- Flowing water

**AECOM surveys**

- Survey area
- Protected / notable fish recorded
- Suitable donor site for fish

N

A38

River Derwent

Little Eaton Junction

Dam Brook -
Brook lamprey, bullhead and brown trout recorded

Watermeadows Ditch:
- Brook lamprey recorded.
- Considered a suitable donor waterbody for brook lamprey, three-spined stickleback and stone loach from Dam Brook (due to Dam Brook realignment as required by the Scheme).
- Not considered a suitable donor waterbody for trout, bullhead and perch from Dam Brook due to poor habitat suitability and water quality. It is proposed that these latter species be relocated into the River Derwent.
