Subject: A47/ A11 Thickthorn Junction Scheme - Secretary of State consultation
Date: 06 October 2022 15:01:27

Dear A47-A11 Thickthorn Junction Case Team

Thank you for your 5 October 2022 consultation of Interested Parties.

Anglian Water notes that one of the concerns of Natural England is the management of surface water. With reference to the draft DCO we note the requirement for additional drainage details to be approved following consultation (see draft Requirements 4 and 8). In order to ensure that any proposals to connect surface water drainage – temporarily or permanently – to the public sewer network do not cause pollution and the loss of biodiversity which Natural England have concerns over we would recommend that Anglian Water is added to the list of consultation bodies consulted under Requirements 4 and 8.

Enquiries regarding drainage capacity and design, in the event that the preferred option of nature based solutions including SuDS are not utilised, can be directed to:
