**Application by the Esso Petroleum Company, Limited for an Order Granting
Development Consent for the Southampton to London Pipeline Project**

Your ref: EN070005

Dear Sir/Madam

Please find attached 3 pdf files pertaining to our petition to save Queen Elizabeth Park in Farnborough, in relation to the proposed plans for the Southampton to Heathrow pipeline.

The first file contains 1124 signatures which were collected from local residents in paper form. The second file contains 5079 signatures collected via an online petition through Change.org.

(www.change.org/p/rushmoor-borough-council-save-queen-elizabeth-park-in-farnborough) The third file contains the comments left on the online petition by the people who have signed it.

The petition was started by myself on the 1st of October 2019 and the total as of 12.00 on the 13th of November is **6203**.

The number of signatures on the petition and the speed with which they were gathered shows the strength and feeling of local opposition to the planned route through the park and the inevitable long term damage it will cause. The hundreds of comments we have received also highlight the fact that the vast majority of people do not object to the pipeline itself, and would support a different route using more considerate installation techniques which would significantly reduce the potential damage to the park.

We hope that you will take into consideration the significant opposition of the plans in their current form and that Esso will agree to a route and installation techniques that the people of Farnborough can support.

Yours sincerely

Peta Howell

penny macleod	brighton, England, UK	2019-10-02	"We play in this park. Not many beautiful spots left in Farnborough."
Peta Howell	Farnborough, England, UK	2019-10-02	"This park is the heartland of farnborough and one of our few remaining wooded green spaces within the town. To see it needlessly destroyed in what would be a cost saving exercise would be a travesty."
Natalie Gladman	Basingstoke, England, UK	2019-10-02	"Rushmoor BC and our MP must represent Farnborough residents properly- with a commitment to ensure that this global giant does not ruin one of the few beautiful places left in Farnborough. It's clear that these proposals are purely aimed at lowering costs - with no genuine care or concern for the implications. RBC, Leo Docherty - support residents first, not big business. I hope you remember who votes you into these positions and look after Farnborough's interests first."
Cressie Helmer	Biggin Hill, England, UK	2019-10-02	"Trees are our oxygen? No contest, of course I am going to sign."

Steven Woodward	Paris, France	2019-10-02	"Well done Esso - not sure this approach really sits with your environment charter. You should be ashamed, but hey what's one more tree when you have share holder revenue targets to meet and a supportive local planning system, that doesn't care about irreversible climate damage and a few bats, woodpeckers etc. https://www.esso.ca/en/environment "Reducing environmental impacts while pursuing reliable and affordable energy" - yeah right, you make sick. Green space should be just that, well unless you live in Rushmoor of course...."
Kel Stevenson	Portsmouth, UK	2019-10-02	"I love the park"
Jackie Allnutt	Lyndhurst, England, UK	2019-10-02	"Farnborough is so populated, healthy and communal areas like this should be kept for everyone to enjoy."

Hazel Tiffany	Camberley, England, UK	2019-10-02	"With so few green spaces like this, the area should be preserved!"
Andrea Hay	Headley, England, UK	2019-10-02	"We should not be further exploiting fossil fuels but certainly there should be no environmental destruction."
Mark Vizard	Farnborough, England, UK	2019-10-02	"I believe this is wanton destruction of a valuable natural area which is a valuable amenity for the local community."
Sara Dance	Farnborough, England, UK	2019-10-02	"We are lucky enough to live very near to this delightful park and it is a beautiful and peaceful place to walk, sit and play. My children spend hours climbing, walking and playing, throughout the changing seasons. An alternative option needs to be found. We should be planting more trees, not cutting them down!"
Louise Punchard	Farnborough, England, UK	2019-10-02	"I enjoyed this park as a child and now go there with my son. The play area is always popular and well used, and we always go on a nature ramble through the woodland too. To think that Esso are considering destroying it is very upsetting, there is nowhere else like it nearby. My son is upset as he thinks the wildlife we see there will be killed. We might as well just keep our kids indoors if it's destroyed. It's very built up around there, and Queen Elizabeth Park is the only green space."
Martin Soane	Farnborough, England, UK	2019-10-02	"As a child I used to play in the park for many hours a week and feel that any loss of the historic trees would be a massive loss not only to the community now but for the next generation of the children of Farnborough and would seriously ask Esso to reconsider the approach of open ditches and opt for the less intrusive tunnel method.. I mean if TFL and cross rail can dig through London I'm sure that Esso as a company could choose the same route and not opt for the cheaper more destructive option of open trenches."
Rachel Hewson	Farnborough, England, UK	2019-10-02	"I visit this park every single day and knew nothing of these plans. It seems like it has been kept a secret to minimise the likelihood of residents of disagreeing with what is proposed."
Wendy Wingham	Aldershot, England, UK	2019-10-02	"Please rethink other options. The area is heavily built-up and we need to preserve these precious trees. I used to play there as a child, my children played there, had walks and picnics, endless hours of fun and peace and tranquility, safely away from increasingly busy traffic; and it's a well used park that would be sorely missed. Just think about the future implications of its loss, that is all I ask of Esso."
Janice Beresford	Woking, England, UK	2019-10-03	"Janice beresford"
Chris Oldfield	Frimley, England, UK	2019-10-03	"This green space gives a valuable home to insect and animal life in this small corner of Farnborough. It is also a wonderful area to walk and enjoy a little quiet time."

Laura Donnelly	Eversley, England, UK	2019-10-03	"With the current environmental concerns any loss of trees is not sensible as areas of parkland are reducing while the number of houses in area and people wanting to use them increasing this parkland needs to be retained"

Although it is a relatively small park, Its proximity to housing estates gives it a perfect opportunity for people of all ages to enjoy all the attributes of the park, be that the play area for the young, or a scenic path throughout for casual walkers to athletic types."
Sue Clark	Farnborough, England, UK	2019-10-04	"This wasn't what was said at the beginning. You cannot leave the park with such a huge amount of open space and loss of trees. Also, it is in the interests of Rushmoor Borough Council to ensure our natural spaces are protected. The failure to challenge this option, as I see it, is not exactly meeting the commitment of our council to its residents and the environment. A detailed ecology report is required pre planning, to ensure that woodland form ecological perspective is put back into better condition that it was pre-planning work consent. The ecological academic calculation is it is OK to lose a tree, but tree must be replaced after completion of construction work by more than the ecological value of that tree. I.e, Removing 1 historical tree, should be replaced by 1 new tree, + creation of other wild life habitats, I.e, + 1 plant, and that the new tree and new plant should encourage, back, create habitat to bring back or encourage new wild life to that place, i.e new tree should be of a type that will bring back 1 bird of a type that no longer visits that park or 1 type of bee or butterfly no longer found in that area. I.e, 1 historic tree = replaced by, 1 X new tree, 1 X new plant, that encourages habitat for 1 x additional bird & 1 x additional wildlife/insect. This kind of thinki"

			indeed a graceful lady! On leaving the park we were met by campaigners who are trying to save the trees within QEP from Destruction by Esso who apparently need 30 metres of the park to lay a Pipeline. I did further research on Esso's website (http://www.slpproject.co.uk) and found that the size of the pipe is 12 inches in diameter! It begs the question to Why Esso require 30 metres to lay a 12" pipe and why do they need to Fell so"

It is unthinkable that just because this town doesn't sit within a national park or SANG that it is perfectly acceptable to bulldoze the lot. It isn't acceptable. This is the only ancient wooded park in the local area and was given over to the people for their use many many years ago. ESSO need to return it the way they found it with as little disruption as possible. ESSO if you are going to do a job do it properly and STOP cutting corners."
