13th June 2024

Dear Sir/Madam,

to the west of the River Aire and the east of the A1(M) - EIA Screening Opinion Request Application by enfinium Limited (the Applicant) for an Order granting Development Consent for the Ferrybridge Carbon Capture and Storage (the Proposed Development)

The proposal refers to the installation of post combustion Carbon Capture and Storage (CCS) and compression equipment serving Ferrybridge 1 Energy from Waste Facilities (EFW).

The site boundary shows that the development site is located close to the town of Knottingley in the administrative area of Wakefield Metropolitan District Council (WMDC). Yorkshire Water's (YW) statutory mapping record suggests the application site is remote from any wastewater or clean water assets.

YW has no comment to make regarding the scope of any Environmental Statement.

Yours faithfully

**Francis Davies
Pre-Development and Planning Manager**
