1 INTRODUCTION

1.1 INTRODUCTION

- 1.1.1. This Application Document Tracker (this 'Tracker') relates to an application for a Development Consent Order (DCO) made by Highways England (the 'Applicant') to the Secretary of State for Transport via the Planning Inspectorate (the 'Inspectorate') on 7 July 2020 under section 37 of the Planning Act 2008 (the '2008 Act'). If made, the DCO would grant consent for A1 in Northumberland: Morpeth to Ellingham (the 'Scheme').
- 1.1.2. The application was accepted for examination on 4 August 2020. This Tracker was prepared in response to a Procedural Decision issued by the Examining Authority on 5 August 2020 which requested this Tracker be provided prior to commencement of the Relevant Representation period.
- 1.1.3. This is a live document and will be updated and submitted, when updated, for each examination deadline to help the Examining Authority and interested parties understand the application as it evolves through examination by identifying the latest version of any application document. This Tracker has been updated and submitted at Deadline 8a.
- 1.1.4. A change request was also submitted at Deadline 4. These changes were accepted for examination by the Examining Authority on 9 April 2021 and are now considered by the Applicant to form part of the Scheme. The relevant documents are now incorporated into the main table below and superseded previous versions where appropriate.

1.2 APPLICATION DOCUMENT TRACKER

- 1.2.1. This Tracker provides a full list of all the application documents submitted to date, indicating the latest version and when an updated application document is submitted now the Scheme is in examination. Where a document supersedes a previous version, the previous document will have a line drawn through it.
- 1.2.2. Any new documents submitted, i.e. those not submitted at application, during the course of the examination will also be added to this Tracker within the volumes grouped below as applicable. Those figures embedded within documents are not listed as they do not have a unique document reference.
- 1.2.3. For ease of navigation these documents are grouped by volumes as follows:

Volume		Content
1	Application Information	The completed application form, covering letter and introduction to the application and Applicant.
2	Plans/drawings/sections	Plans that illustrate the location of the Scheme, the proposed works, proposed land-take, engineering

Volume		Content
		drawings and other plans/drawings to support the application.
3	Draft Development Consent Order and Related Documents	The legal powers the Applicant is seeking to enable it to build, operate and maintain the Scheme, together with separate documents explaining the provisions of the Order and how other required consents will be obtained.
4	Compulsory Acquisition Information	Evidence of why the Applicant requires legal powers to compulsorily acquire land, how the Scheme would be funded and details of the land interests that are required for the construction and operation of the Scheme.
5	Consultation Report and Related Documents	Details of the pre-application consultation the Applicant has undertaken on the Scheme and how consultation feedback has been taken into account.
6	Environmental Statement and Related Documents	An assessment of the likely environmental impacts of the Scheme including any significant effects (both positive and negative) of the Scheme and a description of mitigation measures proposed to reduce any negative impacts.
7	Other Documents	Additional documents that support the application; these are not legally required but provide useful information on the Case for the Scheme, compliance with the NPS NN, Outline Construction Environmental Management Plan and Construction Traffic Management Plan.
