# A585 Windy Harbour to Skippool scheme **Statement of Community Consultation**

March 2018

## Introduction

We (Highways England) are publishing **this Statement of Community Consultation (SoCC)** in connection with a proposed improvement to the A585 between the Windy Harbour junction and Skippool junction in Lancashire. The purpose of this document is to set out how we will consult the local community in the vicinity of the scheme about the proposed application. The document also provides background to the scheme and how the application to build it will progress.

## The application

We are developing this scheme under the Planning Act 2008 and are publishing this statement under Section 47 of that Act. We have consulted Fylde Borough Council and Wyre Council, the local authorities responsible for areas where the scheme will be built, about plans to consult the local community.

The Planning Act 2008 requires us to make an application to the Secretary of State through the Planning Inspectorate for a Development Consent Order (DCO) to build the scheme. The Secretary of State's role is to consider whether authorisation should be given for major infrastructure projects like this scheme. We anticipate that a DCO application for the scheme will be submitted in October 2018. The Planning Inspectorate will examine the DCO application and the Secretary of State will decide on whether the scheme should go ahead.

Government policy relating to the development of the national road network is set out in the National Networks National Policy Statement (NNNPS). This provides the framework for DCO applications to be considered against.

When we submit the DCO application, the Secretary of State must consider whether our consultation has been adequate. This pre-application consultation will be important in relation to the examination process that follows after an application is accepted by the Planning Inspectorate. Therefore, the best time to provide feedback on this scheme is now by taking part in this pre-application consultation.

You can find more information about the Planning Inspectorate and the Planning Act 2008 on their Gov.uk website <http://infrastructure.planninginspectorate.gov.uk> or by calling the Planning Inspectorate on 0303 444 5000.

## The scheme

The A585, between Windy Harbour junction and Skippool junction is a severe bottleneck, affecting people's journeys between the M55 and the northern part of the Fylde peninsula. The proposals for the scheme were developed in response to the problems identified in the South Pennines Route Based Strategy Evidence Report (February 2014). The scheme was identified as being required to address the problems in this location, and a Strategic Outline Business Case was prepared.

We announced our preferred route on 24 October 2017. The preferred route is a new bypass to the south of the current route. This includes upgrading a section of road from Windy Harbour junction to a dual carriageway, then moving on to a new stretch of road with a junction at Garstang New Road, bypassing Little Singleton and creating a new junction with the A586 Garstang Road East, before tying back in to the existing road at a new junction east of Skippool.

The announcement follows the non-statutory consultation in 2016 – in which 78 percent of people and both Fylde and Wyre Councils backed the bypass option over an alternative to improve the existing single carriageway road.

The scheme objectives are:

- Reduce congestion on the existing A585 through Little Singleton, Shard and Skippool junctions and making people's journeys more reliable
- Support employment and residential/commercial development and growth opportunities
- Improve connectivity and access across the existing A585 between the Little Singleton and Skippool junctions
- Create a more appealing environment for cyclists and pedestrians and support the sense of community along the A585 between Windy Harbour and Skippool

### **Consulting the community**

In accordance with Section 47 of the Planning Act 2008, we are consulting people living in the vicinity of the proposed scheme.

We have already carried out consultation on options for the scheme. The non-statutory public consultation exhibitions took place between September and October 2016 when members of the public were asked for their views. More details, including the outcomes of this consultation is included in the public consultation report, available to download from <http://roads.highways.gov.uk/projects/a585-windy-harbour-to-skipool/>, by emailing [A585WindyHarbourtoSkipool@highwaysengland.co.uk](mailto:A585WindyHarbourtoSkipool@highwaysengland.co.uk) or to view for the duration of the consultation period at the deposit point locations listed below.

In Addition, three Community Reference Group meetings have been held during 2016 and 2017 that have included representatives from the local councils, residents associations and some of the local interest groups.

