Ref:

Dear Name,

THE LAKE LOTHING THIRD CROSSING, LOWESTOFT: CONSULTATION ON PROPOSED TRAFFIC REGULATION MEASURES

Suffolk County Council consulted last year on our proposal to submit an application under section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order ("the Proposed Application") to authorise the construction, operation and maintenance of a new bascule bridge highway crossing of Lake Lothing in Lowestoft, Suffolk known as the Lake Lothing Third Crossing, Lowestoft, Suffolk ("the Project").

That consultation material set out our proposal to close Durban Road to vehicular traffic at its junction with Waveney Drive as part of the Project. We received a number of comments on these proposals, following further traffic assessments and engagement, we are proposing to include some traffic regulation measures in the Proposed Application to mitigate the effects of this closure, and particularly to ensure that safe access to Durban Road for larger vehicles can be maintained.

Attached to this letter is a plan of the proposed traffic regulation measures, which seek to restrict parking in certain areas on Kimberley Road, Notley Road, Durban Road and Kirkley Run. These proposals seek to provide a statutory basis for some existing advisory parking measures on Notley Road and to enforce the Highway Code Rule 243¹, which prohibits parking within 10m of a junction and on bends.

We also propose to create an area of hardstanding (within the highway boundary) on the corner of Notley Road and Durban Road to provide off-road parking spaces in front of properties 119 to 115 Notley Road.

Your comments

We would like to hear your views on these developed proposals. You can send in any comments between 19 April 12.01am and 18 May 11.59pm using the following methods to respond:

¹ <https://www.gov.uk/guidance/the-highway-code/waiting-and-parking-238-to-252>

- By email: lakelothing3rdcrossing@suffolk.gov.uk
- By phone: 0345 603 1842 (open Mon-Fri 8:30am-6pm)
- By post: using the enclosed freepost envelope

Please note this consultation is specifically about the updated proposal for Kimberley Road, Notley Road, Durban Road and Kirkley Run. Any representations made during this period will be considered and included in our Consultation Report that will be submitted as part of our Development Consent Order Application, which will be considered by the Secretary of State during the Public Examination process later this year. Further information about this process and how representations can be made are available on the Planning Inspectorate website at: <https://infrastructure.planninginspectorate.gov.uk>

For more information on Lake Lothing Third Crossing visit
www.suffolk.gov.uk/lakelothing3rdcrossing

