Dear Sir / Madam,

Ripley Parish Council considered the Head of the Transport Infrastructure Planning Unit's letter dated 16th August 2021 at its meeting held this evening.

Ripley Parish Council has had sight of Ockham Parish Council's response, and wishes to offer its full support to the comments already entered by Cllr Jamieson. The need to arrest anthropogenically-induced climate change outweighs the requirement for slightly shortened journey times, and needs to be given paramount importance.

Yours faithfully,
