3 September 2021

Dear Natasha Kopala,

**RE: Planning Act 2008 (as amended) and the Infrastructure Planning (Examination Procedure) Rules 2010**

Thank you for your letter on behalf of the Secretary of State dated 16 August 2021 regarding the application by Highways England for an Order granting development consent to make improvements to the M25 Junction 10/A3 Wisley Interchange.

Please find below the response to the request for comments from Elmbridge Borough Council, regarding question one from the Secretary of State:

**‘1. Request for comments from Interested Parties on the Applicant’s response to the Secretary of State’s letter of 26 July 2021’**

We do not have any further comments to make on the Applicant’s response at this stage.

On the 25 August 2021, the Applicant has also shared the Air Quality Baseline Monitoring Technical Note which show the results of the three-month pre-construction monitoring that was undertaken earlier this year. The pre-construction baseline results will enable accurate monitoring for dust and nitrogen dioxide and particulate matter (PM10 and PM2.5) at the three selected sensitive locations to be compared once the construction phase commences.

If you have any further questions, please let us know.

Yours faithfully,

Kim Tagliarini  
Head of Planning Services