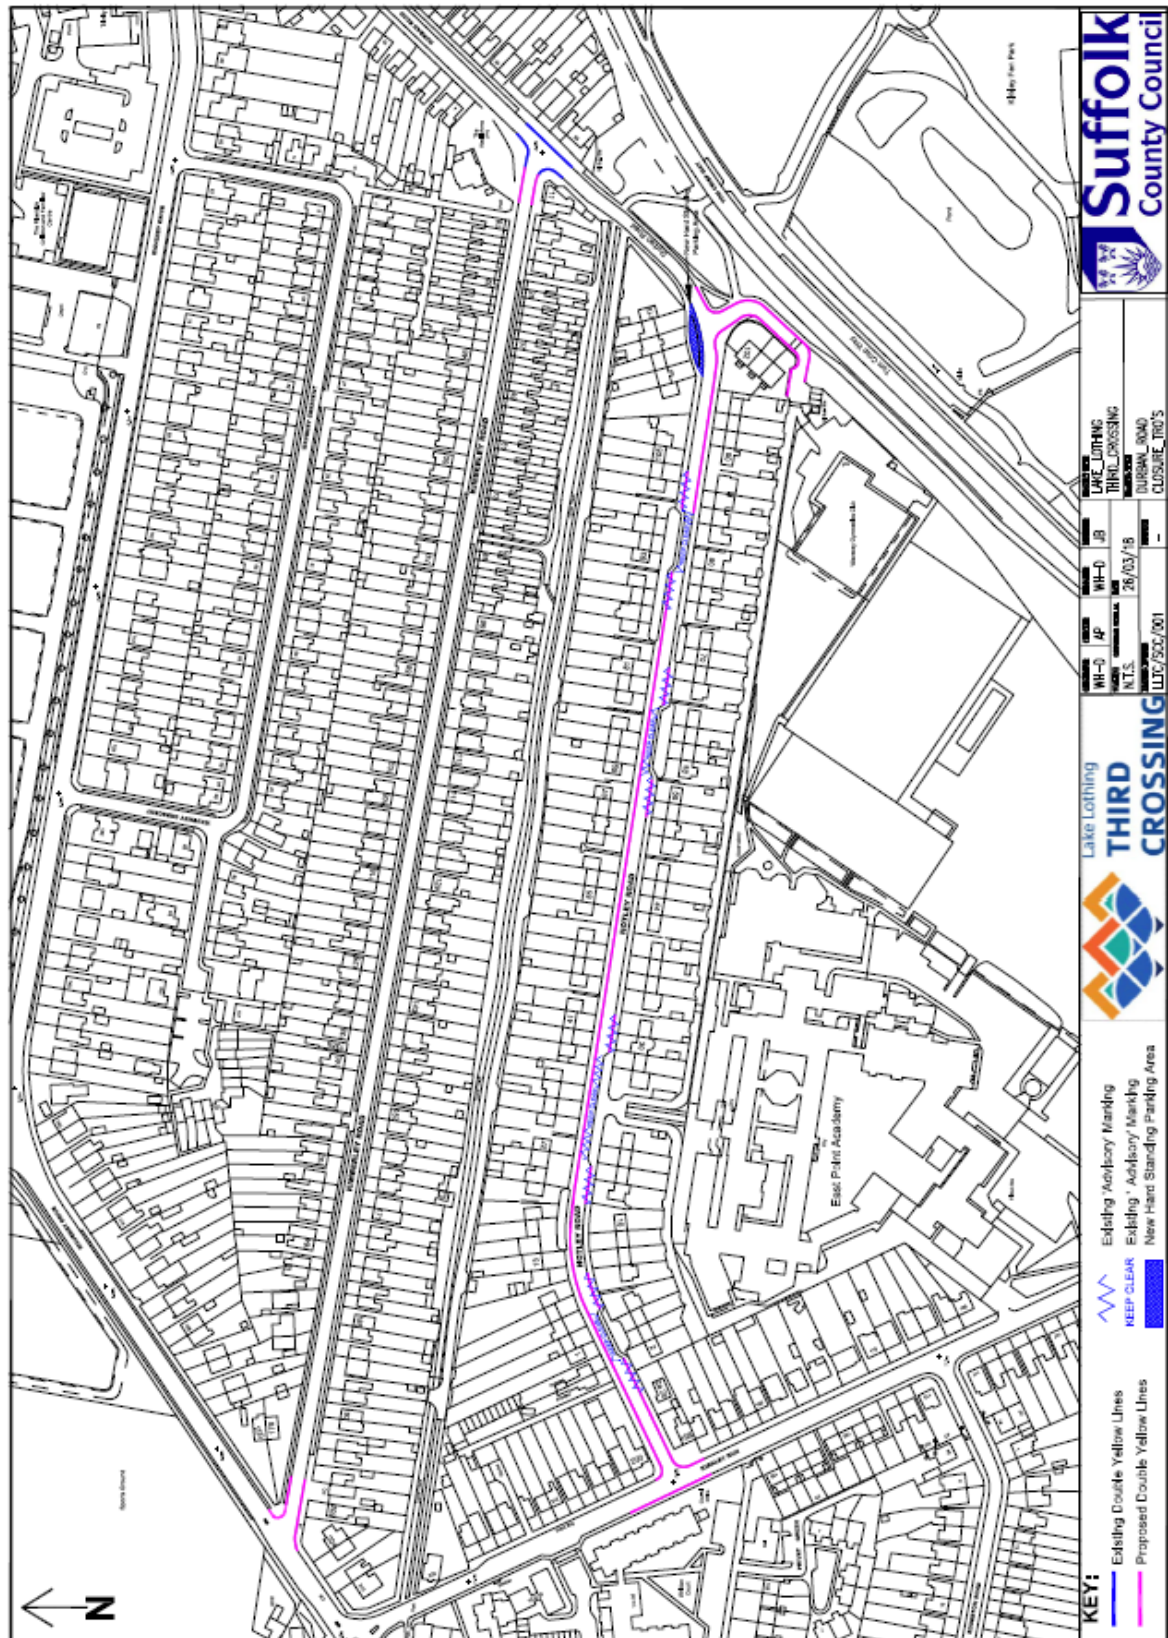

If you have any questions or require any additional information, please do not hesitate to contact us using the details above.

