many thanks for the information provided.

as i have stated many times before, this bypass is a total waste of money and will do nothing to reduce pollution, the amount of traffic and will not help tintwhistle at all.

the only way forward is to re-open woodhead tunnel and the rail link to sheffield.

i do not have a car, if i want to travel to sheffield by train i have to travel to manchester picadilly, then take the train to sheffield! how bonkers is that!

i also would like to point out that there is a proposal to build a further 2,500 houses on godley green, this will create at least another 5,000 cars! where will they all go!

the by-pass will be obsolete before it is finished!

best

neil:-)
