### Project description –

The A38 is the strategic route from Birmingham to Derby and through to the M1 at Junction 28. It carries a high volume of north-south strategic traffic. Where the A38 passes through Derby, this traffic is intersected and intensified by a large number of trips making local journeys. This conflict results in congestion and delays at the three existing at-grade roundabout junctions to the west and north of Derby City Centre.

The scheme comprises the following works:

- Grade separated flyover at Little Eaton roundabout
- Grade separated underpass at Markeaton roundabout