Yours sincerely,

Jon Barnard
Project Manager, Lake Lothing Third Crossing

Enc.

Dear Sir/Madam

THE LAKE LOTHING THIRD CROSSING, LOWESTOFT: CONSULTATION ON PROPOSED TRAFFIC REGULATION MEASURES

Suffolk County Council consulted last year on our proposal to submit an application under section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order ("the Proposed Application") to authorise the construction, operation and maintenance of a new bascule bridge highway crossing of Lake Lothing in Lowestoft, Suffolk known as the Lake Lothing Third Crossing, Lowestoft, Suffolk ("the Project").

That consultation material set out our proposal to close Durban Road to vehicular traffic at its junction with Waveney Drive as part of the Project. We received a number of comments on these proposals, following further traffic assessments and engagement, we are proposing to include some traffic regulation measures in the Proposed Application to mitigate the effects of this closure, and particularly to ensure that safe access to Durban Road for larger vehicles can be maintained.

Attached to this letter is a plan of the proposed traffic regulation measures, which seek to restrict parking in certain areas on Kimberley Road, Notley Road, Durban Road and Kirkley Run. These proposals seek to provide a statutory basis for some existing advisory parking measures on Notley Road and to enforce the Highway Code Rule 243RD, which prohibits parking within 10m of a junction and on bends.

We also propose to create an area of hardstanding (within the highway boundary) on the corner of Notley Road and Durban Road to provide off-road parking spaces in front of properties 119 to 115 Notley Road.

Your comments

We would like to hear your views on these developed proposals. You can send in any comments between 19 April 12.01am and 18 May 11.59pm using the following methods to respond:

- By email: lakelothing3rdcrossing@suffolk.gov.uk
- By phone: 0345 603 1842 (open Mon-Fri 8:30am-6pm)
- By post: using the enclosed freepost envelope

Please note this consultation is specifically about the updated proposal for Kimberley Road, Notley Road, Durban Road and Kirkley Run. Any representations made during this period will be considered and included in our Consultation Report that will be submitted as part our Development Consent Order Application, which will be considered by the Secretary of State during the Public Examination process later this year. Further information about this process and how representations can be made are available on the Planning Inspectorate website at: <https://infrastructure.planninginspectorate.gov.uk>

For more information on Lake Lothing Third Crossing visit www.suffolk.gov.uk/lakelothing3rdcrossing

If you have any questions or require any additional information, please do not hesitate to contact us using the details above.

Yours sincerely,

Jon Barnard
Project Manager, Lake Lothing Third Crossing

Enc.

Lake Lothing Third Crossing consultation on traffic regulation proposals

Consultation on proposed traffic regulation measures in certain areas of Kimberley Road, Notley Road, Durban Road and Kirkley Run, Lowestoft.

In order to resolve an existing traffic issue and help maintain suitable access for larger vehicles in the Durban Road area of Lowestoft, some new parking restrictions are being put forward.

The majority of these are replacing some existing advisory markings that are currently being abused.

Suffolk County Council is seeking to restrict parking in certain areas on Kimberley Road, Notley Road, Durban Road and Kirkley Run, prohibiting parking within 10 metres of a junction and on bends.

To reduce the impact and potential for displaced cars Suffolk County Council is also proposing to create an area of hardstanding on the corner of Notley Road and Durban Road to provide off-road parking in front of 119 to 115 Notley Road.

These proposals are being made as a result of the proposal to construct a large roundabout and close Durban Road, shown during Suffolk County Council's Lake Lothing Third Crossing consultation last year.

