**Section 51 Advice Log
Version: 11 November 2024**

There is a statutory duty under [section 51 \(s51\) of the Planning Act 2008](#) for the Planning Inspectorate to record the advice that it gives in relation to an application or potential application, and to make this publicly available.

This document comprises a record of the advice that has been provided by the Inspectorate to the applicant (enfinium Limited) and their consultants during the pre-application stage. It will be updated by the Inspectorate after every interaction with the applicant during which s51 has been provided. The applicant will always be given the opportunity to comment on the Inspectorate's draft record of advice before it is published.

The applicant will use this Advice Log as the basis for demonstrating regard to section 51 advice within the application.

Inspectorate comments on the Programme Document

- The Applicant must ensure that the Programme Document (PD) is hosted and maintained on the Applicant's website.
- It would be helpful for the PD to have a diagram setting out the key milestones during the pre-application stage, to accompany the written information set out in the PD;
- The Applicant anticipates October 2025 for its submission date. It would be helpful if the Applicant could keep the Inspectorate updated on any potential change to the specific date referenced in the appended PDF 'Programme' – currently 30 October 2025.
- It would be helpful if the PD could provide approximate timescales for project update meetings with the Inspectorate. It would also be helpful to list any future meetings with key stakeholders to enable those parties to deploy resources effectively.
- The PD does not provide any timescales for the submission of draft documents for the Inspectorate's review, or confirmation of what documents will be submitted. If applicable, the PD should be updated to provide an accurate date for this submission, allowing a six-week period for the Inspectorate's review, ensuring sufficient time before the application submission date to demonstrate regard to the Inspectorate's comments.
- The PD does not provide any timescales for the Adequacy of Consultation milestone (AoCM). The pre-application guidance sets out that the AoCM should be early enough to enable applicants to consider how to take any additional engagement that may be needed, but sufficiently towards the end of the pre-application stage to assess the adequacy of consultation that has been done, therefore no later than 3 months before the intended date for the submission of the application.
