The graph illustrates the projected increase in the percentage of the population aged 65 and over in several countries from 1950 to 2050. The Y-axis represents the percentage of the population aged 65 and over, ranging from 0 to 20. The X-axis represents the year, from 1950 to 2050. The countries shown are Japan, Germany, Italy, France, the United Kingdom, and the United States. All countries show a significant increase in the percentage of the population aged 65 and over over time, with Japan and Germany showing the most dramatic increases.
