be allowed to attend and speak at the closed Issue Specific Hearings for the project.

Yours faithfully

Nick Jarman

With reference to the Queen Elizabeth Park, Farnborough, section of the project.

I submit my request for an Open Floor Hearing on the subject of the route and impact on Queen Elizabeth Park, including on mitigation proposals.

1. The loss of trees and vegetation in the park, to discuss the extent and the mitigation of this.
2. The planned installation techniques and the justification on why directional drilling is not proposed.
3. Comparison of the effects of the methods used to install the existing pipelines with the methods proposed for the new one.
4. Suitability of auger boring as a technique for crossing the A325, considering the space required in the park for the launch pit.
5. Non-suitability of the park as a construction compound and possible haul route.

I request that this hearing be held at an accessible time and an accessible location for the local residents.

Yours faithfully

Nick Jarman
