

APPENDIX C2 – Documents Referred to in the DCO

This DCO document library contains a list of the plans and documents that are directly referenced in the recommended DCO. This is provided because some documents were amended or corrected during the course of the examination.

It is intended to assist the Secretary of State in reviewing the DCO, and is not a definitive list of certified documents. Each includes the first article of the DCO in which the document is referenced, and a link to the document on the Planning Inspectorate website.

To aid navigation the submissions have been arranged in the general order in which they appear in the DCO.
