Dear karl,

Thanks for email.

I only just got it. It went into Spam box.

We would like the inspector to visit home Farm in February .

There is no public land.

The pipe line will cause lots of problems and we just had a very expensive drainage scheme in stalled.

We remember when the old pipe was installed. It took the land ten years to recover from the works.

Do I need to attend the opening of the examination?

We await your reply,

Regards,

Colin Rayner

Dear Mr Rayner,

Thank you for your email enquiring whether there will be an Accompanied Site Inspection (ASI) at Home Farm on the 26th of November 2019. I can confirm that the Examining Authority (ExA) does not intend to visit this location on the 26th of November 2019.

Home Farm might be included in the ASI planned for February 2020.

If you wish the ExA to include Home Farm in the February ASI, could you give us a brief description of what you would like them to inspect and whether it can be seen from public land.

Kind regards
