

A14 Cambridge to Huntingdon Examination Library

Last Updated – 30.11.2015

This examination library relates to the A14 Cambridge to Huntingdon Improvement Scheme. The library lists each document that has been submitted to the examination by any party and documents that have been issued by the Planning Inspectorate. All documents listed have been published to the National Infrastructures pages of the Planning Portal and a hyperlink is provided for each document. A unique reference is given to each document; these references will be used within the Report on the Implications for European Sites and will be used in the Examining Authority's Recommendation Report. The documents within the library are categorised either by document type or by the deadline to which they are submitted.

Please note the following:

- This is a working document and will be updated periodically as the examination progresses.
- Advice under Section 51 of the Planning Act 2008 that has been issued by the Inspectorate is published to the National Infrastructure Website but is not included within the document library as such advice is not an examination document.
- This examination library contains references to documents received by the Planning Inspectorate on behalf of the Secretary of State from the point of submission on 06 January 2015.
- The order of documents within each sub-section is either chronological, numerical, or alphabetical and confers no priority or higher status on those that have been listed first.

TR010018 – A14 Cambridge to Huntingdon**Examination Library - Index**

Category	Reference
<u>Application Documents</u> (as submitted, any amended version to be saved under the deadline received)	APP-xxx
<u>Adequacy of Consultation responses</u>	AoC-xxx