We want to make sure that the local community, the residents, local interest groups, businesses, visitors and road users have the opportunity to fully understand the scheme and comment on our proposals. To do this we are holding our statutory consultation between March and May 2018. It will start on 21 March and will end on 8 May, during which we will provide consultation information on various issues including:

- Proposed route and strategy
- Works to the existing road ("de-trunking")
- Environmental assessments and potential environmental impacts

- Potential environmental mitigation measures
- Arrangements during construction of the scheme

We are in the process of carrying out an Environmental Impact Assessment. The scheme is an Environment Impact Assessment; therefore we are publishing a Preliminary Environmental Information (PEI) Report and a Non-Technical Summary (NTS) as part of the consultation material. This gives information about the potential environmental effects of the scheme and the measures proposed to reduce those effects, so to assist well-informed responses to the consultation. The PEI Report has been developed based on assessment work done to date. The PEI Report and the NTS will be available at the consultation events. A copy of the PEI Report and the NTS are also available online or to view at the deposit locations listed.

All comments received will be considered and will influence, where possible, any further refinements to the Project and our approach to environmental mitigation.

Our consultation will involve:

## Next steps

Comments made during the consultation will be recorded and we will carefully consider them when developing the scheme proposal. An explanation of how comments received have shaped and influenced our proposals will be reported in a Consultation Report, which will accompany the DCO application as required by Section 37(3) (c) of the Planning Act 2008. The Planning Inspectorate will decide whether the application meets the required standards to proceed to examination, and will determine whether our pre-application consultation has been adequate.

We need to collect and assess all responses to consultation before compiling the DCO application to the Planning Inspectorate. To allow time to do this, we must receive feedback by the 8 May 2018.

### PUBLIC NOTICES

### PUBLIC NOTICES

Highways England is planning to deliver capacity enhancements to the Strategic Road Network whilst reducing congestion on the existing A585 through Little Singleton, Sharn and Skippool junctions. This will include upgrading the section of road from Windy Harbour junction to a dual carriageway, then moving on to a new stretch of road, bypassing Little Singleton and creating a new junction with the A585 Garstang Road East, before tying back in to the existing road at a new junction east of Skippool. The scheme would reduce the impact of traffic on the local community and remove a major bottleneck on this route.

We intend to make an application to the Planning Inspectorate under section 37 of The Planning Act 2008 for a development consent order to authorise construction of the scheme.

Before making our application we must produce a document called the Statement of Community Consultation setting out how we will consult the local community about our proposals. We also must make this statement available for inspection by the public and publish this notice stating where and when the statement can be inspected. We then must carry out consultation in accordance with the statement.

This notice contains a summary of the consultation details. However, full details of the consultation can be found in the Statement of Community Consultation. This can be viewed along with our consultation materials, online at: <http://roads.highways.gov.uk/projects/a585-windy-harbour-to-skipool/> or at the following deposit locations from the start of our consultation period 21 March to the 8 May. **Please note:** Consultation materials will be available from the start of the consultation date on the website and deposit locations, as detailed, not in advance.

The scheme is an Environmental Impact Assessment development, which means a Preliminary Environmental Information (PEI) Report has been produced (to describe the environmental effects of the scheme) and is being consulted on alongside the other consultation documents. It also means that an environmental statement will be produced and submitted with the application in due course.

## PUBLIC NOTICES

Highways England is planning to deliver capacity enhancements to the Strategic Road Network whilst reducing congestion on the existing A585 through Little Singleton, Sharncliffe and Skippool junctions. This will include upgrading the section of road from Windy Harbour junction to a dual carriageway, then moving on to a new stretch of road, bypassing Little Singleton and creating a new junction with the A586 Garstang Road East, before tying back in to the existing road at a new junction east of Skippool. The scheme would reduce the impact of traffic on the local community and remove a major bottleneck on this route.

We intend to make an application to the Planning Inspectorate under section 37 of The Planning Act 2008 for a development consent order to authorise construction of the scheme.

Before making our application we must produce a document called the Statement of Community Consultation setting out how we will consult the local community about our proposals. We also must make this statement available for inspection by the public and publish this notice stating where and when the statement can be inspected. We must then carry out consultation in accordance with the statement.

This notice contains a summary of the consultation details. However, full details of the consultation can be found in the Statement of Community Consultation. This can be viewed along with our consultation materials, online at: <http://roads.highways.gov.uk/projects/a585-windy-harbour-to-skipool/> or at the following deposit locations from the start of our consultation period 21 March to the 8 May. **Please note:** Consultation materials will be available from the start of the consultation date on the website and deposit locations, as detailed, not in advance.

