Dear Sir or Madam

As you will be aware, there are several active badger setts within the scheme area, many of which will be severely impacted if the scheme goes ahead. We have particular concerns in regard to the siting of the artificial setts as from past experience, these setts have often been poorly sited, not built early enough and not monitored afterwards.

Firstly, therefore, we request details of the latest proposal with specific regard to badgers.

Secondly, if development consent is granted, we request that the West Surrey Badger Group is consulted and involved throughout the process.

Thank you for your consideration.

Sincerely

Sue Carden
Secretary
West Surrey Badger Group