- [Download details of the proposed traffic regulations measures](#) (PDF, 425KB)

These proposals have been sent to those who live near the proposed changes.

The consultation runs from 12am on **19 April 2018** until **midnight on 18 May 2018**.

All representations will be collected and submitted as part of Suffolk County Council's Consultation Report, which will form part of the Development Consent Order application, which is required to deliver the project.

The full application, including these proposals, will be considered by the Planning Inspectorate through a comprehensive Public Examination later this year and the outcome from this will determine if we can implement our proposals.

Responses to consultation

External reference	Comments
DR-01	Having new parking on Notley Road will simply move the problem elsewhere. I propose a one way system, that I have marked on the enclosed map, that would not cause parking issues
DR-02	<p>1. Notley Road is not a very wide road but it is a busy road at times. On several occasions I have nearly witnessed an accident because drivers speed through without any thought of oncoming traffic.</p> <p>2. There are no parking spaces for residents now, so when the top of Notley Road has double yellow lines on both sides of the road, the people who live there will be using the limited spaces we have outside our houses. Nearly every household has at least 2 cars and the parking is not good now, resulting cars being parked on the yellow chevrons and the pavement. The proposal is to put double yellow lines on the chevrons also, which will result in even less parking.</p> <p>3. The road gets thinner in several places (traffic has to give way to the opposite direction), assuming to slow down the traffic. If these were removed and the road made the same width all the way down, this would result in a lot more parking spaces.</p> <p>4. To slow down traffic, speed bumps could be put in place, which would result in less accidents waiting to happen, as currently it is a death trap, especially on the bends.</p> <p>5. There are spaces outside resident's houses that have trees and bushes growing. The trees are overgrown and out of control because nothing is ever done with them. I have contacted the council several times for them to do something, as yet nothing has happened. If these trees were removed, or at least cut right down, this would create a space outside resident houses, which could be used for parking without creating any problems for others.</p> <p>6. Another option to be considered is that Notley Road can only be accessed one way, cutting down traffic and avoiding accidents.</p> <p>If none of the above is possible, perhaps permission could be given for front gardens to be transformed into driveways and the curbs lowered for access.</p>
DR-03	<p>I would like to propose that London Road South at the junction of the A12 is made into a cul-de-sac getting rid of the traffic light system near Notleys/Levington Court. This will be essential to ensure a continuous flow of traffic in the town. By making the junction a dead end it will mean people can use Mill Road and either Belvedere Road or the third crossing and if one is up those traffic lights would not hinder the flow of traffic as they currently do.</p> <p>Secondly please hurry up and build it, we are all eager! will it be named, as it is not very catchy calling it the third crossing.</p>

DR-04	<p>Living at the junction of Durban road, Kimberley road and Notley road for over 20 years i have seen this area become more congested and more and more used as a shortcut. Add this to peoples perceived driving skills and complete lack of respect when it comes to parking in the area, i found the idea that double yellow lines would help quite worrying. My own humble opinion on the closure of Durban Road alternatives are quite simple and seem quite obvious for the area and the traffic that uses these roads regularly which includes large delivery trucks and coaches to the Gymnasium.To make Kimberley road and Notley road one way streets Kimberley road would be one way with direction of travel west to east as the Waveney drive junction is very safe and allows cars to not interfere with traffic flow while waiting to turn into Kimberley road. Majority of residents already park on one side of the road and traffic can travel down without pulling onto paths to avoid oncoming trafficNotley road would be one way with direction of travel east to west as coaches to the gymnasium would find it easier to navigate in and out of the junction. Leaving Notley road at the Kirkley run junction would give residents the choice left to town or Oulton Broad or turn right to the High school or relief road.No entry signs at the west end of Notley road would keep traffic moving on Kirkley run.The residents of Notley road do have paved rear alleys and access for off road parking but this does not happen. The parking regulations are not enforced in Lowestoft therefore making double yellow lines just decoration.With both streets becoming one way the large unnecessary kerbs that are in Notley road could be removed allowing more parking on one side of the road.</p>
DR-05	<p>Will the proposed extra double yellow lines on Notley Road be patrolled. If they aren't then i think you'll find they will be ignored.</p> <p>Regarding the Kimberley Road Waveney Drive junction. I feel that just the addition of double yellow lines wouldn't be sufficient to improve this junction. It would become a much busier junction with the increased amount of traffic heading to and from the new bridge (traffic that would have otherwise have used Oulton Broad bridge). In addition there are the plans for new homes on the Boulton & Paul site which will increase traffic, and of course extra traffic that would use the junction that previously would have used the Durban Road exit. With the possible queue of traffic waiting to exit Kimberley Road, having to make a 135 degree turn to go right (which more people will be doing to use the new bridge) and traffic having to make that same tight turning into Kimberley if coming from the East I can see this leading to problems. Traffic exiting to the right of Kimberley are likely to be more in the middle of the road positioning for a sharp right hand turn, thus leaving less room for traffic turning into Kimberley coming from the east and having possibly to use more than one side of the road to get round if they're in anything larger than a small car.</p>
DR-06	<p>I just need clarification on the paragraph which says ... restrict parking in certain areas of Kimberley Road</p>

DR-07	<p>In theory I like what I see however will the new regulations be enforced? We have not seen a patrolling Police Officer or a PCSO for over a year so even now where there are parking restrictions i.e. the zigzag markings most people ignore them now. I really like the idea of the double Yellow lines at the junctions I have always thought they should be there as it can be quite dangerous sometimes getting out of Notley Road and getting with Kirkley Run. Also another thought you might like to consider is making Notley Road and Kimberley Road a one way system, say Notley Road one way West to East and Kimberley Road one way East to West. And again I still cannot see the benefit of closing off Durban Road, at the moment it is in a Four way junction with Traffic Lights so why should it not continue to be part of a Four Way Junction with a Round about?</p>
DR-08	<p>Resident wanted it noted that he feels no one has listen at the previous meetings and even read the proposals put forward in the process up to this point, as all this proposal is going to do is cause chaos and mayhem.</p> <p>Resident noted that the path between Kimberley Road and Notley road, could be extended to reach Kirkley run. Once extended make this one way to Kirkley and then Kimberly Road one way to the Durban, which could improve the flow of traffic. He also noted the open land at and in-between these areas should be utilised for parking and the large grass verges can be taken back 75% for more resident parking space with this not impacting on path uses, if you measure this area there would be enough room for mobility scooters / Prams still.</p> <p>With this bridge taking traffic away from the town centre, it is going to be murder trying to get out of Kimberly, the volume of traffic will increase 200%. Traffic lights will most likely be needed to control this road. If we full tarmac that stretch in-between and remove the bollards so people from Kimberly could get through, this would be a good way of getting onto that roundabout from Kirkley. (The other improvement from this being utilised is the Dustcart could easily get down here for their collections as they reach the back of the garden easily.</p> <p>Resident mentioned creating a slip road on and off Durban to Tom Crisp way to relieve some off the pressure that may be created, there used to be a road from Durban to Kirkley Fen Park, but this was scraped when Tom Crisp Way was introduced.</p> <p>Resident stated that it was clear this was just a cheap option which was not really thought about as there was 0 goods things in this proposal. He would like a reply and a possible meeting with someone on site (Like a walk around) to explain what can and can't be done in this area,</p>
DR-09	<p>I would like to make a comment reference the additional double yellow lines at the junction of Kimberley Road and Durban Road. At the present time parking in Kimberley Road is very difficult, there are so many cars that need to park at this end of Kimberley Road, due to the fact that the houses are terraced and do not have any garages, that some cars have to park round the corner in Durban Road, if we lose more parking spots, where do we park? We have room at the rear of the houses that back on to Notley Road, but due to the fact that if we leave our cars on that path or verge they are regularly vandalised at nights.</p>
DR-10	<p>Before Yorkshire Building Society can properly assess the situation, I would be obliged if you could provide us with the details of the property/ properties over which we hold a charge that will be affected by the proposed Order.</p>

