24th February 2025

Dear Sir/ Madam,

H2 Teesside – Planning Inspectorate Ref: EN070009: Update on Engagement Between Industrial Chemicals Ltd (Interested Party Ref: H2TS-AFP166) and Applicant Team

1. We write to provide an update on our liaison with the Applicant following our previous letter dated 18th December 2024, on behalf of Industrial Chemicals Ltd (ICL), with a view to agreeing protective provisions relating to ICL's access rights to its Port Clarence site.
2. As set out in our previous correspondence, ICL requested further information and details on the proposed works on 16th December 2024 and the Applicant's responses to these queries was received on 10th January 2025.
3. This position allowed for protective provisions to be included in a draft Side Agreement, which was circulated by the Applicant on 5th February 2025. The terms of the Side Agreement have been reviewed by ICL and its legal representatives, and proposed amendments were sent to the Applicant for consideration on 21st February 2025.
4. Should the Applicant be in a position to agree to the requested amendments, the Side Agreement could be completed relatively quickly, noting that the Examination is due to conclude on 28th February 2025. However, it may be that the Side Agreement is concluded following the Examination's closure. If so, we would propose to provide a post-Examination update once the Agreement has progressed further and trust this would be acceptable.
5. Please note that, until a suitable Side Agreement has been finalised, ICL will need to maintain its holding objection to the DCO.
6. We would be grateful if you could confirm receipt of this submission.

Yours faithfully
