

APPLEGREEN PLC

M42 Junction 6 Development Consent Order Application

UPDATE IN RESPECT OF PROPOSED MSA AT M42 JUNCTION 4

5th November 2019

The following email exchange provides an updated response to the Examining Authority's First Written Question 1.0.3 which reads: *Motorway Service Area (MSA) - Could SMBC provide an update on the progress of the two undetermined planning applications for MSAs at Junctions 4 and 5?*

As the subsequent information makes clear, Highway's England has resolved all 'holding matters' in relation to the Junction 4 MSA and is now in the process of drafting conditions.

Hi Jon,

Apologies for the delay in responding. I can confirm that the GG104 safety risk assessment has been approved, and that we are currently working up proposed draft conditions which would need to be attached to any planning consent.

We'll obviously share these with you in due course,

Regards,

Patsy

Patsy/ Catherine,

Further to my email last week, are you able to provide an update?

Kind Regards

Good afternoon Patsy,

I was wondering if you could provide an update on the GG104 that you received from Lawrence Osborne on 14 October.

Also are you in a position to share the list of draft planning conditions?

Kind Regards