DR-11	I have been unable to trace the mortgage account to which this relates. Under the circumstances, I would respectfully suggest, that you resubmit your request, furnishing me with as much information as you are able, in order that I may trace the account in question. I trust that this clarifies the situation and look forward to hearing from you in due course.
DR-12	We are returning the correspondence to you, as we are unable to locate the securities to which you refer to or the customers on our records. To assist me in my search I would be grateful if you could supply me with any additional information you may have: 1. Customer(s) full name, Current address including post code 2. Copies of any previous correspondence from Lloyds Bank concerning this matter 3. Copy of the land registry information documents showing the banks charge. Thank you for your assistance and I look forward to hearing from you shortly.
DR-13	Unfortunately, we are unable to deal with your enquiry/ request as we have been unable to locate the mortgage account number.
DR-14	No comments, only original letter sent back with received stamp
DR-15	Thank you for your enquiry regarding work at the above location. I enclose a copy of our above referenced drawing, marked to show the approximate position of plant owned and operated by Virgin Media.
DR-16	I have no objections to these proposals. I will be little affected as I walk or cycle into town.
DR-17	There is not enough parking on Notley Road at the moment. By adding the double yellow lines this is going to reduce the amount of parking. This is going to cause more parking issues. The main issue at the moment is the road needing resurfacing and boy races and fast motorbikes. Speed humps needed.
DR-18	It will reduce parking on Notley road so I might not be able to park my car anywhere near my home.
DR-19	I'm concerned about the double yellow line you are proposing here. I'm disabled and struggle to get from car to my house now and could not get from Durban road to mine. Even if the yellow line isn't outside my address everyone else will be parking there, so denying me access to my property.
DR-20	I have some serious concerns on how this would affect parking on my street- the addition of double yellow lines to the junctions would be great but to expect the huge number of cars currently parked daily on Notley road to simply disappear is a little naïve. Has a survey been done of how many cars are parked on the road daily? How many spaces are available in the proposed plan? What is the plan for any excess cars? I have a disabled child with a blue badge who needs to be able to be safely get in and out of the house and these measures would add a lot of pressure to our parking situation. Kirkley Run would need to become resident permit parking only if this went ahead. It would be a good idea to look at opening up the end of Hawthorne Avenue to relieve some of the visitor parking to those roads on the Whittington estate that are not easily reachable. I really hope you will take these points into consideration as this will have a severe quality of Life impact upon my family and potentially impact the saleability of my house

DR-23	<p>I do not think that the measures have been thought through- There will not be sufficient parking space for the residents of this road, leading to overspill onto kirkley run which is already difficult for buses and traffic to navigate. I feel that the proposed measures are a quick fix that will only cause further problems. It seems that it is acceptable to remove our parking spaces as we are council tenants as the largely private Kimberly Road remains unaffected. The current parking is unpoliced with cars left on the zig zag markings and parked on the pavement which will only get worse when the majority of the road is double yellow lines. It would be better to remove the paved traffic calming narrow areas from when the school entrance was on this road and return the road to two lanes- allowing us all to park our cars and traffic to flow smoothly. This would also solve the problems of the large flower beds being not looked after and looking very scruffy. If the local authority is of the opinion that we should use the rear alleyways to park they will need clearing and keeping clear as they are full of hazardous wastes and fly tipping and despite reports being made nothing is ever done to clear these areas. I think there are good workable solutions but a proper look at the area and its uses needs to be done</p>
DR-26	<p>My interpretation of the proposals is that the junction will remained closed to motor traffic but parking restrictions will be imposed for Kimberley Road, Notley Road, Durban Road and Kirkley Run. If my interpretation is correct, and I imagine in practice "larger vehicles" means predominantly delivery vehicles, I understand the rationale and agree with the proposals.</p> <p>That said, I urge Suffolk County Council and Waveney District Council/East Suffolk District Council to consider urging local companies and retailers, particularly supermarkets, to consider cargo bikes for local deliveries, particularly bearing in mind they can be electric bikes. Albeit not in Lowestoft, some companies do it, finding it saves money and offers better customer service as it 'beats' congestion. Sainsbury's is currently experimenting with it. Not only would it make it easier for the roads in question it would also help ease congestion in Lowestoft more generally.</p>

