Dear Right Honourable Anne-Marie Trevelyan MP

Having read the new proposals for the road and tunnel I write to object .

The site known as 'Stonehenge ' is a sacred site of not only great beauty but of great spiritual significance . The soil beneath it is actually part of its sacredness , Mother Earth . The stones and surrounding area are all part of this vast incredible structure . Both of amazing historical and spiritual value .

I would be great to move the road away from the site . There is a proposal to take the road much further south . This would be an enlightened and positive outcome . Preserving the site for future generations . I'm aware this is a more expensive option but the cost compared to the damage of digging into such a special site will surely be worth it in the terms of history .

In these current times it may seem strange to be concerned about digging into a sacred site of the past but this land is actually part of this whole massive very early 'temple ' complex .

Please spend the extra amount to divert the road away from the site .

I thank you for your time , and hope for a positive outcome .

Yours sincerely ,

Andrew Flint Shipman
