Rev 0	March 2021	Deadline 4

**Key**

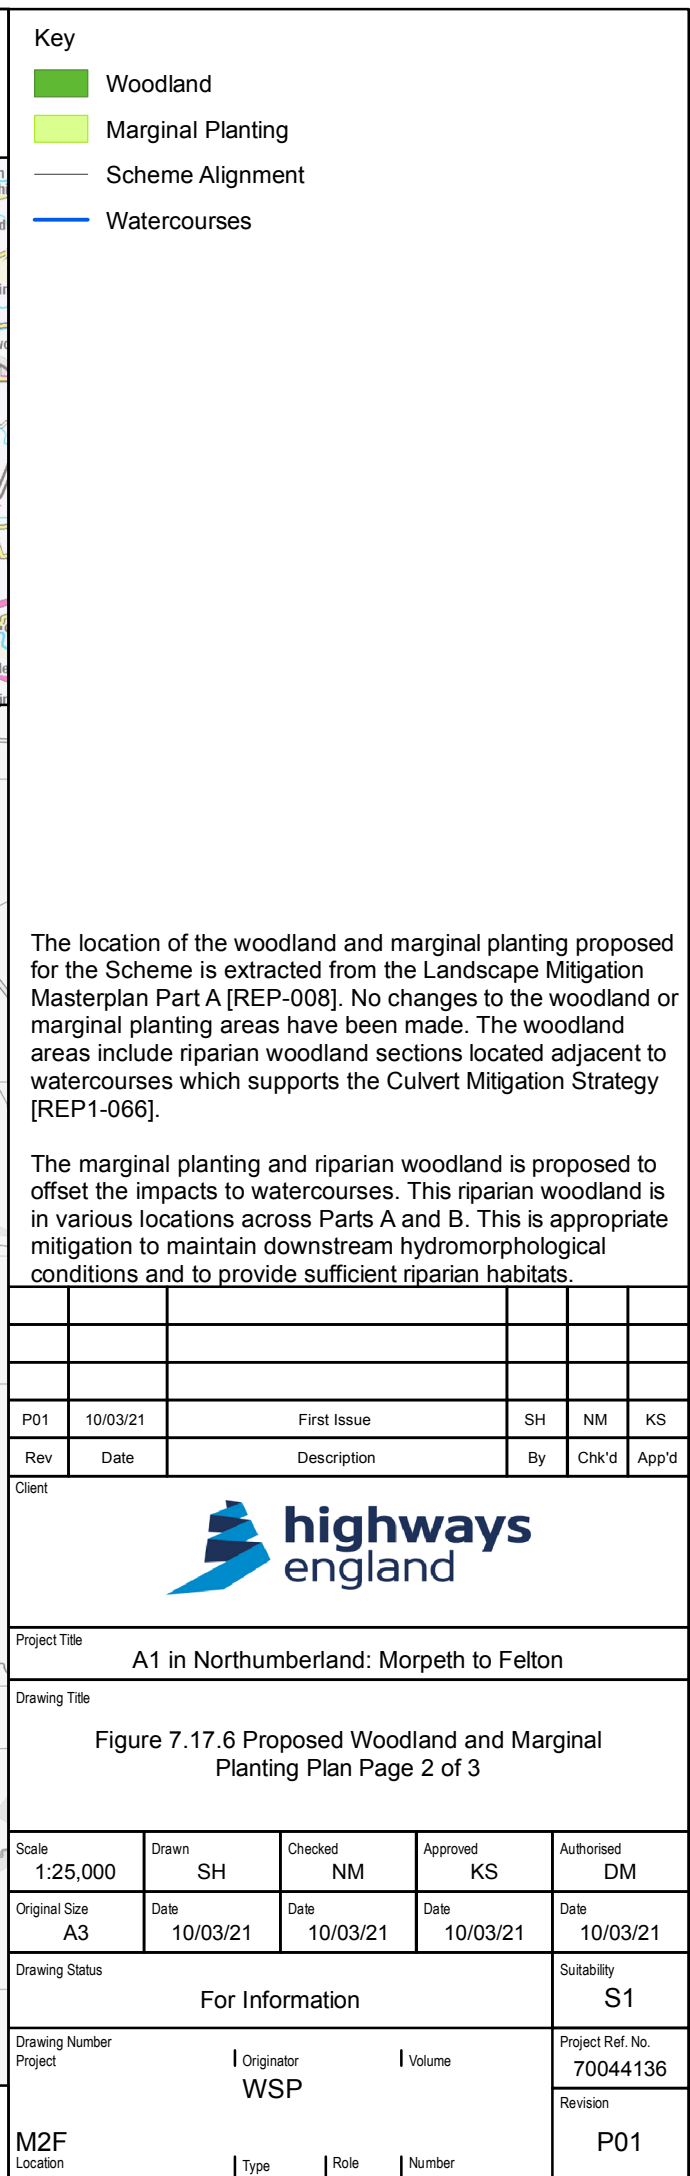

- Woodland
- Marginal Planting
- Scheme Alignment
- Watercourses

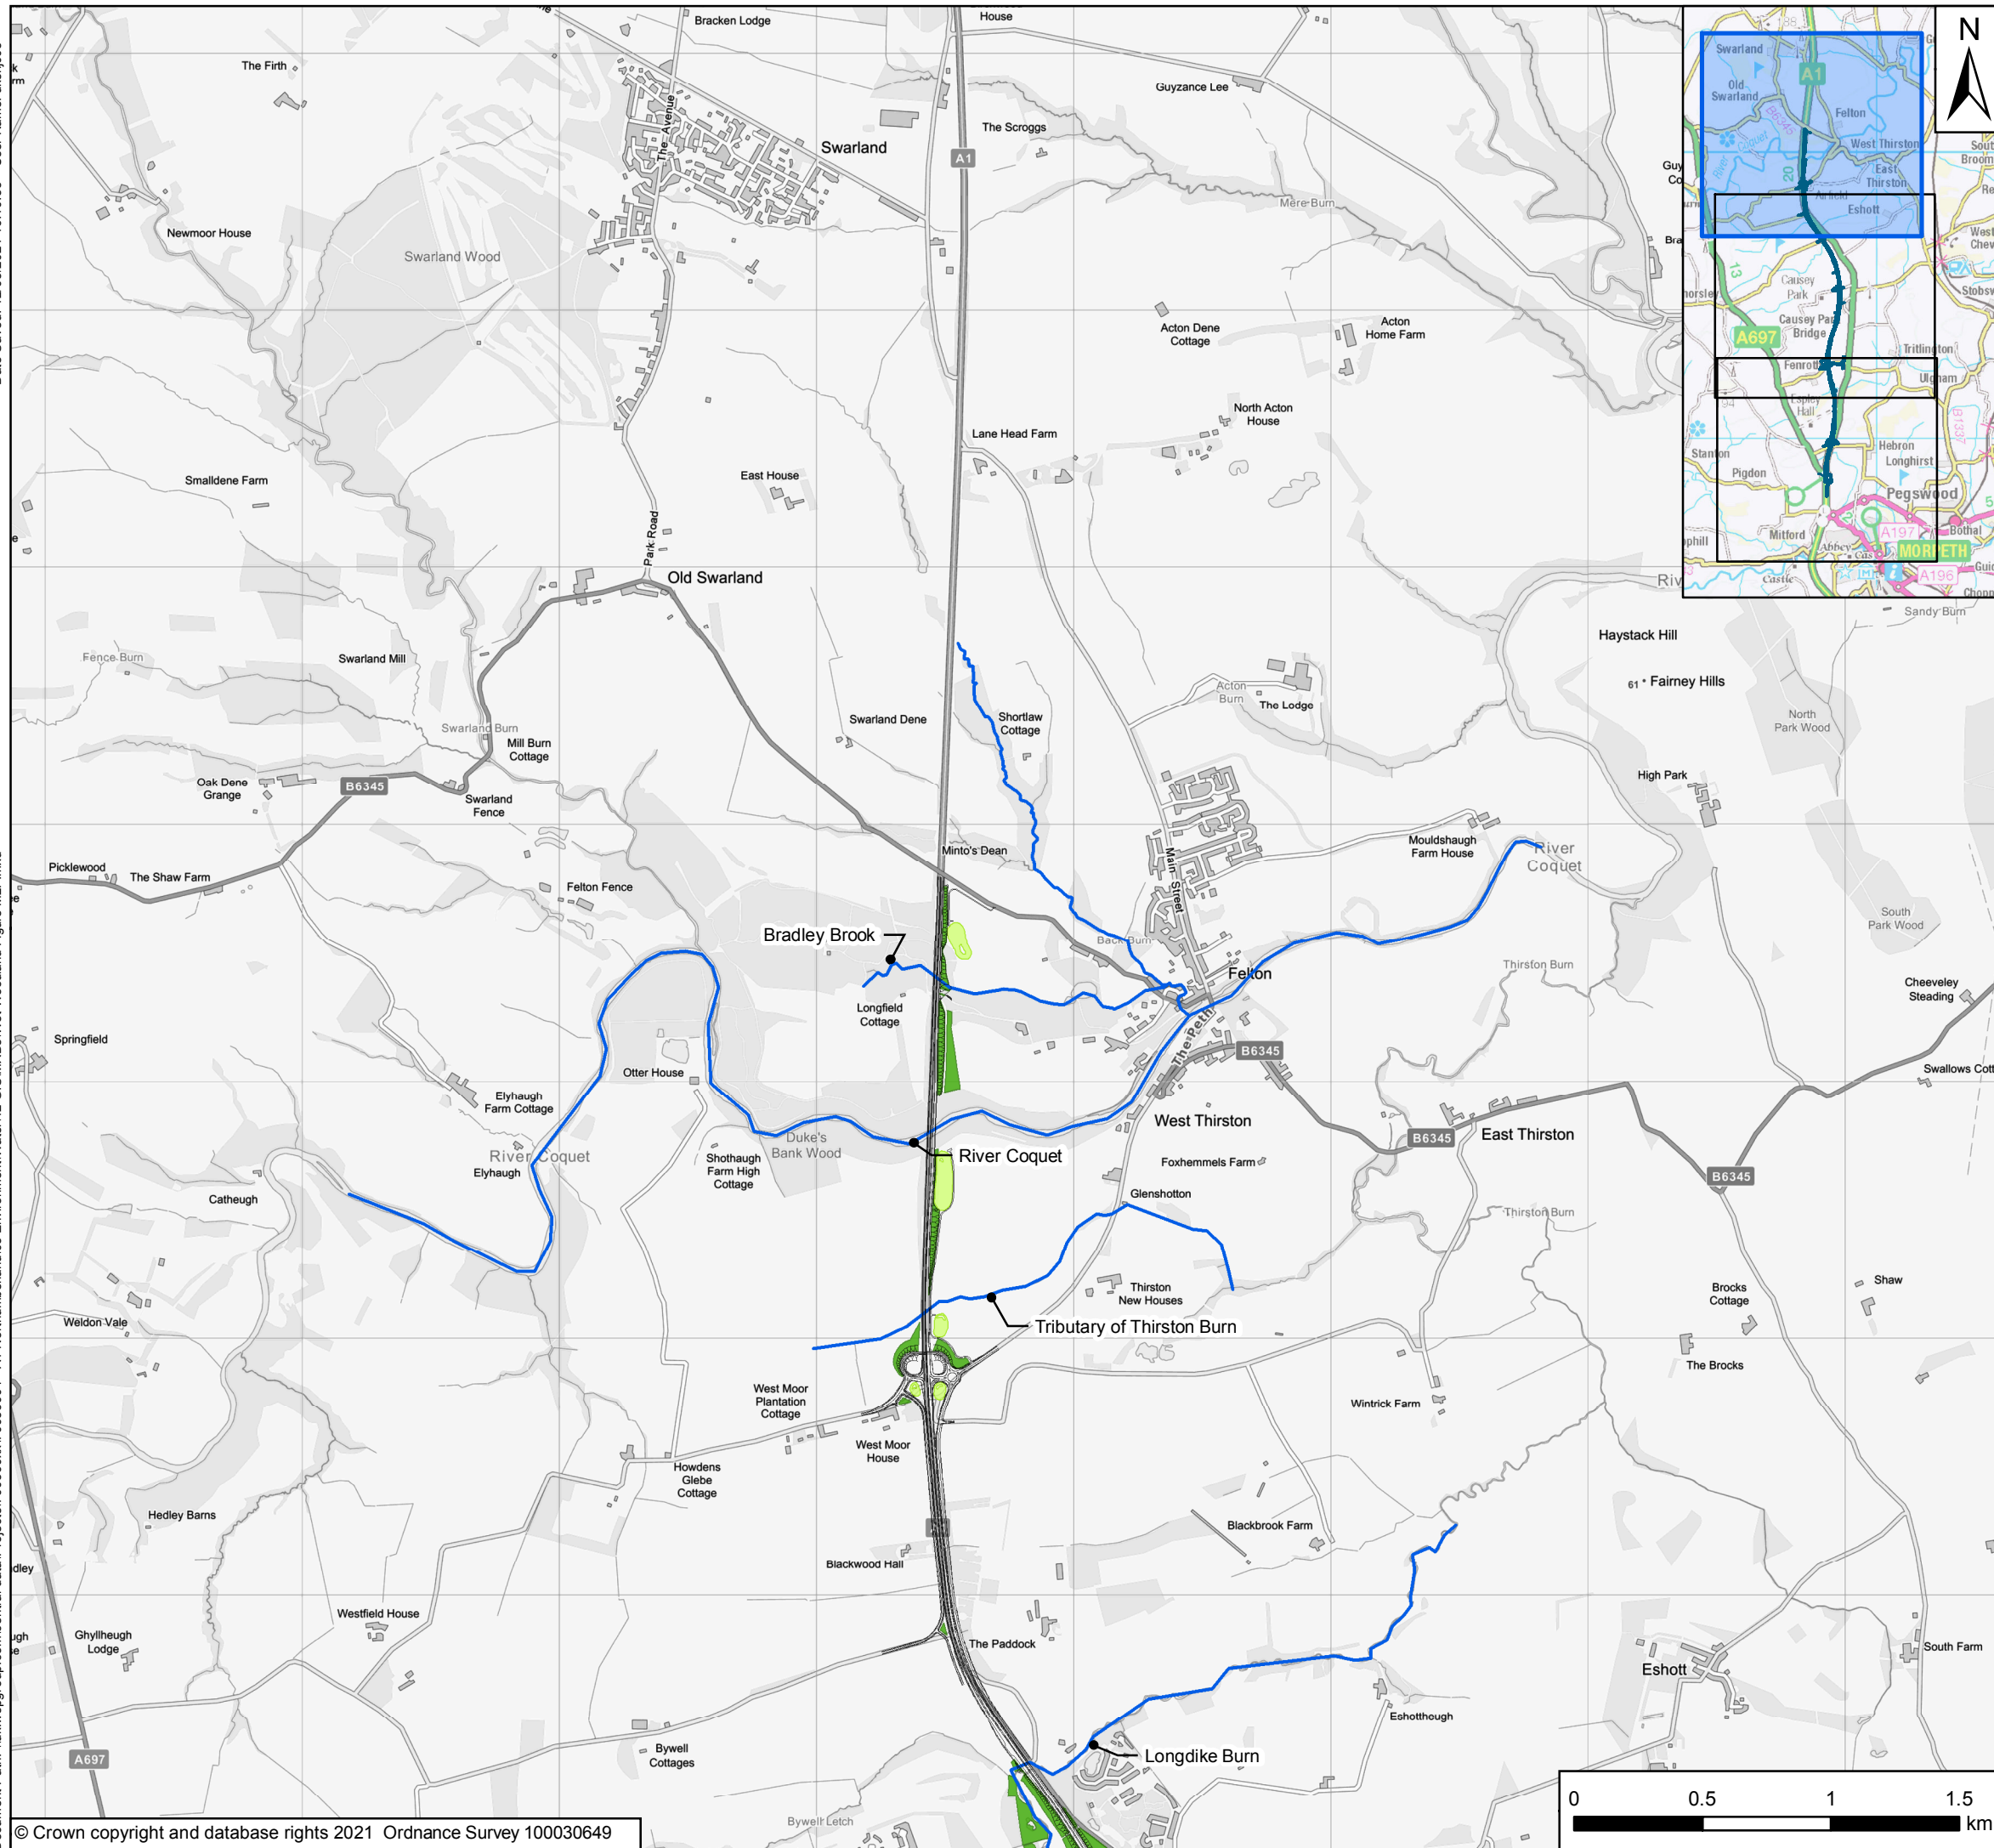

The location of the woodland and marginal planting proposed for the Scheme is extracted from the Landscape Mitigation Masterplan Part A [REP-008]. No changes to the woodland or marginal planting areas have been made. The woodland areas include riparian woodland sections located adjacent to watercourses which supports the Culvert Mitigation Strategy [REP1-066].

The marginal planting and riparian woodland is proposed to offset the impacts to watercourses. This riparian woodland is in various locations across Parts A and B. This is appropriate mitigation to maintain downstream hydromorphological conditions and to provide sufficient riparian habitats.