DR-27	<p>1. As you drive out of the top of Notley Road (Kirkley Run End) I think the double yellow lines should be extended further round to the right of Notley Road, as if traffic is parked close to this junction (which it always is) it is very difficult to see to get out of Notley Road as the view is obscured..</p> <p>2. I cannot see the logic in putting double yellow lines as proposed, along the length of Notley Road. This is going to make it very difficult for vehicles to pass on what is already a very narrow road. Also the lack of proposed parking will cause issues. I am not sure if you have had a committee visit Notley Road but If so did they visit during the day in the week (when the road is less busy) or did they visit at a weekend or of an evening when the road is full of cars, where there are parking issues already? In addition on a Saturday morning we get most of the traffic from Waveney gym which is a nightmare as it is. With fewer passing places on this road this is an accident waiting to happen. Particularly at the speeds some of the vehicles go.</p> <p>3. Can you tell me if you have considered making the two Roads a one way system so traffic travels East down Notley Road and West up Kimberley Road (or vice versa), as this would save a lot of traffic issues including the problem of passing cars. If this has been considered can you advise why this has been dismissed?</p> <p>4. It seems odd to me that Kimberley Road will have very few parking restrictions imposed given the fact that:</p> <ul style="list-style-type: none"> a. It is a much wider Road than Notley Road b. Most of the properties down Kimberley Road (I would say 80%) have access to front driveways for parking. <p>Or could this be to do with the fact that there is a lot of social housing on Notley Road so the residents there don't really matter??? If I could see a logic to the plans I wouldn't be thinking this way but quite frankly I can't see any logic what so ever.</p>
DR-29	<p>I currently park on the area just outside my house when I can (sometimes I have to park away from this area due to no spaces). Will the parking spaces being created outside numbers 119-115 be for the occupiers of those houses, if so, will they be clearly marked? My concern is, if not, And, with the proposed parking restrictions, that parking within the area outside these houses will become very difficult for the residents. Also, we may want to apply for a dropped kerb in the future, like some residents have done on our street, to enable us to park our vehicle safely on our property, would this be viable? I look forward to your response.</p>
DR-30	<p>We have a couple of suggestions to make regarding the information indication on the map.</p> <ul style="list-style-type: none"> A. Policing or checking that local residents are actually abiding by the restrictions will need to be enforced as people in general do not always respect the restrictions of double yellow lines. Perhaps a fine of £20 would deter these offenders. B. The proposed new hardstanding parking area in front of properties 119 to 115 Notley road would be a good idea, but should not be used for parking, only to assist with the timing in and out of the entrance to the gym as this is often a problem. Have no parking in this area. C. Consider making the parking area for the residents referred to in (B) and other close to the gym, which could also be accessed by gym visitors on the land opposite 115-119, which we have marked in yellow on the enclosed map. D. Take part of the corner off, marked in red on the map to provide easier access for vehicles into and out of Waveney Gymnastics club. This will also improve turning and safety around 115-119 Notley road.

DR-32	<p>I live near the section of road that is made into one lane and the way people park near this section makes this a dangerous area.</p> <p>They park half on the path half off it so it's a tight squeeze for cars to fit though.</p> <p>Some days I have to be careful when I walk off my property as cars park on the path blocking me and my two children in (one is disabled other has mental health issues).</p> <p>We have been told to climb over our wall before as cars parked up against our gates (yes I have a drive way which is my only access on and off my property for walking plus no car) also my Daughter age 10 has an electric scooter as she has fatigue.</p> <p>With this I agree to double yellow lines and parking tickets.</p> <p>With regards to the hard standing area that will be taken up by Waveney gymnasium club parents who don't like using the car parks on club grounds so park her there and everywhere else including on the path blocking the elderly/disabled people's bungalows at the bottom.</p> <p>Something needs to be done in this road ASAP as it is also a major road used by 3 schools East point academy high school, Phoenix St. Peter Primary and Red Oak Primary School.</p>