#### READER OFFER

Could you unlock tax-free money from your home? Equity release could allow you to access your property's wealth.

- ✓ Tax-free cash lump sum
- ✓ Maintain home ownership
- ✓ No monthly repayments required

Homeowners aged 55 plus could benefit from releasing money locked up in their homes. Multi-award-winning equity release specialists Age Partnership can help homeowners decide if equity release is right for them. How much they can release and what impact it could have on the size of their estate including their entitlement to means-tested benefits now, or in the future. Any money released, plus accrued interest would be repaid upon death, or moving into long-term care.

Equity Release may involve a home reversion plan or a lifetime mortgage which is secured against your property. To understand the features and risks, ask for your personalised illustration. We provide initial advice for free and without obligation. Only if you choose to proceed and your case completes would a fee of 1.95% of the amount released be payable (minimum £1,495).

### PUBLIC NOTICES

#### PUBLIC NOTICES

highways england

Highways England is planning to deliver capacity enhancements to the Strategic Road Network whilst reducing congestion on the existing A585 through Little Singleton, Sharncliffe and Skippool junctions. This will include upgrading the section of road from Windy Harbour junction to a dual carriageway, then moving on to a new stretch of road, bypassing Little Singleton and creating a new junction with the A586 Garstang Road East, before tying back in to the existing road at a new junction east of Skippool. The scheme would reduce the impact of traffic on the local community and remove a major bottleneck on this route.

We intend to make an application to the Planning Inspectorate under section 37 of The Planning Act 2008 for a development consent order to authorise construction of the scheme.

Before making our application we must produce a document called the Statement of Community Consultation setting out how we will consult the local community about our proposals. We also must make this statement available for inspection by the public and publish this notice stating where and when the statement can be inspected. We then must carry out consultation in accordance with the statement.

This notice contains a summary of the consultation details. However, full details of the consultation can be found in the Statement of Community Consultation. This can be viewed along with our consultation materials, online at: <http://roads.highways.gov.uk/projects/a585-windy-harbour-to-skipool/> or at the following deposit locations from the start of our consultation period 21 March to the 8 May. ### Section 47 Planning Act 2008

### Notice Publicising a Statement of Community Consultation

Highways England is planning to deliver capacity enhancements to the Strategic Road Network whilst reducing congestion on the existing A585 through little Singleton, Shard and Skippool junctions. This will include upgrading the section of road from Windy Harbour junction to a dual carriageway, then moving on to a new stretch of road, bypassing Little Singleton and creating a new junction with the A586 Garstang Road East, before tying back in to the existing road at a new junction east of Skippool. The scheme would reduce the impact of traffic on the local community and remove a major bottleneck on this route.

We intend to make an application to the Planning Inspectorate under section 37 of The Planning Act 2008 for a development consent order to authorise construction of the scheme.

Before making our application we must produce a document called the Statement of Community Consultation setting out how we will consult the local community about our proposals. We also must make this statement available for inspection by the public and publish this notice stating where and when the statement can be inspected. We then must carry out consultation in accordance with the statement.

This notice contains a summary of the consultation details. However, full details of the consultation can be found in the Statement of Community Consultation. This can be viewed along with our consultation materials, online at:

<http://roads.highways.gov.uk/projects/a585-windy-harbour-to-skipool/> or at the following deposit locations from the start of our consultation period 21 March to the 8 May. **Please note:** Consultation materials will be available from the start of the consultation date on the website and deposit locations, as detailed, not in advance.

## Don't stop loving life.

Retired plumber and Scottish bodybuilding grandad Jimmy Bennie, 74, was named Over 70s Natural Bodybuilding World Champion in Miami in 2013, and he's still going strong.

Of course, you don't have to go to those lengths to make the most of life - but with Co-op Funeralcare you can plan and pay for your funeral in advance.

Our fully guaranteed funeral plans start at just £2,845 and cover all third party fees. Not every funeral plan provider will promise this and some will only pay a contribution towards them.

We don't agree with this, because we believe in doing right by you and your loved ones, which is why our funeral plans cover these costs, so they truly are 'fully guaranteed', giving you and your family complete peace of mind.

Right, funeral sorted, let's get back to loving life.
