Subject: Re: TR010034 – A57 Link Roads

Hi while doing this road project is there any chance in making the junction with tavern Road narrower? A lot of cars use this junction like a roundabout and do so at speed and with it being such a wide junction and on one of the main paths (for a school to) it's in everyone's safety to make it easier and vulnerable road users will be more visible while trying to cross the road.

Regards
Will mather
